

Help you?

Why would I help you?

Why should I believe anything you say?

I know Chohan sent you here to fuck with me.

You seriously think you can lie your way out of it?

Who says I'm denying it?

Of course he sent me here, he wants his lapdog back.

He told me to provoke you, rile you up, get you mad enough to beat me up so you'd get suspended from this branch.

And you almost did, didn't you?

And maim me in front of everyone do when you lose your temper.

Hell, he wants you to break my legs.

Do you really think I would be loyal to a boss like that?

I despise him just as much as you do.

I just wanna get the hell out of here.

If you help me, I'll stay out of your way.

I'll just tell him that I couldn't get under your skin, that you're a changed man.

Maybe he'll leave you alone, maybe he won't.

But I won't be your problem anymore.

Answer wisely, Crush.

They're watching

Do not do anything you'll regret later.

Oh fuck!

He saw us!

Eeek!

Think about Cherie

Think about how much work he put in this office.

Think about how good you have it right now

Are you willing to risk it?

So noisy..

Why is everyone so fucking loud?

Shut up..

Shut up..

SHUT UP!

CRACK!

AGHHH!

CRUSH?!
