

## Suzuchan Dropkick R Ep.2(ENG)

"Chit..!"

Rose's underlings surround Suzu, who was dragged to the corner due to a chain around her neck.

"Ora!"

**POW! POW!**

"Bgh...! Ugh...!!"

Rose also takes out the whip she was hiding in her arms and begins to hurt Suzu's body.

'Slap! Slap! Slap!'

"Ugh...!! I never.. faint...!!"

"How she can endure even after being hit directly by my poison breath?" But it's within the expected range.'

**[Wow!!]**

Rose, who stopped whipping, folds her lips into Suzu's lips and injects poison directly.

"Um..! Ugh..!"

Suzu closes her mouth and resists, but Rose's index and middle finger, which come through Suzu's crotch, caress Clitoris and push her tongue in at the same time to force Suzu to open her closed mouth

"Bghooo..! Ugh..!!"

"It's dangerous..!"

Suzu lifts both feet, kicks Rose's chest as hard as possible, grabs the back of the zombie holding the chain, and throws it toward Rose. Whenever Suzu, who escaped from the restraint, dropped on the mat and vomit dry coughs, red gas leaks out of Suzu's lips. She tries to get up on the mat, but the dizziness that came with twisted vision forces Suzu to kneel.

"cough..! cough..!"

"something kind of poison? My lower abdomen is hotter than before."

Rose's underling stormed in as if they would not miss Suzu, who was stranded by poison, and zombies in the front wield the chain like a whip.

"You bitch..!"

Suzu, who avoided the chain in a low posture, counterattacks with a Lariat and her Front Dropkick blew away a bunch of zombies.

**CRUSH!**

"Guekk..!"

Rose's underlings fell down and only Rose and Suzu were left on the ring.

"You still can't give up? Enzyme poison will soon dominate the organ. It's too late! "

"Expectedly..! Before that happens, I'll knock you down!"

Suzu's resistance was stronger than Rose thought, and Rose, who relied on fouls and did not polish her professional wrestling skill, could not be a head-to-head match against Suzu. Rose, who was fall down on the mat by Power Bomb, screams at the pain flowing on her back.

**THUD!**

"Guhak!"

"Finish!"

As soon as Suzu climb up to the corner and tries to use Fisherman Suplex with hold Rose's shoulder upside down, Suzu's field of view splits into three branches and Suzu loses balance and falls on the mat.

'Uuu..! My sight..grr!!'

Rose kicks Suzu's side who falls on the mat and suffering from poison.

"You bothered me..But it's time over now! I'll test my secret skill to you!"

"Ahhhhh...!"

Rose, who pushed Suzu to the corner, grabs her belly as hard as she can.

"Zombie doesn't miss a prey that's once bitten. It's my Iron Claw, trained up to 300kg of grip power. Taste as much as you want!"

**Zugic!**

The pain of squeezing the intestines refluxes the gas injected through the mouth of the Suzu, filling the airway and making her more painful.

"Kugh...! Urggg..!"

"I hate Hell Flare and you either. professional wrestling spirit? For useless skill that are only flashy and not practical? Bullshit! It's all meaningless in front of the skills that have real killer power to win! With this power, I will get rid of your neglected species!"

"Ghaaa...!! Gue...! Ugh...!!"
