

Good morning ladies...
Its a very special day for you
you four...wrangled and put in
the barn for your inoculations.
Don't worry, you will be back
out with the herd in no time!

Its calving season and we need to expand the herd...you four have been picked as our breeders. The hormones in this injector will send you into heat. Then back to the fields with you...to frolick!

MOOOOOO

Hucows are such divas.
I am giving you the worlds
most potent aphrodesiac and you
behave like this....Bad cow.
MOOO all you like. But you will
thank me later!

Mooooo

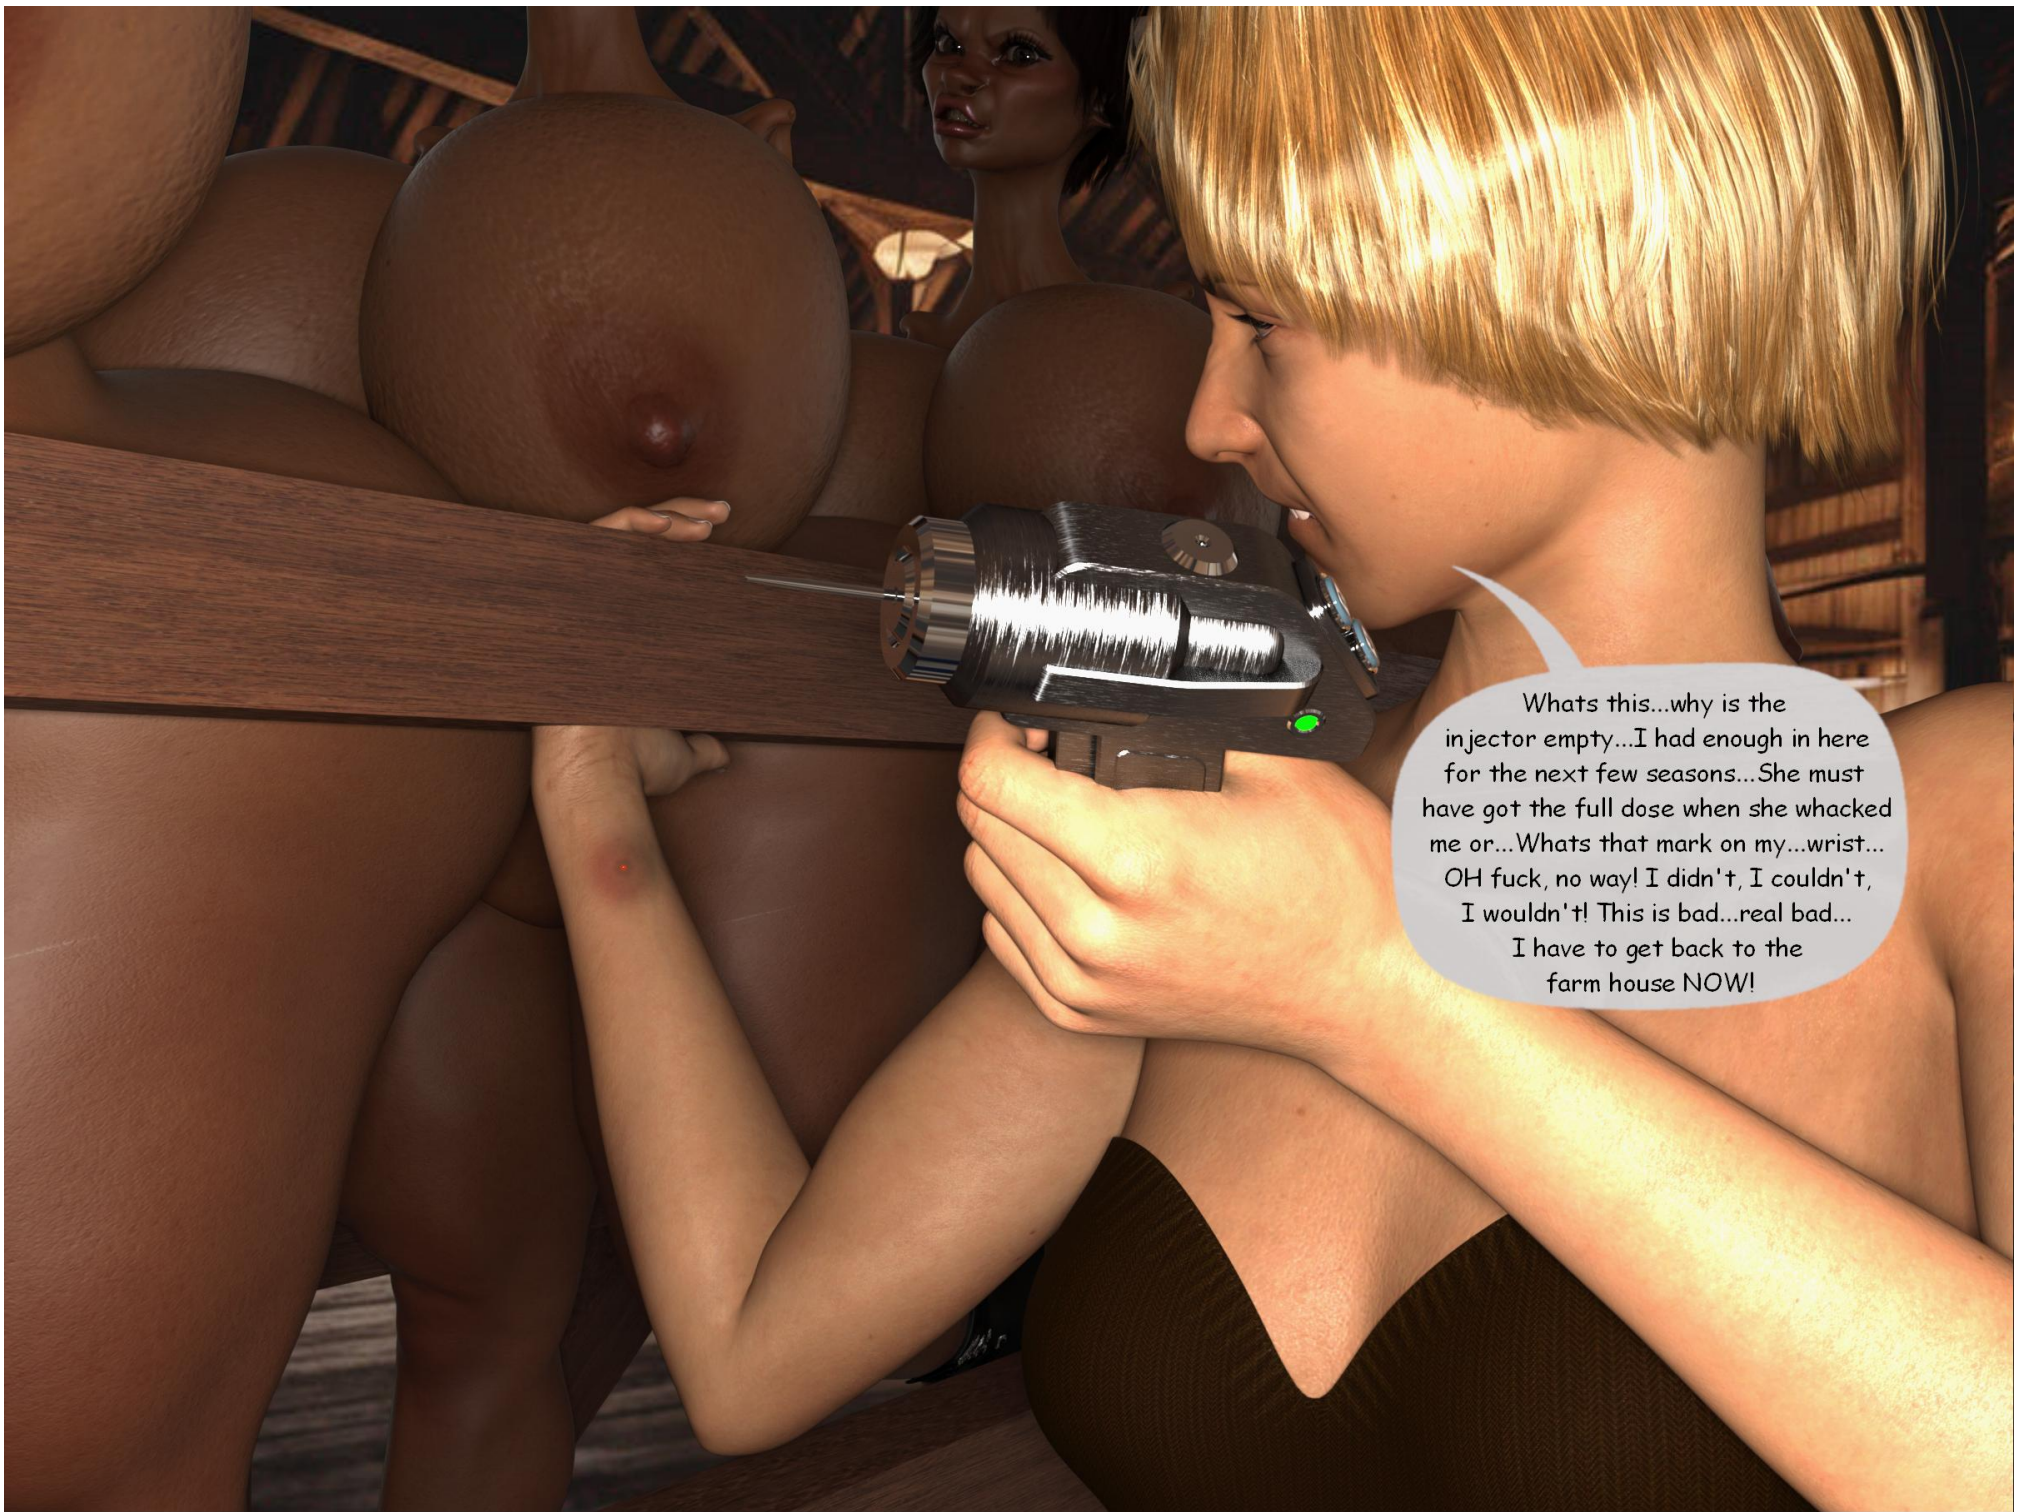

If I were in your place, I would be grateful...nobody ever gives me gifts like this...Your gonna be horny for months... fuck all the bulls and have the time of your life!

Moooo

SNIK!

Whats this...why is the injector empty...I had enough in here for the next few seasons...She must have got the full dose when she whacked me or...Whats that mark on my...wrist... OH fuck, no way! I didn't, I couldn't, I wouldn't! This is bad...real bad... I have to get back to the farm house NOW!

I have to get

across the property!

MOOOO

They are gone!
What MOORE could happen.
I need help...rescue! I need to
get to a phone before it is
too late. The nearest one is
back at the farm house!

MOOOO

Oh, its tearing me apart...
and my arms....dissolving...every
heartbeat they get sucked dry
and pushed into my tits...Fuck,
my tits are expanding! What
have I done to myself!

OH no, My arms are gone...Just like...a Hucow! Crap, its turning me into a cow! But just look at what its done to my tits... I look fantastic! These jeans aren't gonna contain this ass for long...

I am growing the horns...

The damn Hucow company better

My shirt popped like a balloon....and my pants...I can hear the seams popping...All my cows are MOOOING at me. Why am I just standing here! I gotta get home!

It falls over? No, this isn't even
the gate...its just MOOOORE
Fense...UH?

Fuck, I am stuck in here!
With all my heifers...I am

You are telling me that my sister is one of the HUCOWS? But thats terrible! Wha...What do I do... We have over 300 head of HuCow here! How will I ever tell? You gotta help me!

I talked to HuCOW labs! They say to isolate the heifers from the bulls and let the hormones work their way out of her system. With how much she injected it may take up to a full season to wear off

They also said to be quick about isolating the cows...if she gets pregnant! Then she will start producing those hormones naturally! In that case she will be stuck as a breeding female forever. UHGH. Disgusting creatures!

She was always such a strong willed woman...there is no way that she would breed with that bull...see this one here, with the tongue out...She is 100% breeding hucow...

MOOOOOOO
MOOOOOOO
MOOOOOOO

This is what me and my sister call a WHORECOW...I'll have to sell her off the HUCOW industries as a Milker...If you keep these around your bull will never produce enough calves...He'll just prefer this heifer forever.

Mooooooooo

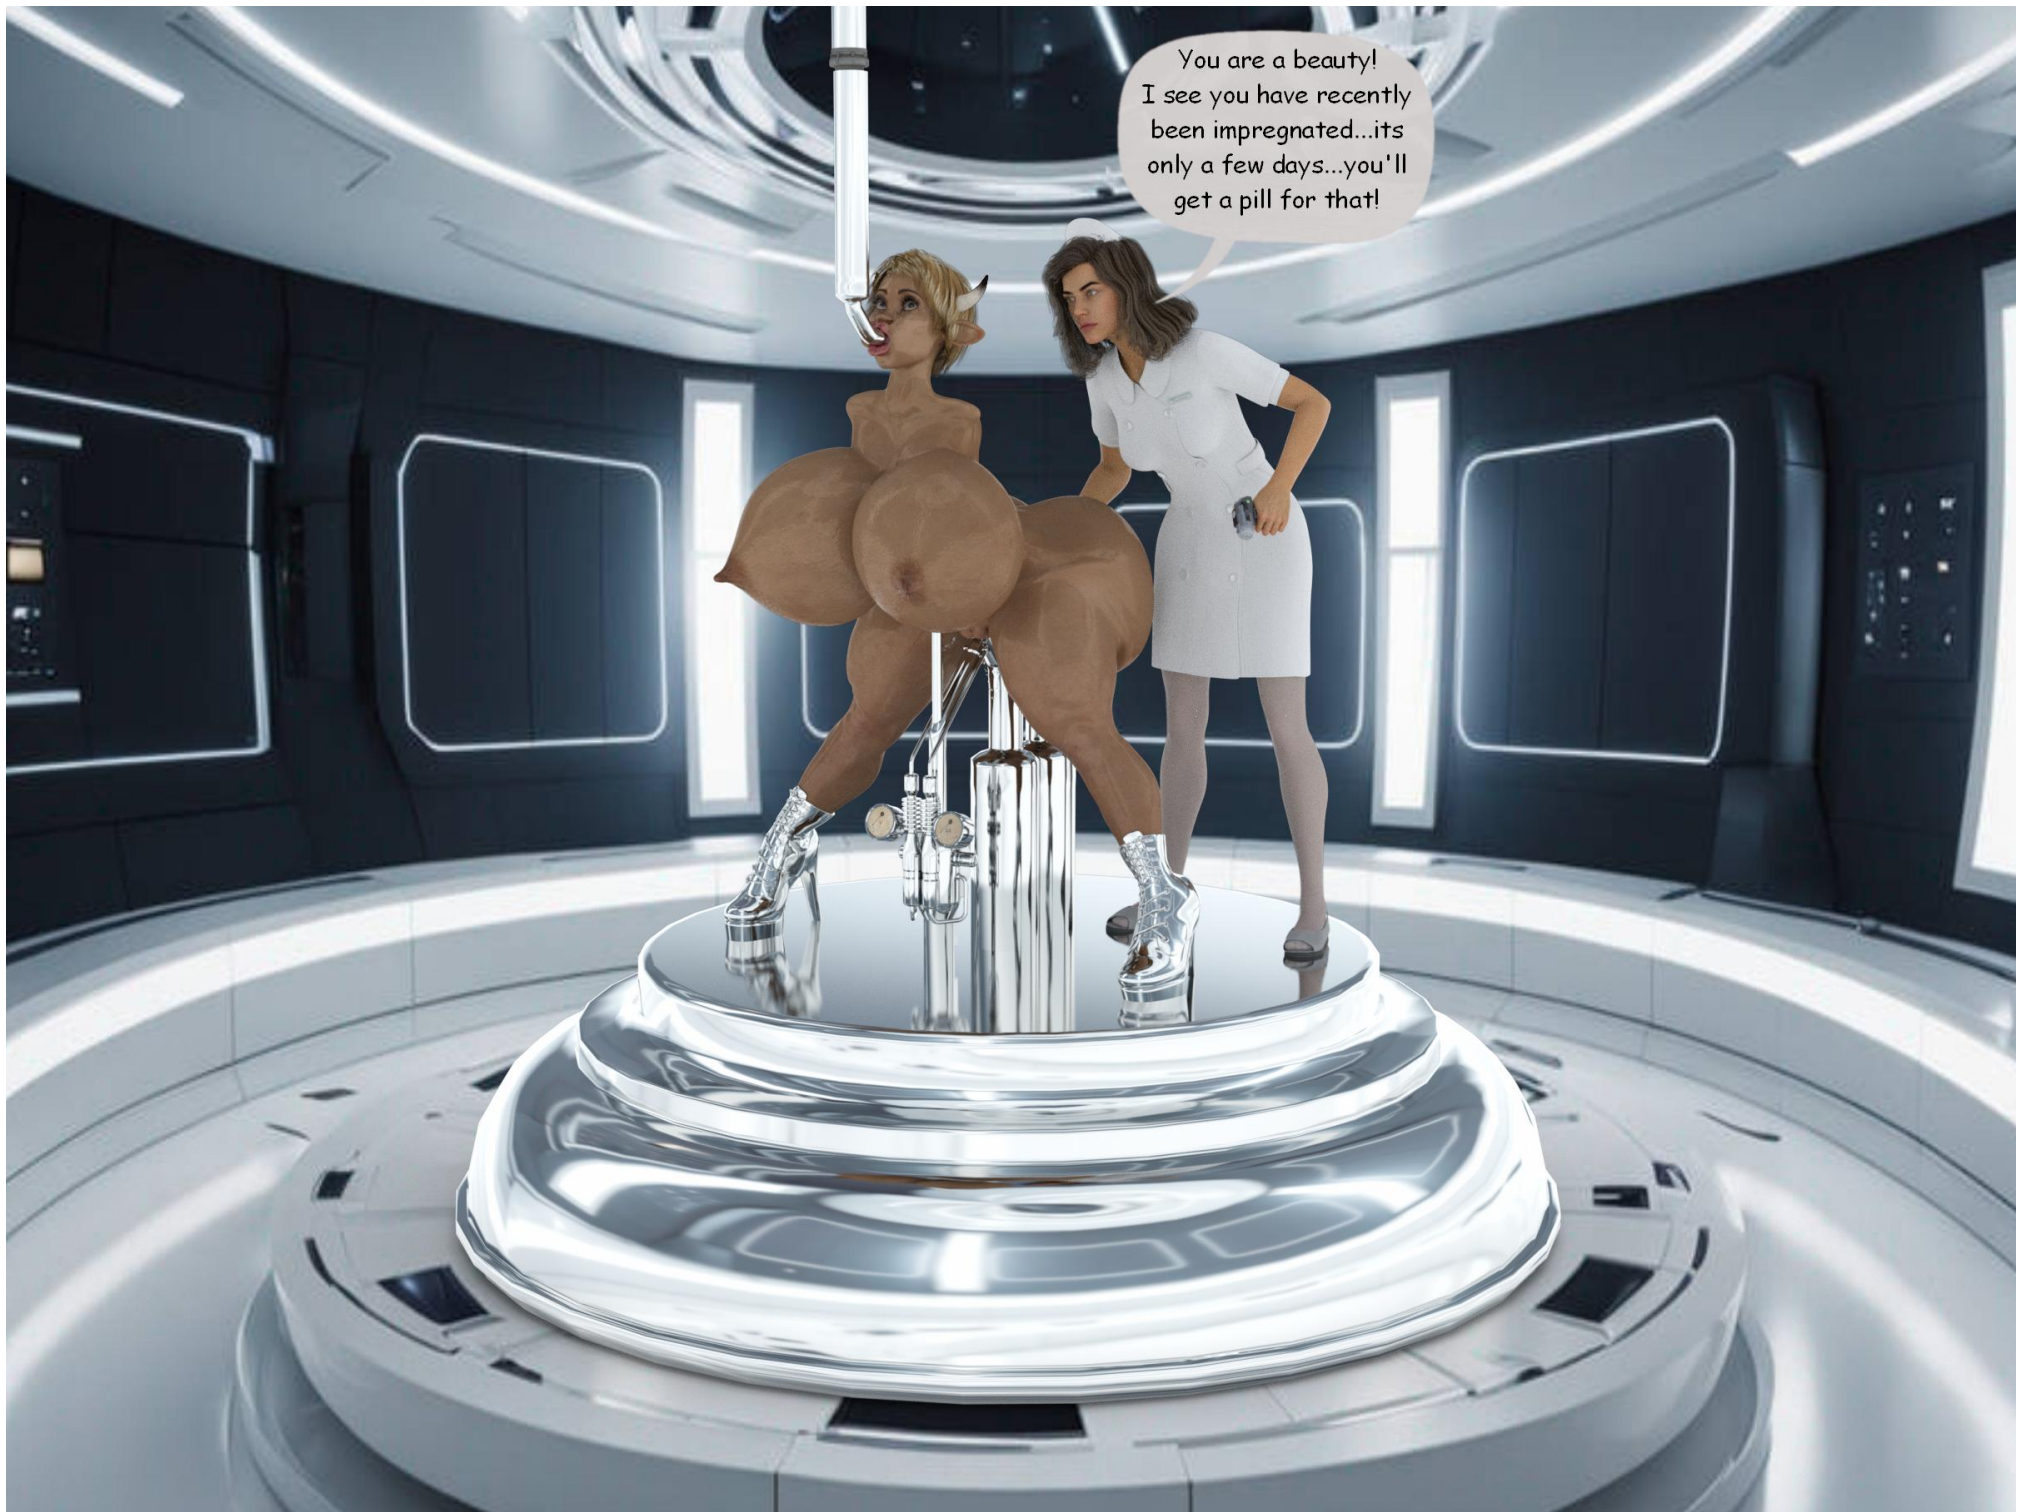

This thing needs to be off my farm...I cant be losing money while also trying to figure out which HUCOW is my big sister. They'll reload her with even more hormones and milk her. Its the best we can do for her!

Mooooooooo

You are a beauty!
I see you have recently
been impregnated...its
only a few days...you'll
get a pill for that!

I can't have you producing calves just to go and ruin all that milk...HAHA, your sister still thinks your at the farm. How foolish of her...you are much more potent than our average cow. Here, have another inoculation!

After your accident...
and then fucking that bull...
your body is completely transformed.
your milk...is a wonder drug...and I
get a big fat bonus for the more
of it i get out of you! Pity, your
farm could have used you!

I can't decide if deep down you are trapped in there and screaming to be saved or if you are screaming to cream and be milked! I hope it is endless conflict...why don't you just sit here and stew for a while...I'll see you MONDAY!
