in Recognition of your continuing excellence in

Medical Laser Science

Medical Association Society

I hate those days. Why do I have to be at work whily most Scientist and other employees are at home...

Why do I have a shift with the most weird Nerd around? I never understand what he has to do here...

Miss Paligton?
Would you come to my room please?

Gna...
talking off..

Yes, Sir.
Do you want to dictate...or anything else?

Thank you for asking, but I need case „B1MB3DNA“ please.

DNA Re-written

Sir?
Where are you?
Doctor Sleipnut?

Seriously
Typical Eggheads.
He knew that he needs
to sign that he got
the doc...

...umen -
Autsch!

DNA Re-written

Ouuu...
my head...feels so
blurry...

Welcome back,
Miss Palington. Glad
to see that you wasn't
that long away. Oh and
don't even try...your arms
are fixed. You can't move
until the experiment
was successfull..or
not.

And before
you ask: Yes, this
experiment is allowed
by the Management and yes
I did not ask for your...permission...
Glad that you are willing to help
to test my new „DNA ReWri“
module...for the glory of
science and pleasure.

DNA Re-written

That...pig!
He will use me to TEST his
new module? DNA ReWri?
What is that...why
aren't there...

Oh? You stay
silent? Well okay...
See, my colleagues and I
have choosen you because
you are an terrible secretary.
We voted and your body and
mind will be fixed so that
you will become our
hot SEXRETARY
here.

My module is
connected to the units at
your wrists. They change any DNA
to that what the Operator commands.
Let's see...hm...yes. You are a petite, young
woman, even in the Boobie department.
I think some enhancement
would be great?

Yes. You will be
a proud owner of fake
looking, 34 F Cup natural
Breasts. And here they co...
oh..before I forget Miss Paligton.
It would help me if you can
tell me later what do you
feel as your DNA got
rewritten, yes?

DNA Re-written

YOU are
SICK, Professor. You
have no ... Oh my!

Hm...yes...I am very
sick dear...but the Expansion
for your Breasts? Nah...I have
chosen the smallest cup size
that was on my list... and look
how fantastic your TITTIES
are growing.

DNA Re-written

DNA Re-written

DNA Re-written

Doc!
They are fucking
HUGE!

And you
said that they should
be natural but Fake looking?
I can feel implant bags inside
my breasts! Are you kidding?
They are 100% Fake! Turn
me back to normal
immediately!

Oh yes! You are
right, Miss Paligton. My
bad...that must be a SIDE EFFECT of the
Nanites I injected into your bloodstream. It seems
that they could not understand the difference
between „Fakelooking“ and „Natural“. No
need to turn you back to normal.
Soon that will be your
normal self!

DNA Re-written

You are kidding me, right? TURN ME BACK TO NORMAL! NOW! Or I will crush any single bone of yours as soon I am free!

Miss Paligton! No need to be that harsh. Your body change is allowed by the Management. Never read your contract? The fine print? But I get your words. We all are jealous about your toned body. You train a lot right? That is over. Your muscle mass will decrease to... let's say - 5%. You will be very weak Miss, I am not so sorry for that.

DNA Re-written

DNA Re-written

Finally? Do you changed me enough? Want to remove that cuffs?

Yea I know. I can be very sarcastic, you know? But I truly have to say: You have delicate hands. You should have very long, curved fingernails, painted in glittered pink.

Sigh... why am I not surprised...

DNA Re-written

DNA Re-written

THAT ARE
STRIPPER NAILS?! NOW
I SEE WHAT YOU
...

Gawd!
With those Melons
and Nails like those
nobody will take
me seriously!

DNA Re-written

Professor!
Please! Don't do this.
When you are unhappy with
my work, let me know
what disturbs
you...

And if I can't
change the problem I will
quit and you can hire someone
new? But I don't want that
body you are creating
right now!

But...I see
it clear in your eyes...
You don't want to let
me go, right?

No, we want let you
go. We all here can't do that. No
matter how much you use your absolute
stunning rubyred HUGE, DICK SUCKING LIPS.
Because we found out what
you really are...

Yeah I know...
I remember what you
said before: A
Sexretary?

No, that is what
you will be soon. We found out
why you really are here.

DNA Re-written

You Mrs. Paligton
are a spy. We found out that
you shared a lot of intern and important
informations with JinLinPing Corp...
and we can't tolerate that.

Me? A spy?
Never! I was always
loyal!

DNA Re-written

DNA Re-written

Hm...Blue Eyes?
Must be another Side Effect
of the DNA Change. But they
suit you very well.

DNA Re-written

Propfht...

What do you say: Should we change
your vagina like your lips to an **COCK**
CRAVING SWOLLEN PUSSY which is
always **WET**?

DNA Re-written

DNA Re-written

See Miss Paligton? With this amazing module I can controll the body and the mind of anyone who wears those cuffs on their wrists.

I schee! Bwut when You can controll it: Why don't you set that I can't lie and ask me again? I NEVER did schometsching wrong.

Hm...You are right. So, you CAN'T LIE anymore. Tell me the Truth.

DNA Re-written

HEY! You...

DNA Re-written

DNA Re-written

And now: Please STAND UP!

I can't! Those cuffs are fixing me on the chair...I can't move my arms as you know!

You was fixed because I orderd it. Those cuffs are no part of the chair, remember?

Oh my god! How...You...messed with my mind before? I am...I will...

DNA Re-written

See as I said.
It was your mind who bound
you...not the cuffs on your
wrists.

You...you
truly are like a devil.
YOU are ruining me
and don't care!

I am an scientist
Mrs. Pallington. I do not belive
in god...or a devil. So it can't hurt
me. And am I truly ruining
you?

Of course!
No one will take me
scherious with that body
and my lischp.

Hmmm...let me
think...

DNA Re-written

I think that you just use these arguments to hide that you secretly always wanted to look like this.

Bwa...you... are...messing witsch my mind...again...

That is why you wanted to be here...that we change your body and mind to be what you always wanted to be...

No...I... you...to be...to look... my bwain...you make it hurt...

And I know that you are just playing tricks to me, holding the truth back in hope that I order more changes...maybe to your butt to become an nice looking big bubble Butt?

My butt isch good asch it isch! Leave it...no matter how much I enjoy my new titties...

DNA Re-written

And you will enjoy your new big booty as much as you love your new body Mrs. Pallington.

DNA Re-written

No! Pleasche!
Ohh...

BWOOMPH!

DNA Re-written

Ohhh...
look...my booty got
all big, round and

Of course you do
Mrs. Pallington...So, why don't
you tell me the truth about your
spy activity?

DNA Re-written

Professchor,
I wreally schwear...
I never spied here for
anyone or anybody.
You have got the
wrong person.

Hm...after all that
changes...you are speaking
the truth.

Of course.
I never lie. I hate
liars.

It seems we got
the wrong person. Mrs. Pellington,
I am so sorry.

Schange me
back to how I wasch
before and l...

the police for my
doing...am I right?

Of course!
What you have done
to me is abscholutly
...

I see...well
Mrs. Pellington in that
case... I can not
allow that!

What?...
would you murder
me?

DNA Re-written

You see Mrs. Pallington... as I got informed about your spy activity I could not believe it...

When the quorum voted about your changes, I was against it and abstained.

The body you now have is mostly based on Mrs. Fowlers ideas.

But it suits you I think. And now that you said about the police...I have no other choice...

You will DUMB down and become an SEXCRAZED absolute AIRHEAD BIMBO

DNA Re-written

What?
You will...you can't!
My studiesch have not yet
been completed. I only
have the job to

Of course...I

DNA Re-written

DNA Re-written

What about
a little testrun?
hm...

Why not...
Anders...you was so
easy to manipulate
and obident...

THAT fits a
naive woman
far better.

YOU Anders,

should be
a NAIVE

and
OBIDENT
WOMAN!

DNA Re-written

Seriously Claire?
You know that there
needs to be Nanites in
my blood stream.

Oh Anders...
Anders...don't you think
I didn't consider
that?

Without them
the cellstructure and with
it the DNA can't be changed
by your command. But it
is good to know how
you see me!

You can be
sure...all I needed was
the Device...

But alone
it is...

The
Nanites was in
your coffee this
morning.

You are...
kidding me...

Am I?

Let's see...
in a few seconds your
bodyframe decreased
and became more...

PETIT.

Also have
your hair already grown.
And your eyes...larger
then before...

No...please...
Claire...

DNA Re-written

My chest...
it starts to tingle

That is fairly

DNA Re-written

DNA Re-written

Don't hide yourself
Andi....as WOMAN you should

But I am no

Of course you

Young? I am
52!

Huh?

DNA Re-written

And the nanites in the good doktor's bloodstream worked directy and changed his, now her DNA to the new order of Claire Fulsom...to that of an 18 years old Trainee from the nearby High School: Amy Cutie. In a matter of seconds decades of knowledge research and hard work are gone...

That Slut Stacy will

know that Stacy was here
for an Job Interview?

She wanted the
position you got and she
was already so jealous of
your sluttines.

She said:
There is no bigger slut

That was why
I hired you Amy. Because
you are an **CONSTANT** and
MAXIMUM AROUSED BISEXUAL

I am curious how fast the nanites can be activated when they are inside the body system.

Anders drank his Nanites with his coffee this morning...the whole time they could multiply and get into his cells.

At least I am very happy that this Dylan was lurking through the window. But he is not the brightest bulb.

No matter, he is a healthy young man and I know exactly what I will do with him. There can't be enough woman out there.

DNA Re-written

Let's see if the nanits are already working

Or don't you enjoy the pleasure the Girls are giving you?

Of course Claire. They are fucking fantastic. Never had two hot bitches at the same time...

I bet that is something you guys often dream off huh? And now is there another Bitch who will give pleasure...so, why so mad about some spunk?

Because I think that only Bitches like you should enjoy the taste. I on the other hand will enjoy your lady juice.

I see hun...

DNA Re-written

But should I tell you a secret Baby. One that will change you forever?

hmm... of course...

And you will not be angry...I bet you can't be real angry...am I right?

mhh Hmm... I am completely relaxed. Don't stop Girl.

Do not worry hun...I know how much a guy like you like this...

...it is crazy you know...would you believe that our Amy here, who is blowing you right now... was a Guy not long time ago?

DNA Re-written

WHAT?

She looks like a young woman to me... there are no signs that she was Male. You are kidding me, right?

Not 30 minutes ago she was an elderly Professor. I changed him with his own ... Invention.

There are no way that someone can do this. Now I know that you are making fun with me.

Amy?
Can you stop please?
Give an more experienced lady some room for her joyment.

What?
Aww...so soon?
I want to fuck him like so bad...please, Mrs. Fulsom?

No, stand up and wait dear.

You can ride it later.
You wanted me to show

*Oh pardon
me...Dylan...I am just
so...horny right now...
Feeling your toned body
rubbing mine...*

Damn!

**Look Claire,
I am experienced enough
when a woman tries to play
games...and YOU are
not really horny,
right?**

*Double
DAMN!*

**There is no
need for dirty tricks
Claire. You said you have
changed Amy? Prove
it.**

*I am so
sorry Dylan...well
okay...see: In her bodys
are micro robots, called Nanites.
I can controll those bots
and change her DNA.*

*Stay
focused Claire!
His is still aroused
and when I change Amy
to his wishes, his hearth
will pump stronger, which
means the Nanits reproduce
faster...so, play just a
little more with
him...*

DNA Re-written

So, what should i change on her? What would turn you on, Dylan?

Why not... see Claire, I am an Boob Man. Amy really has magnificent tatas...for an male *snicker*

He is female now... fully female by the way.

I see that, Babe. But what I mostly love are real fake looking melons. Make her natural into fake looking tits.

As you wish. Amy? Since you hit puberty you dreamed of having the biggest breasts in town. The first thing you did as you have become 18 was to have an breast surgery for 100% fake looking tits.

But, Mrs. Fulsom, why...

DNA Re-written

...are you telling him this?

I mean it is completely obvious...

...that my titts are absolutely not naturals!

DNA Re-written

DNA Re-written

And while Dylan's manlines is fading away, feminity takes place. The male anatomy start to shrivel, shrinking and deflating, forming and opening two soft lips, an visible, but proud looking clitoritis and a warm, wet virgin pussy.
