

**THE CUSTOMER IS ALWAYS RIGHT**

Did she really agree to all this? I can't believe that we would agree to do this many procedures to a single person... And the extreme nature of them is mind boggling...she is going to wake up unrecognizable!

She is a gold digger...her husband is a reclusive billionaire! She agreed to any and all plastic surgery so she didn't have to sign the prenuptial. She signed the contract without reading it too. Hell, I tried to talk her out of it too!

A woman with long dark hair is lying on a blue padded table. A large black tube is inserted into her mouth. A hand is holding a white syringe with a green plunger near her neck. The scene is set in a clinical or laboratory environment with a wooden floor.

She is beautiful too...  
and she is willing to get  
bimbofied for this guys  
fortune...Fuck me, look at this  
list...she is crazy, he is crazy.  
I guess you get what you  
deserve!

Its like the old  
question, "would you do that  
for a million dollars?" I think he  
just kept asking and she kept  
saying yes...dangerous game  
when he is a lawyer too!

Just look at the modifications for the eyes alone! And the amount of fillers and botox too! More is going into her than all of last weeks clients combined!

Lets mark her up and prep her for her numerous surgeries. Thank god she is going to stay under for the entire ordeal. She will wake up...different!

This is only the first work order for her! The office is working with her husband on two more contracts! Lipo, augmentations, gene therapy and long term hypnosis too!

A close-up photograph of a woman with dark hair lying down with her eyes closed. Her face is marked with several dark 'X' symbols and dashed lines, indicating planned surgical or cosmetic procedures. A hand is holding a syringe, injecting a substance into her cheek. The background is a wooden surface.

Hey, the boss just said we each get a bonus for the more extreme we push her augmentations...he said that we are legally immune to malpractice....

No kidding... she signed over her right of bodily autonomy to the husband and he signed it over to us. The only stipulation is that she must wake up with NO recovery necessary!

That's no problem!  
I can put her in a medicated coma until she is 100%. We can spend as much time as needed. Besides, the hypno and gene therapy works best applied over a whole year!

Did you say the bonus is an extra thousand dollars per CC of filler we put in her face? Yes!!! Holy fuck....Just keep filling syringes...I will find places to put it!

Did you see in her file that she has Ehlers-Danlos syndrome? Yep, Hyper elastic skin...we can keep pumping in filler and she will just keep stretching to meet our needs!

Great, get me the scalpell! The eye job is the tricky one! I have to make precision incisions inside the eyelids and then you make the injections...we can give her those hentai eyes she wants!

A close-up photograph of a woman's face during a cosmetic procedure. Her eyes are closed. A hand is using a scalpel to make an incision near her eye. Another hand is holding a syringe, injecting fluid into her eye. Her lips are being treated with a syringe. Dashed lines and 'X' marks are drawn on her face, indicating planned incisions or injection sites. Three speech bubbles contain text.

Just make the incision right there! The solution will inflate the eyeball permanently like a water balloon. Then Botox, right there....filler here! We will do it again as we need!

The hentai eyes are so sexy, its a new procedure! Just a few years ago and it was impossible. No-one really does it because it is so expensive....and recovery sucks. But she doesn't need to worry about that!

Look at how well her lips are taking in all these dural fillers...with that bonus...I think I can finally buy a house with just her lips....maybe I can get myself a new car too! This is kinda fun! NO RULES!

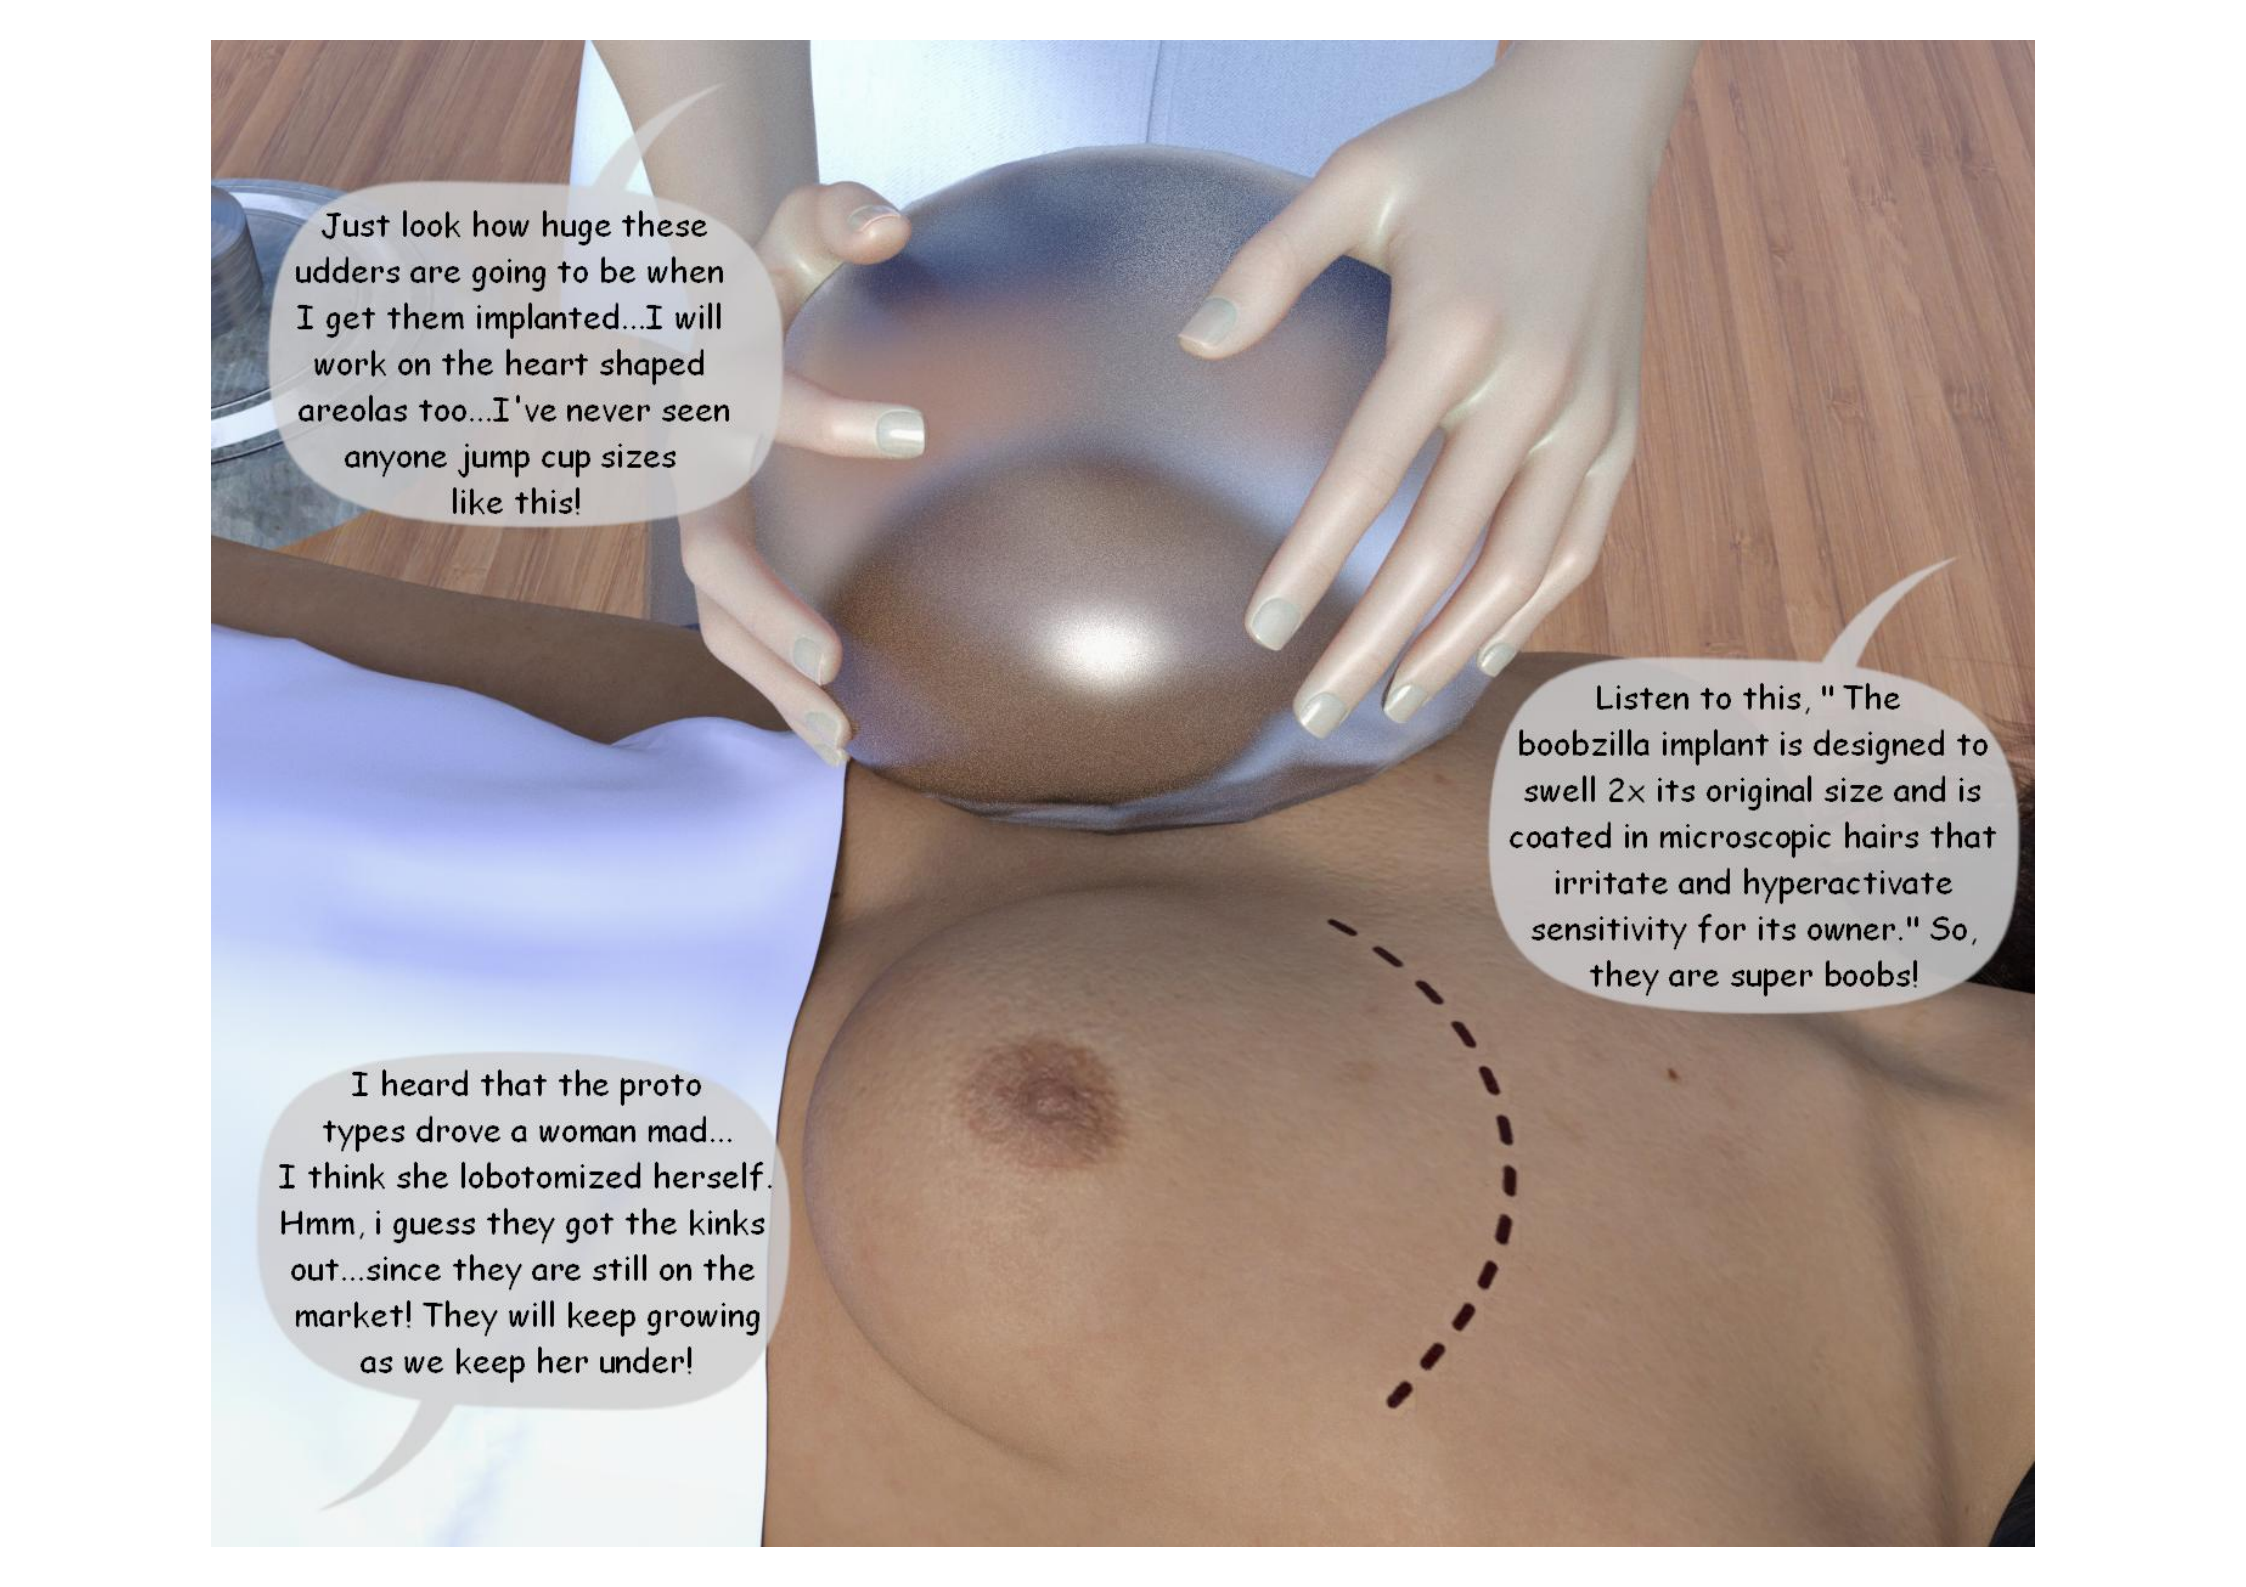

Just look at how extreme she already looks. You ladies do the finishing touches and I will go get her custom implants! Did you see the packaging? Its a huge box!

They don't even label them as a cup size... it just says XXX! The model number is just The Boobzilla. The implants alone cost these people over \$200,000 dollars. It must be nice to be rich!

I don't think it will fit!  
I can barely hold the thing...  
and she wants two of them...  
and she wants two of them  
bolted to her chest...haha,  
there are a few additional,  
"requests" here! She really  
likes the bimbo aesthetic!

Maybe she just wants to  
be in the news...you know the  
big headlines....  
"Most augmented woman!"  
"Woman spends millions on plastic  
Surgery", " The worlds biggest  
lips!"

Just look how huge these udders are going to be when I get them implanted...I will work on the heart shaped areolas too...I've never seen anyone jump cup sizes like this!

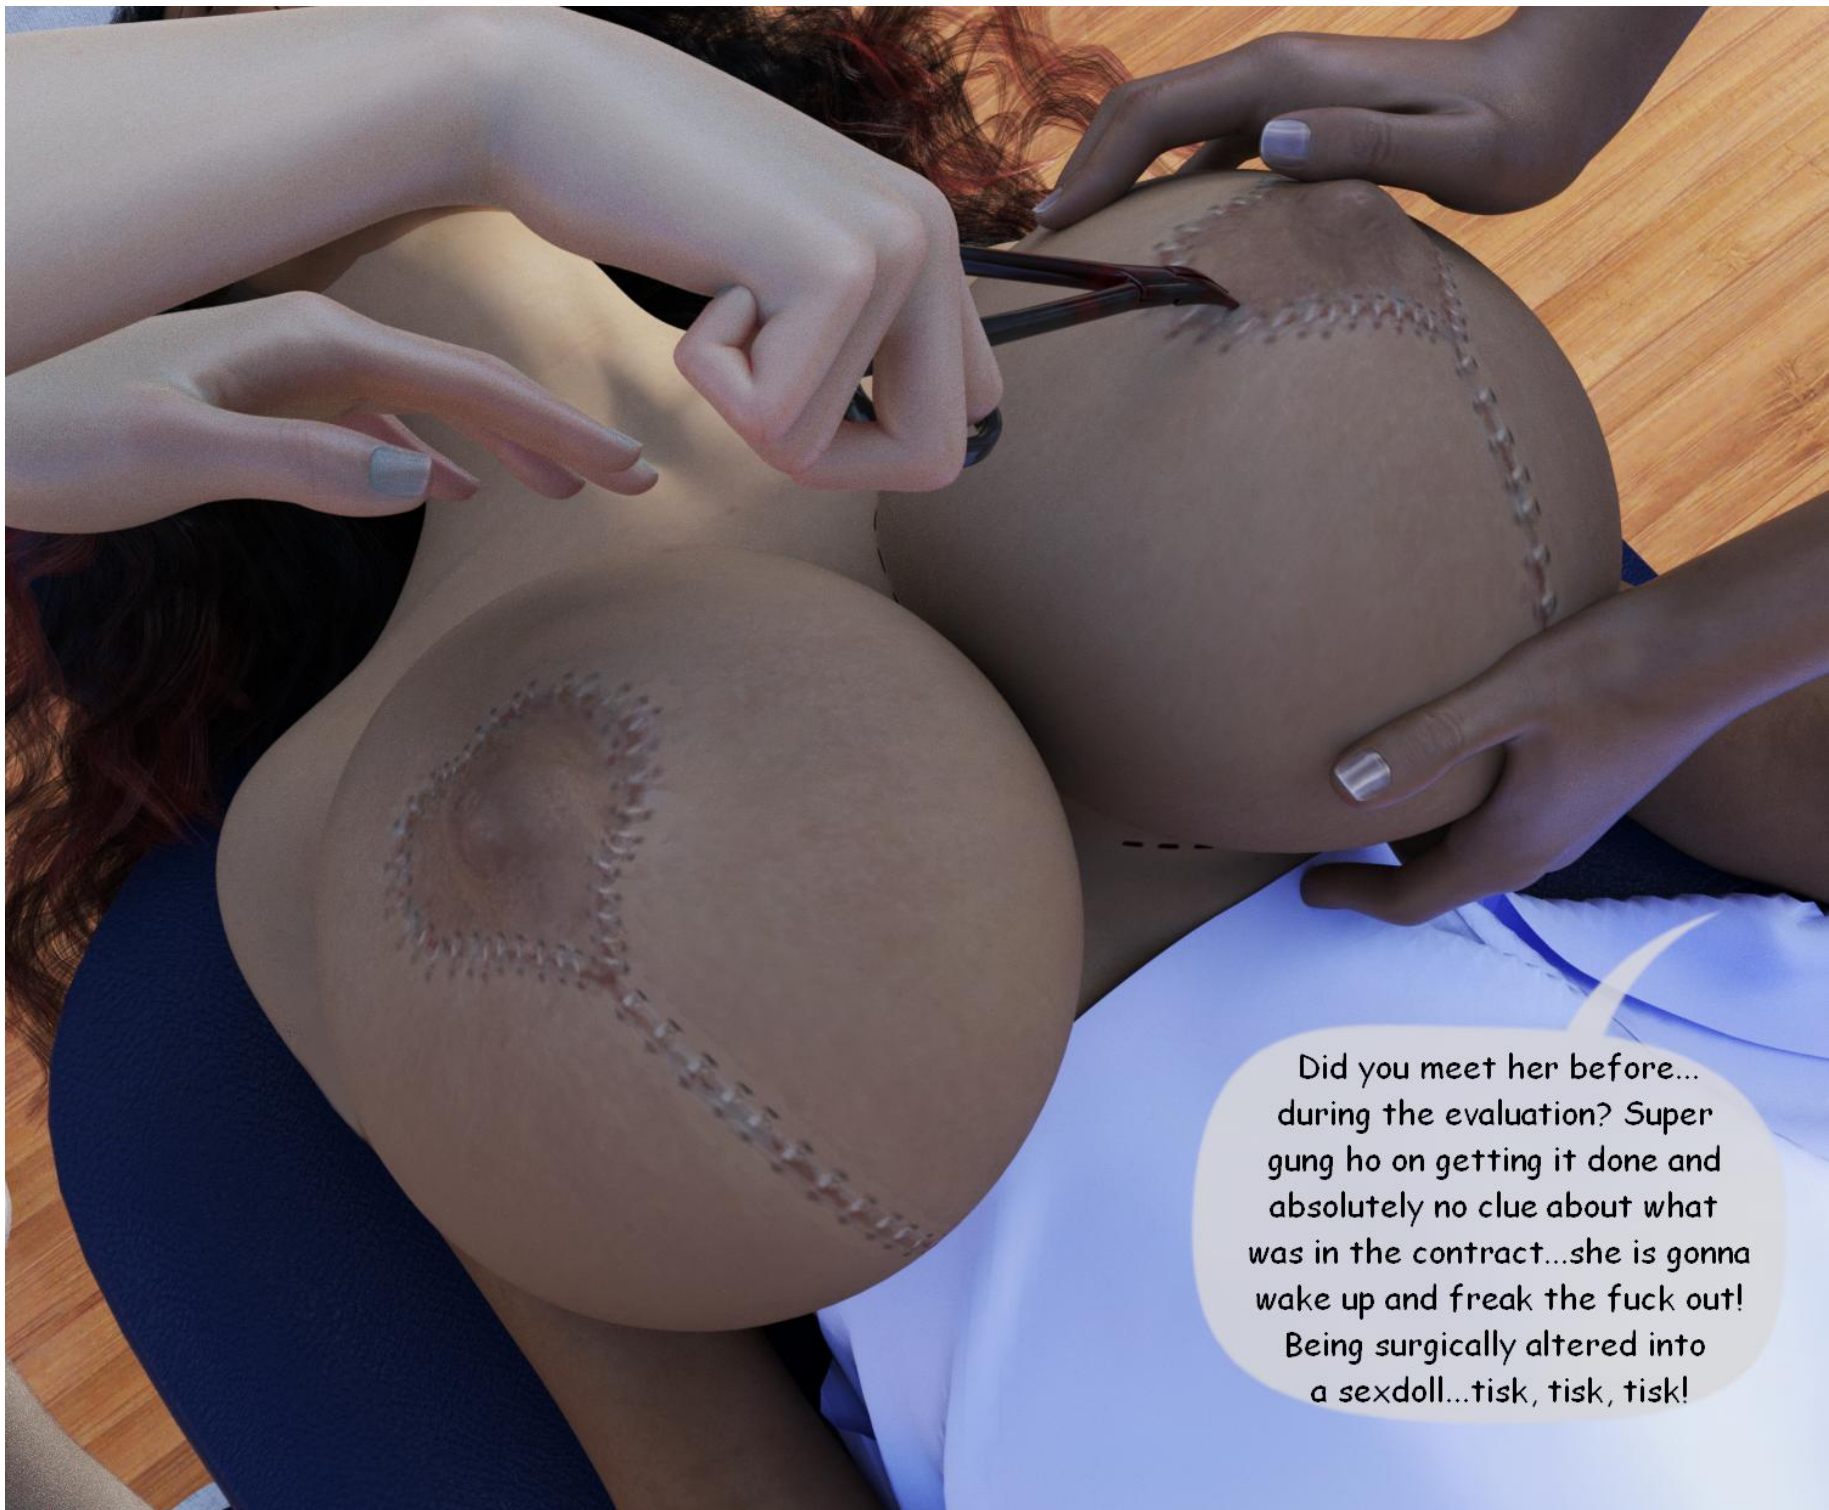

Listen to this, " The boobzilla implant is designed to swell 2x its original size and is coated in microscopic hairs that irritate and hyperactivate sensitivity for its owner." So, they are super boobs!

I heard that the proto types drove a woman mad... I think she lobotomized herself. Hmm, i guess they got the kinks out...since they are still on the market! They will keep growing as we keep her under!

Fantastic work nurse!  
Could you imagine having  
tits like this...imagine waiting  
at the DMV or self  
check-out at Walmart...

Yep, everyone would  
always know....that bimbo is  
a nymphomaniac....no other reason  
to do all these things...except  
for all the kinky fucking....Well,  
that or...**THE FUCKING  
MONEY!**

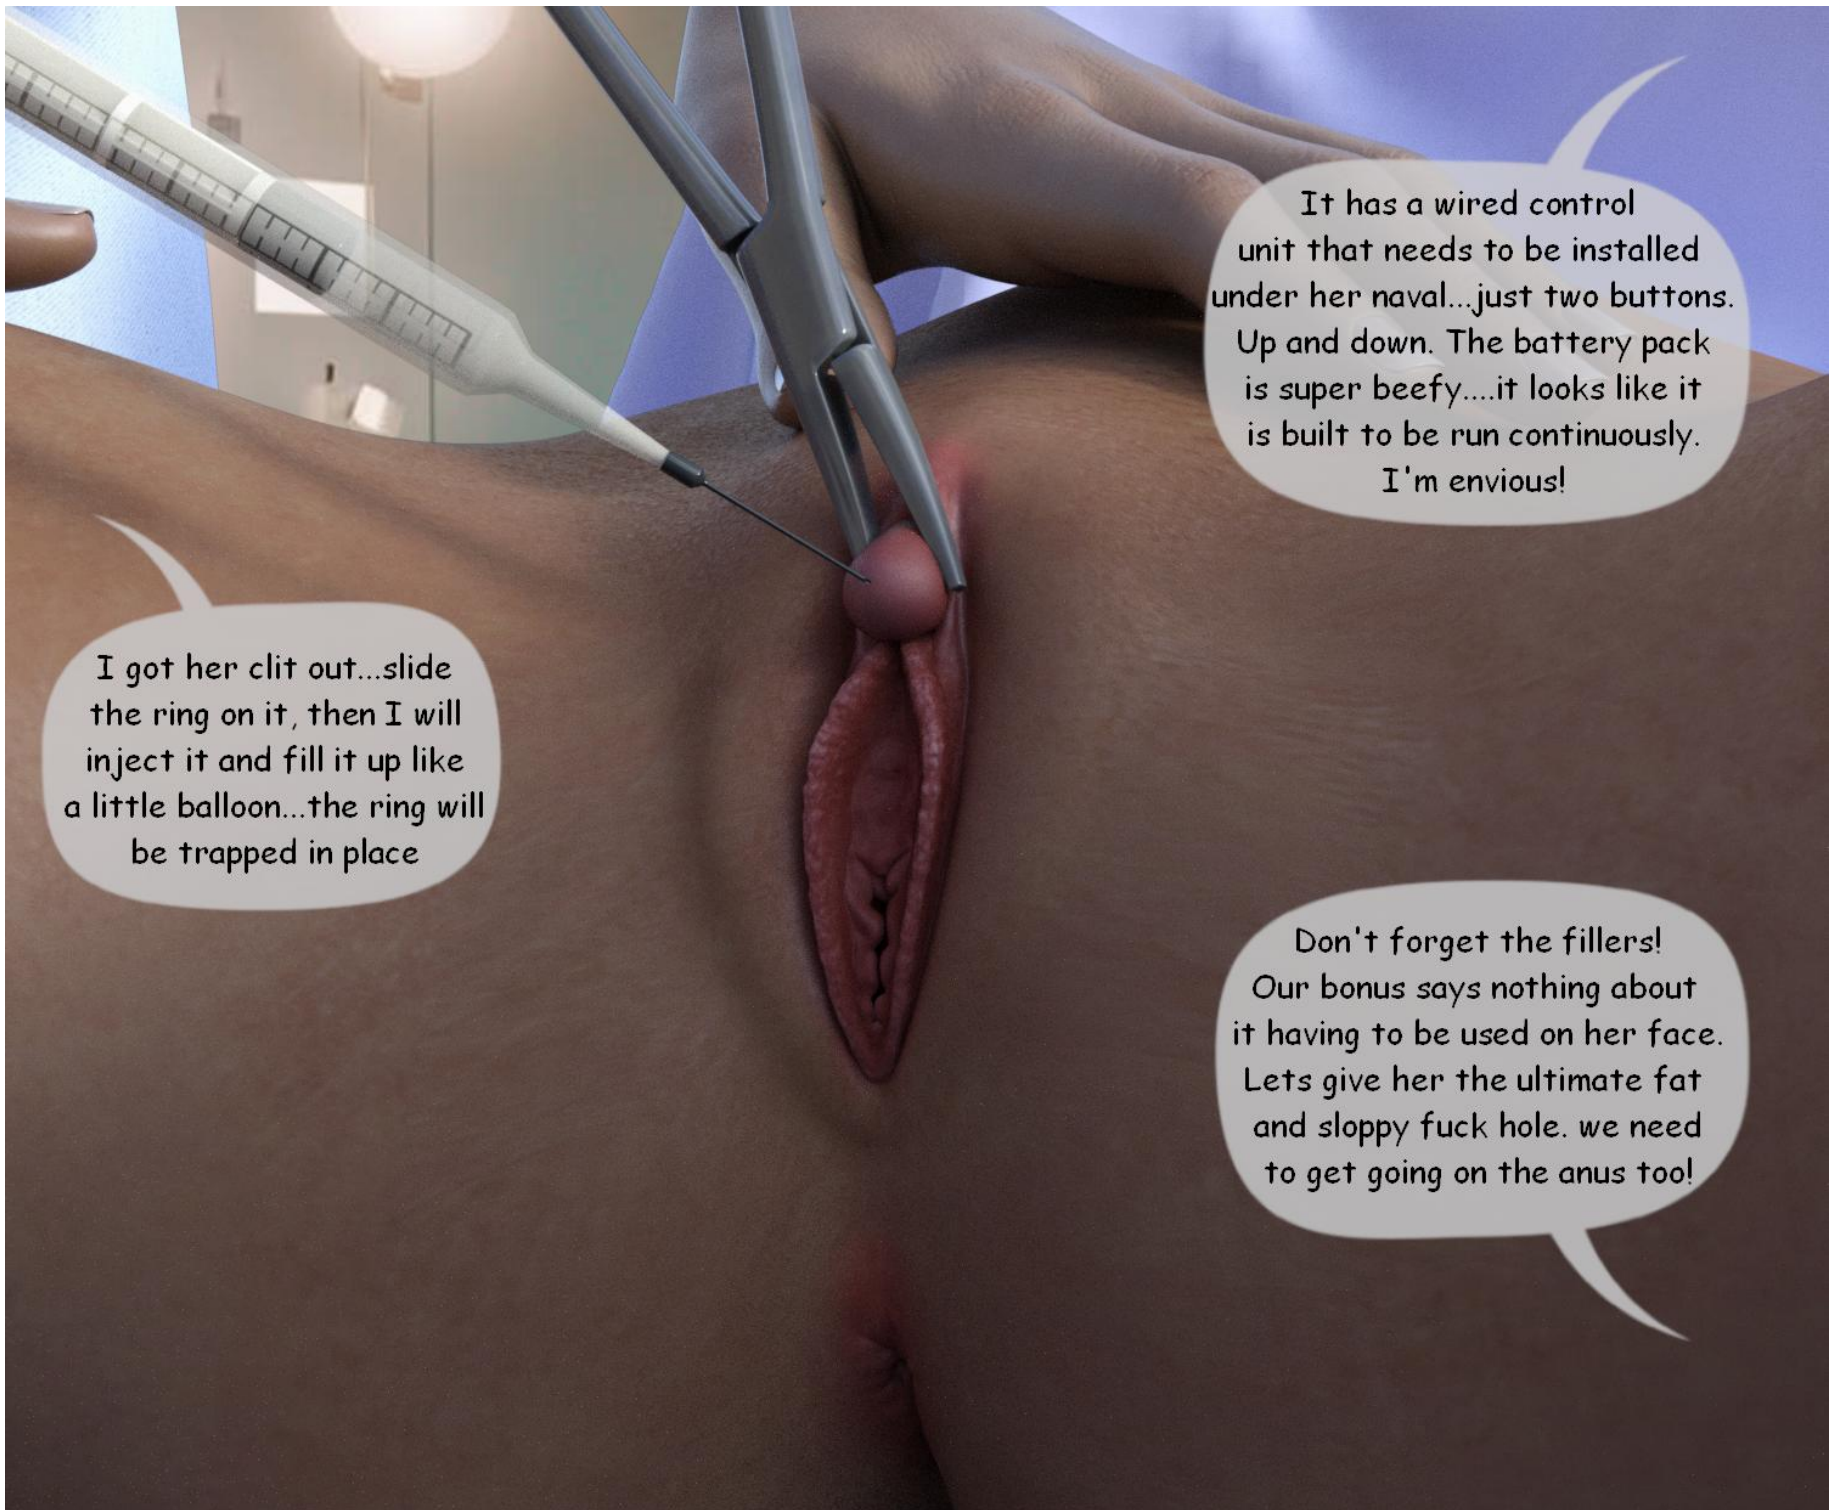

Did you meet her before... during the evaluation? Super gung ho on getting it done and absolutely no clue about what was in the contract...she is gonna wake up and freak the fuck out! Being surgically altered into a sexdoll...tisk, tisk, tisk!

So much more work to do...and her lady parts. They went pretty vulgar here too. Now we get to install some hardware... a permanent vibrating clit ring!

The husband made his billions in medical devices like pacemakers and pumps for diabetes...his company made all these sexy ones custom just for her

I got her clit out...slide the ring on it, then I will inject it and fill it up like a little balloon...the ring will be trapped in place

It has a wired control unit that needs to be installed under her naval...just two buttons. Up and down. The battery pack is super beefy....it looks like it is built to be run continuously. I'm envious!

Don't forget the fillers! Our bonus says nothing about it having to be used on her face. Lets give her the ultimate fat and sloppy fuck hole. we need to get going on the anus too!

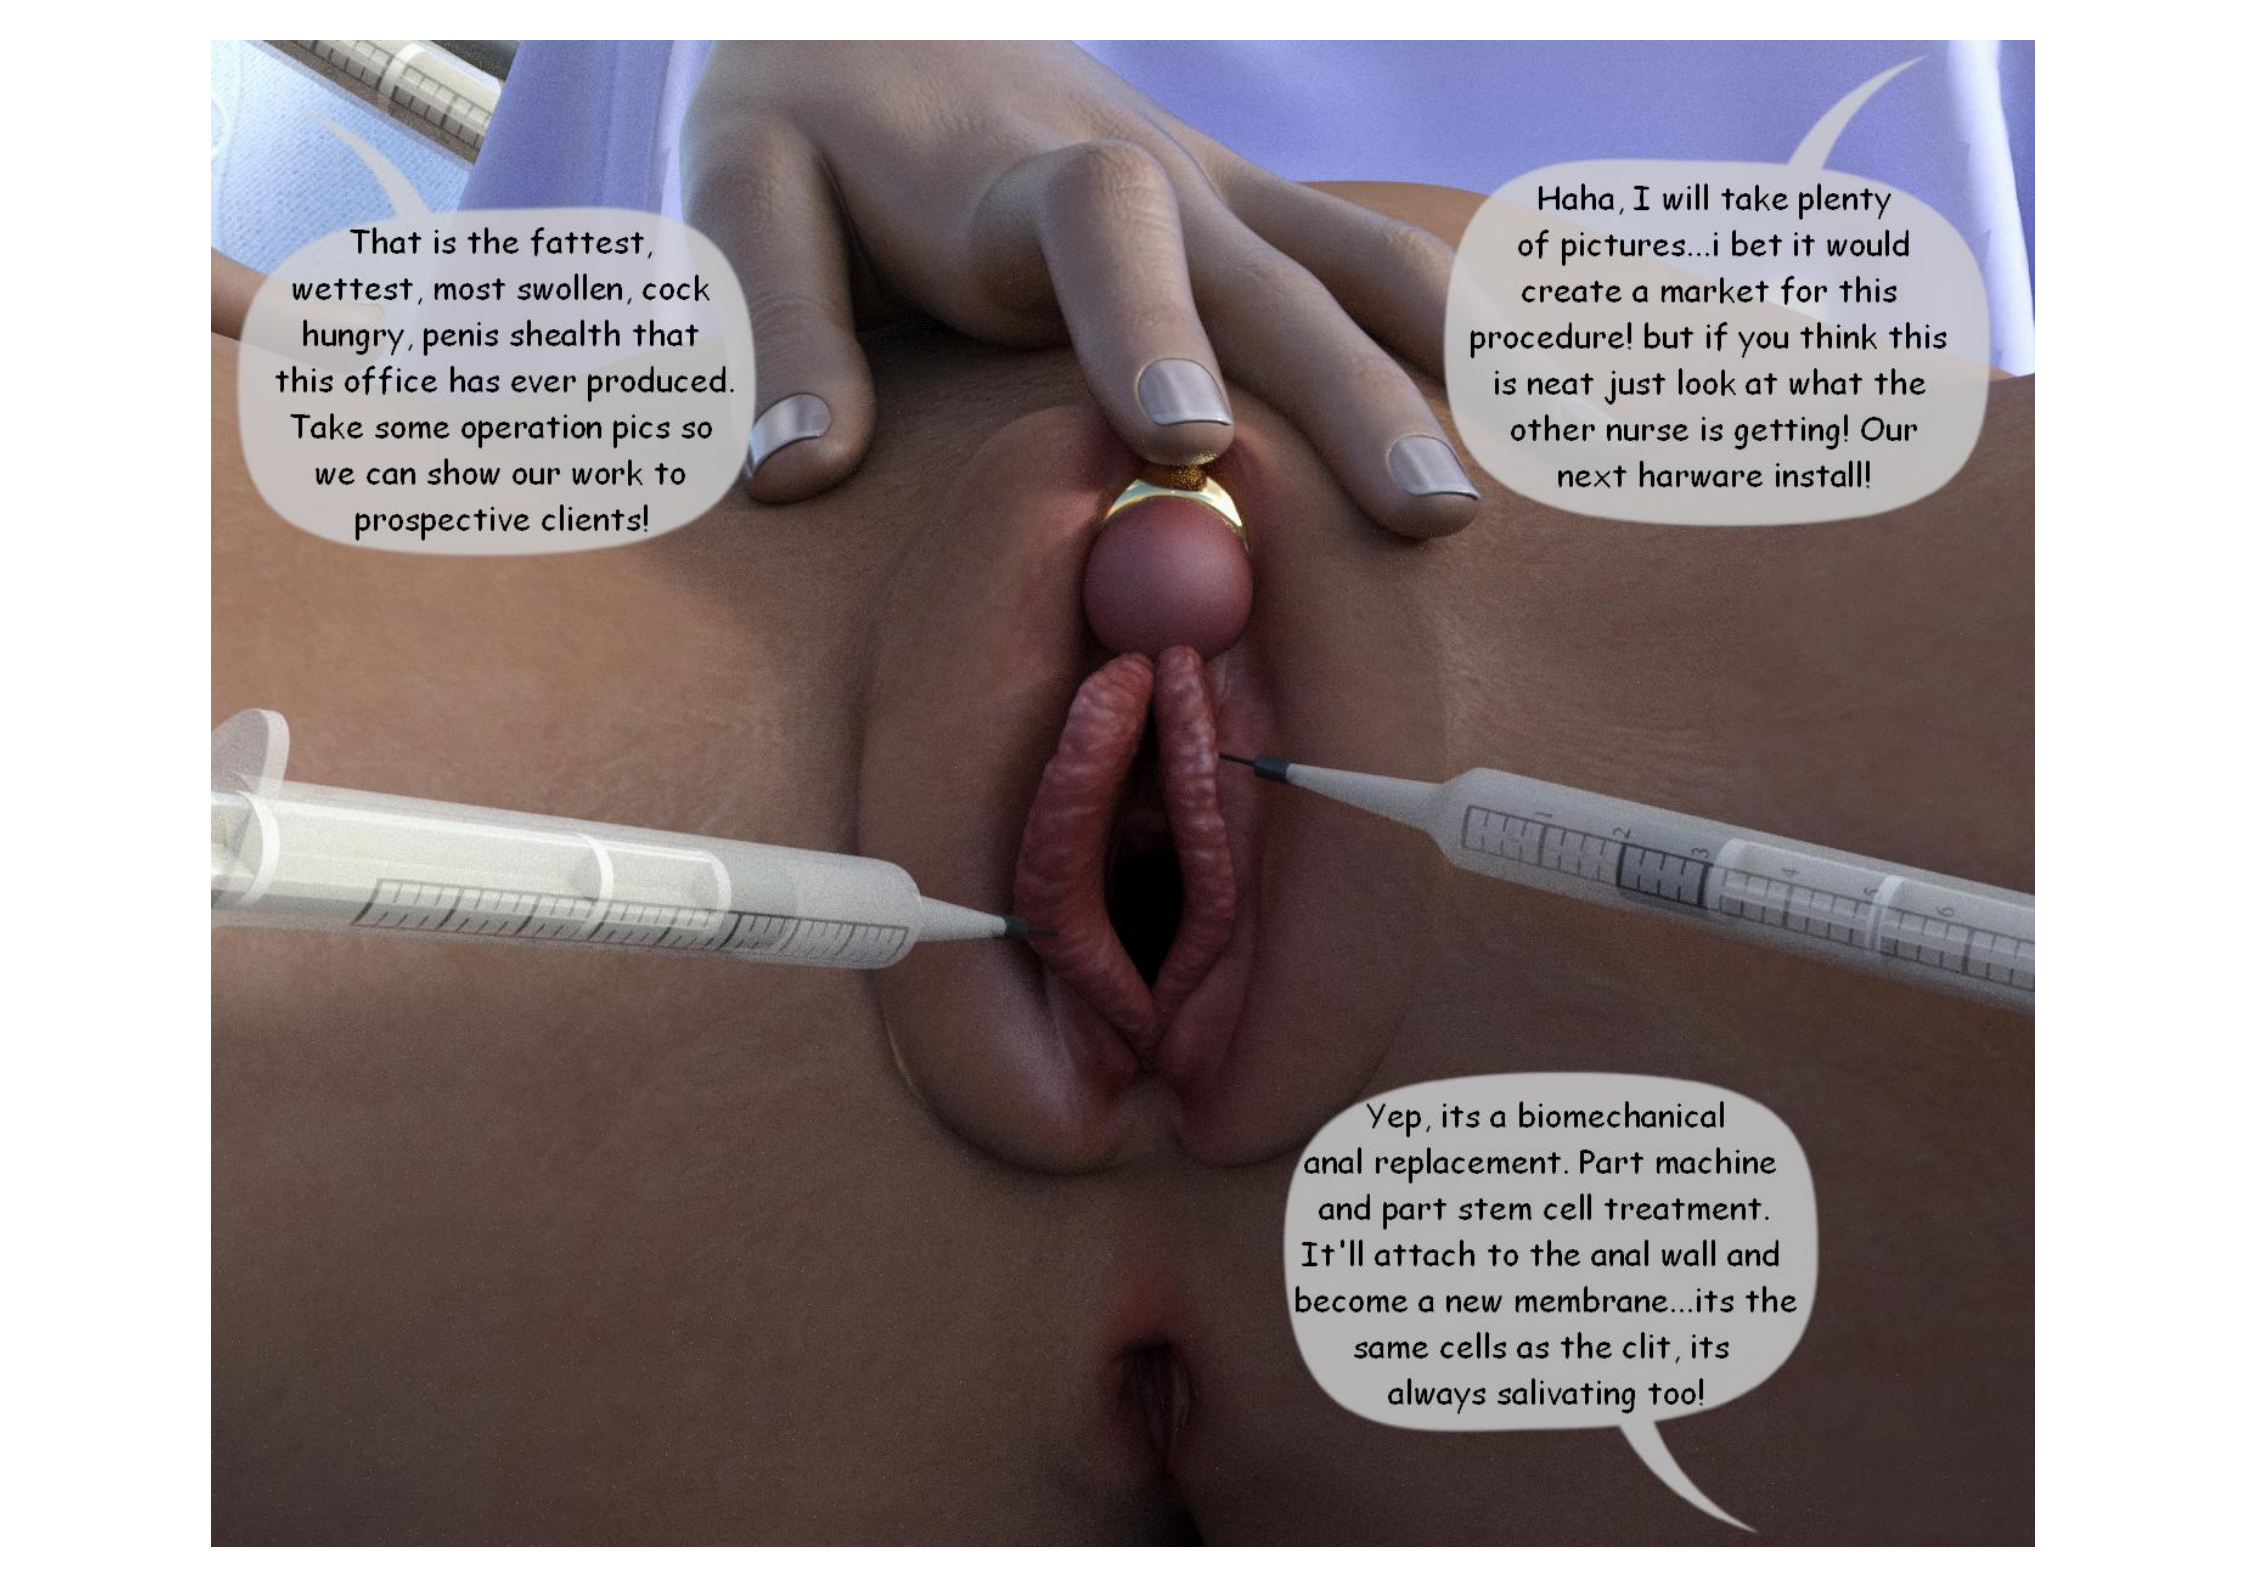

Hmm, the, "CLIT-Dominator 9000"...at least they give these things colorful names. Designed for high output vibration and electrical discharge in a safe and erogenous way! See a physician before use!

She is coming along perfect. That ring isn't going anywhere! They would have to get the fire department to cut it off!

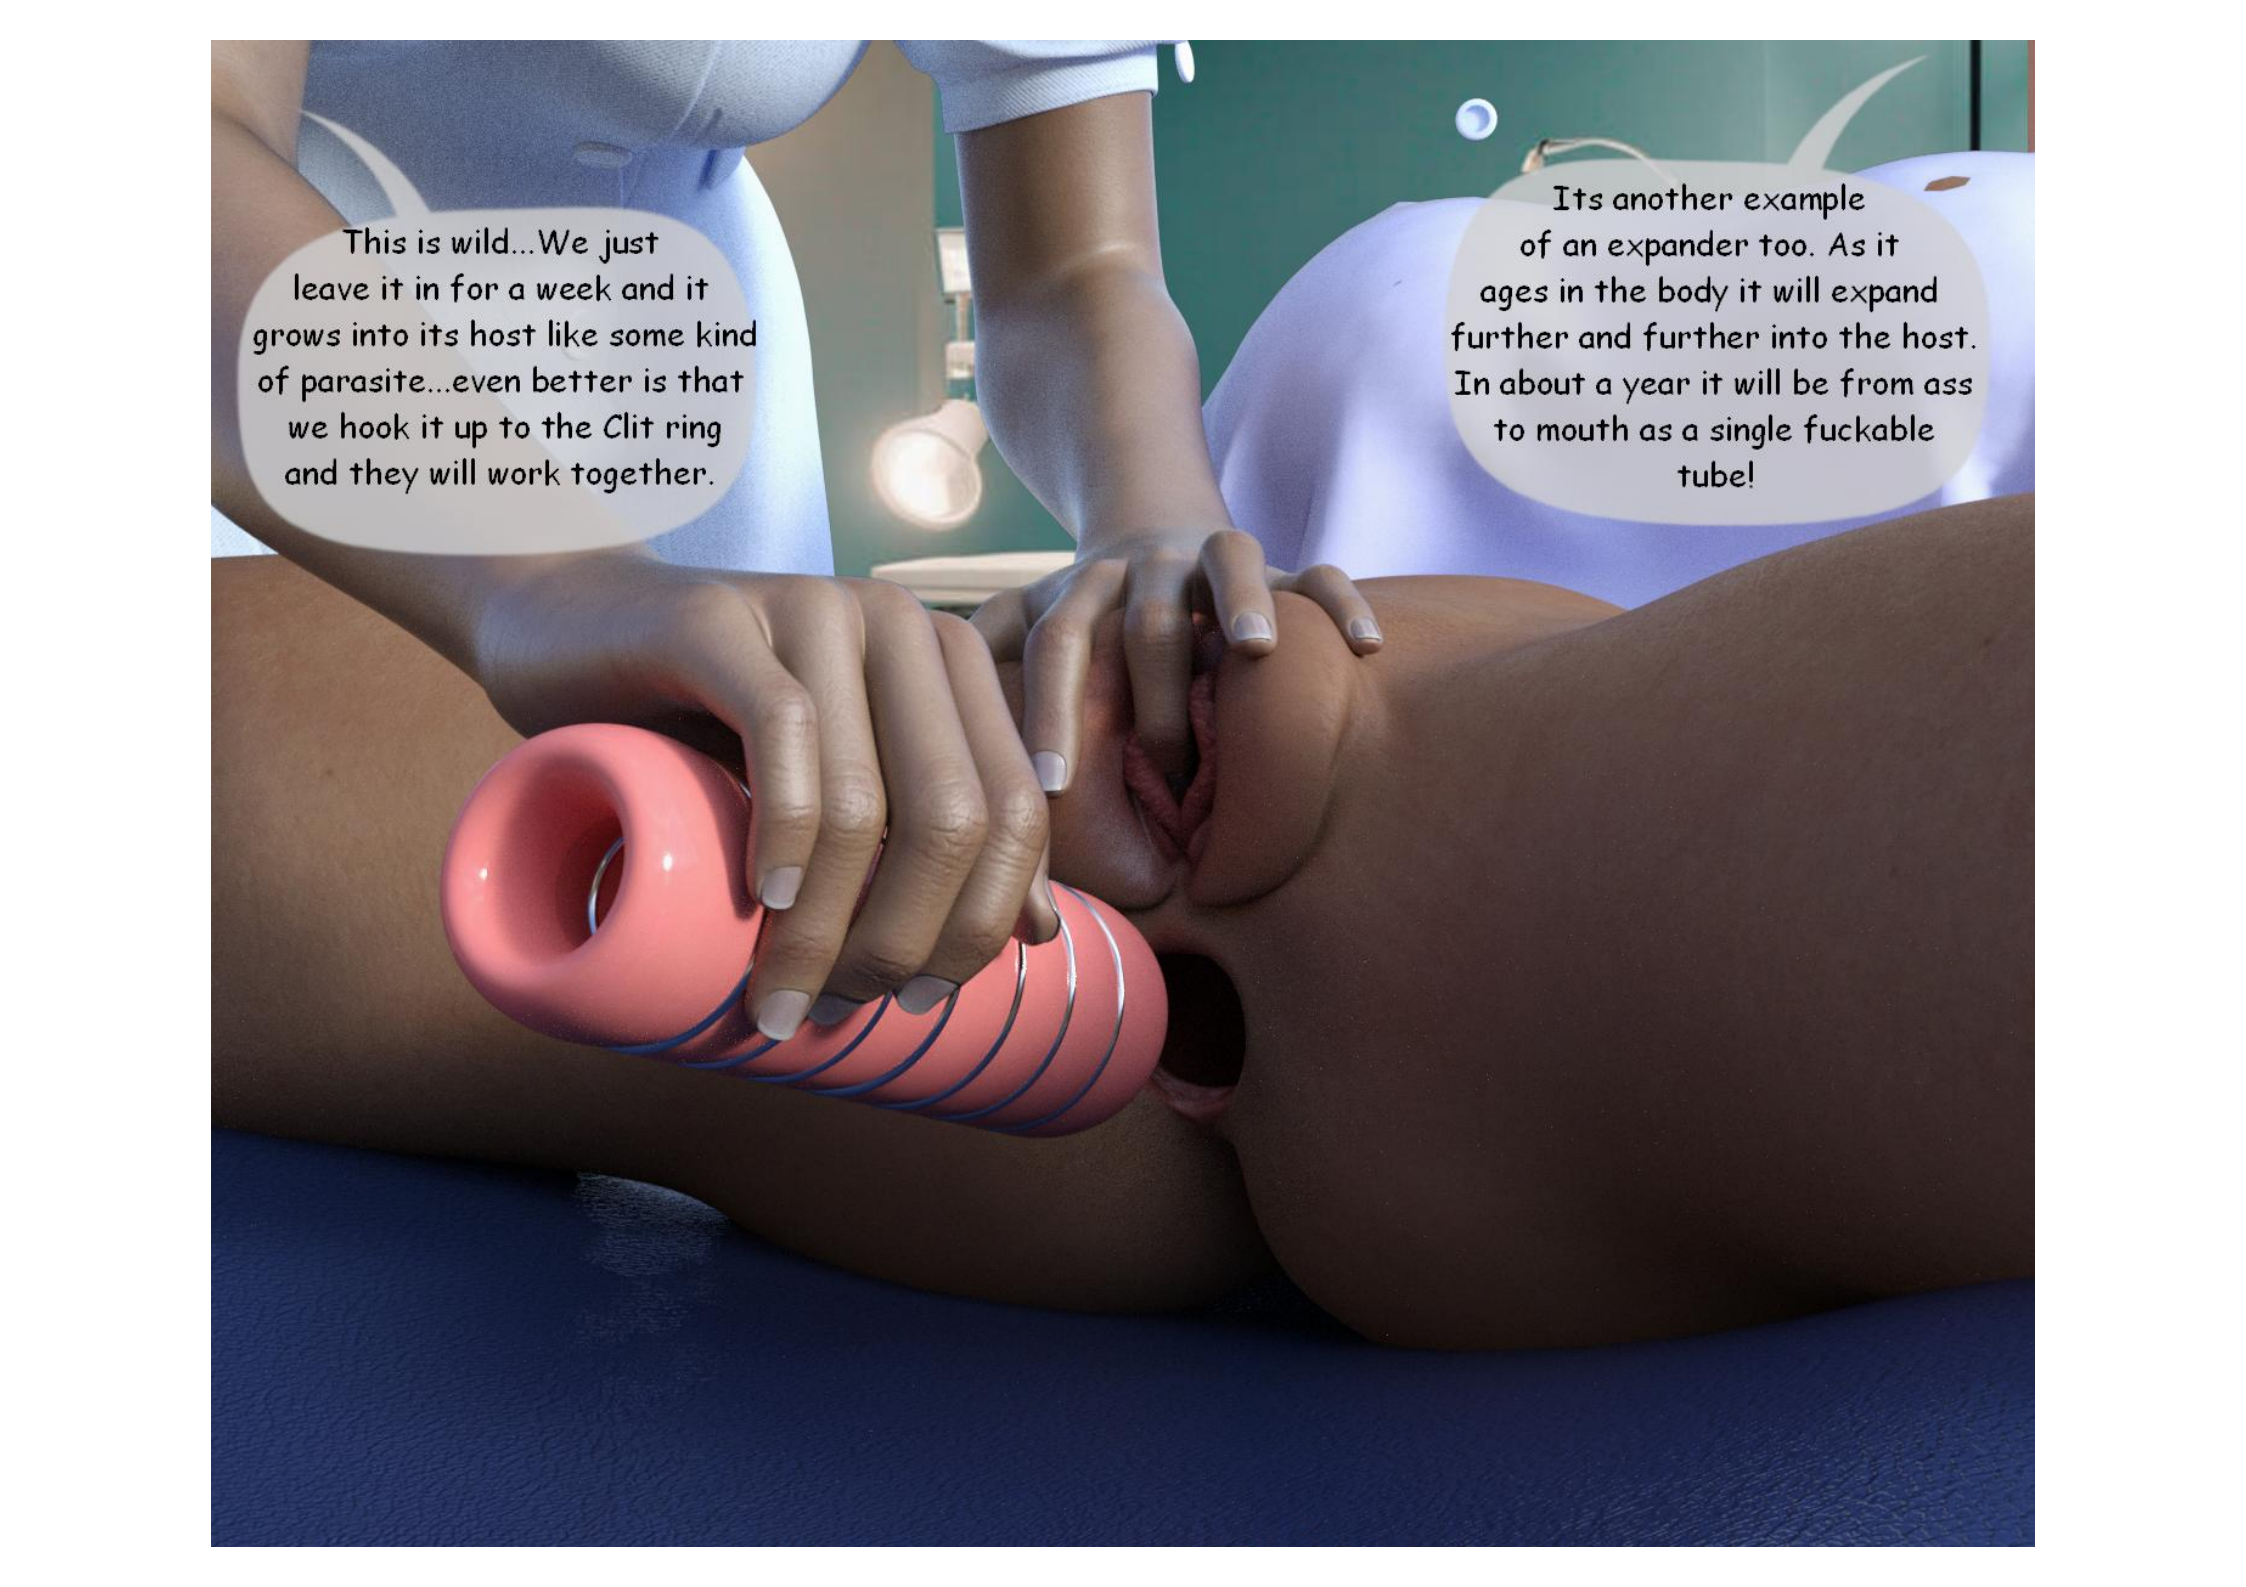

This is part of the hypno training as well...it is going to vibrate her anytime a trigger word is heard...some are obvious and others really obscure...like HOTDOG! \*VRRRR\*  
Good, it works!

That is the fattest, wettest, most swollen, cock hungry, penis shealth that this office has ever produced. Take some operation pics so we can show our work to prospective clients!

Haha, I will take plenty of pictures...i bet it would create a market for this procedure! but if you think this is neat just look at what the other nurse is getting! Our next harware install!

Yep, its a biomechanical anal replacement. Part machine and part stem cell treatment. It'll attach to the anal wall and become a new membrane...its the same cells as the clit, its always salivating too!

This is wild...We just leave it in for a week and it grows into its host like some kind of parasite...even better is that we hook it up to the Clit ring and they will work together.

Its another example of an expander too. As it ages in the body it will expand further and further into the host. In about a year it will be from ass to mouth as a single fuckable tube!

Lets get these ass implants in so that we can start the hypnosis...besides, thats gonna take the better part of a year...we have all the time in the world to fine tune this slut!

Look, look, look....she just orgasmed while in a medically induced coma....her body is becoming an orgasm machine... even completely catatonic and she is still horny as hell...I would be too!

Ok, the gene therapy hose is in place and the hypnosis apparatus is in place. Congratulations nurses on a job well done. We barely scratched the surface on this project....

I guess we just leave her and come back for more work on monday! I guess she will be alright...she isn't awake or asleep just locked in and watching porn...for the next year...straight!

I guess we just leave her and come back for more work on monday! I guess she will be alright...she isn't awake or asleep just locked in and watching porn...for the next year...straight!
