

Chapter 179 - Nine months is a long time.

It was time for our date. I put on a nice outfit and waited for Lili. When she arrived downstairs, I saw her face was red.

"You look beautiful," I said to her. When she heard me, her ears twitched. She had been waiting for this compliment. "Should we go now? I haven't made restaurant reservations, but we can eat anywhere if I pay enough."

"I thought you'd already made a reservation."

"Sorry, I forgot."

"It doesn't matter. As you said, if you pay, it won't be a problem." Lili smiled and took my hand.

We left the mansion together and walked the street, oblivious to the stares of the people around us. By the way, the looks have diminished a lot. People already know about our relationship.

Well, we've been out in public together a few times.

"What do you think of that restaurant?" I pointed to a restaurant on the town's main street. Its facade was beautiful and bright; it was a very expensive restaurant. There were well-dressed people inside.

"I don't care about the restaurant. I just want to be with you."

"All right. There were many people inside, so let's find another restaurant. You probably wouldn't feel at ease among so many people." I laughed, and Lili pouted.

She couldn't deny it. She felt uncomfortable when there were too many people around.

So we walked for a few more minutes until we found the perfect restaurant. It was a restaurant I'd never seen the original story of, just like most places I'd been to.

As soon as we entered, we were greeted by a middle-aged woman. She had a smile on her face the whole time and was very friendly. We were taken to the farthest table next to the restaurant wall.

It was a table with two seats, made for a couple.

As soon as we sat down, the woman handed us the menu.

"As soon as you're ready to order, call me." The woman moved away from the table.

"What do you want to eat? This place seems to specialize in pasta. There are all kinds of pasta and sauces. Everything looks delicious." Lili said as she flicked through the menu. There were lots of options.

There were many types of pasta. It looked a lot like a restaurant from my old world; even the names of the dishes were similar.

"I'll order a spaghetti with meatballs."

"I'll order the same thing then."

"Are you sure? You can order whatever you want."

"Yeah, don't worry."

"All right."

I called the waitress over, and she took our order.

While we waited for our food, I ordered some drinks for myself and a cold juice for Lili since she couldn't drink because of her pregnancy. After almost twenty minutes, our food arrived.

We ate while chatting happily. I told her about my recent adventures in the dungeon, and then we talked about Lili's pregnancy. She seemed to get more excited every day.

'I'm pretty excited and anxious too. Nine months is a long time...'

After my date with Lili, I returned to the mansion with her, and she was pretty tired. Today, I also have an appointment with Hestia. I'll have sex with her.

In addition, I also want to update my falna.

Even though I don't need to update it since I can see all my statuses through the system, it's good for Hestia to update it and get an idea of my strength.

"I'm sleepy. I'm going to my room now."

"Sleep well, Lili." I kissed her lips, and she went upstairs.

I'm alone now. I had a glass of water and then sat on the living room sofa to think about what had happened. "My proposal to Ishtar... Was it a good idea?"

I don't know if it was a good idea. She could betray me in the future, or I could end up dying if Freya decides to attack me. Even if I am strong, I can't fight a goddess now.

'Or can I?' No, better not risk it.

Once I've fulfilled my agreement with Ishtar and killed Hedin, there's no way Freya will not do anything. "Maybe she's even watching me and already knows about my proposal... No, that's impossible."

But it's best not to think about that now. I'm confident I can handle this situation very well.

"Why are you so pensive?" Then Hestia came down the stairs. She was wearing her white dress with a big neckline. I told her that this dress turned me on, so maybe that's why she put it on.

As well as her gloves.

"I was thinking about some unnecessary things."

"Now I'm curious." Hestia sat down next to me and started stroking my thigh.

"It's nothing. Should we go up to my room or your room? We've never had sex in your room in this mansion, have we?"

"No, not yet." Hestia gave a mischievous smile and looked away.

"All right." So I picked her up and carried her to the second floor and into her bedroom. As soon as we got inside, I locked the door to her room and threw her on the bed. Then I started to take off my clothes.

"Wait a second! Don't we have to update your falna first?"

"We can think about that later. First, I'm going to fuck you until you pass out."

"If I pass out, I won't be able to update your falna!"

"I don't care."

"WAAA! WAIT!"

"Don't shout, Lili's asleep."
