

Gossip

Do you have perky ears and loose lips? Do you ever wish that you knew what is going on with everybody at all times? Do you sometimes find yourself letting slip a naughty and dirty secret for the attention and excitement that it brings in others?

In my newest subliminal, I work to hone your gossiping and strengthen habits formed around picking up the hottest tips and sharing them with the world at the best possible opportunities. Learn to crave the feeling of attention as people hang off of your every word, and learn to desire the feeling of being a valuable and trusted source of information. Feel an overwhelming desire to tell others your own deepest darkest secrets and know that the more sexual and kinky the secret, the more turned on you will be when you tell others.
