

Monthly SFW/NSFW doodle requests

You can ask for a specific character or ship sketch per month. I'll try my best to fulfill 100% of the requests (it's not a guarantee though, it depends on how busy I am or how many requests I got, for example;;;;) but don't be afraid to ask, I'll be happy to draw it for you. I take both SFW and NSFW requests, I don't draw OCs, furies and mecha. Feel free to be as much specific as possible on your request.

It's fair to mention that the doodle can be coloured or just line art, it all depends on the inspiration and mood that I have in that moment and the time I can work on it.

All the finished requests will be posted online on twitter and instagram the next month. I'll post them all here in high-res to download, of course
