

Forever Gay

Think of "Forever Gay" like my other "Memories" files, but with your past knowledge of thinking you were into boring women being completely replaced with fantasies of hunky men and hard, sexy, cocks. The more you listen, the more you'll remember how much of a bottom slut you are. Desperate to get fucked by anything with a cock that walks into you field of vision.

While this recording doesn't deal with making you less attracted to women, it does spend a considerable amount of time increasing your attraction to men and remembering more and more always being that way. Soon all you'll remember from your adolescence is staring at cute guys in the shower and fantasizing about the football team using you like the total bottom you are. Recall how grateful you were to those boys at summer camp for letting you taste their hard cocks. Know that your favorite pastime has always been dressing in cute outfits before going to the gym to look for hunky men. You'll have enough fantasies by the end of this recording to keep yourself horny and desperate until you find yourself begging a hunky stranger to use your cute body any way he wants.

Stop being confused about who you are! The more you listen to this file, the gayer you will find yourself becoming and the more you will remember always having been that way! The choice is yours. Would you prefer to be temporarily straight? Or Forever Gay?
