

Sherry gave a soft groan as she stretched forward on the couch in a cat like position, naked as the day she was born. The cause of this groan that escaped her lips was not so much because of the stretch itself, but more because of the feeling of the large cock poking out between her thighs being dragged along the length of her soft calves. Though this wasn't near enough stimulation to get her fully erect, Sherry could tell by the warm feeling spreading throughout her flaccid cock and the familiar churning in her incredibly fat testicles as they began producing more cum that she would likely at least get to half chub if this continued.

Currently, Sherry found herself in a very oriental stylized studio apartment, with fusions of enough Asian cultures that it was hard to pin down exactly what culture was dominate. There were various Japanese traditional paintings, paper doors, and windows, as well Korean styled furniture spread about, Chinese rugs and tapestry, and even a traditional Mongolian teapot on the table next to Sherry.

Just by the sheer variety of cultures in the room, one would find it impossible to be able to pin down the nationality of the individual who decorated it, which was very fitting, considering this apartment was one of many safe houses doted around the world that were owned by the infamous corporate spy, Ada Wong.

"That's good, Sherry. Very good. Maintain that stretch for a little while longer."

Peeking over her left shoulder with a smile at being praised, Sherry looked just behind her to see Ada Wong herself resting in a lounge chair on the other end of the room. This woman, along with Claire Redfield was one of the two people that Sherry considered one of her "mothers."

Sherry's "mother" was slightly more covered up than Sherry herself, with her only garment of actual clothes being a sheer, almost see-through, red kimono that she had lazily hanging off one shoulder. The kimono left absolutely nothing of Ada's sensual body to the imagination as her modestly sized breasts were clearly visible through the fabric, and the woman's notoriously long cock was so lengthy that barely any of it was covered, leaving the majority of the imposing meat rod on full display.

Though Ada's cock was not particularly thick, especially compared to someone like Claire that was famous for her incredibly thick cock, it more than made up for any lack of girth with the previously mentioned length. The length of which was currently on full display as, despite being flaccid, Ada's cock was so long that it snaked between her thighs, going down the entire seat of the chair she was sitting in before it continued over the end of the chair, a large portion of the length currently hanging down past her knees.

"Ah, ah, ah, Sherry, no peeking." Ada chided, raising her hand to wag her finger at her. "Your head needs to be straight forward for the stretch to be done properly."

Quickly moving her head to its previous position, Sherry bit back another groan as she felt another pleasurable surge from her cock. Staring at Ada's sexy body and penis had caused a growing lust to bloom within Sherry, which in turn caused her cock to awaken just a little more, leading Sherry's huge penis to grow just a few more centimeters further down her calves, creating the lovely wave of pleasure she had just felt.

Sherry only hoped that Ada hadn't noticed.

"Alright honey, just a few more seconds.... I have to say though," Ada began as Sherry heard the sound of the older woman rising from her chair and the soft padding of bare feet on the wooden floor as she moved towards the couch Sherry was on. "I'm surprised you asked me to help you improve your flexibility. It's been quite a long time since you asked Claire or I for anything."

Indeed, the main reason Sherry was here doing this routine today was to hopefully make her body more limber. She had felt this was necessary due to her body's unique constitution thanks to the various mutations she possessed as a result of the G-virus.

Ever since she had been infected with the G-virus during the events of Raccoon City, despite receiving the anti-virus, Sherry was not cured and the virus had only been stabilized within her body. Though this meant she wouldn't undergo grotesques growths like others infected with the virus, the active G-cells

inside of her body had caused a number of mutations within Sherry's physiology, with these mutations only increasing as time passed with no signs of stopping.

Thankfully however, it seemed that all of these mutations were either purely beneficial, or of no detriment to herself. The most notable mutations to have occurred, as well as the most prominent, were the changes to her proportions. Though Sherry had always been blessed with larger breasts and a curvy body, she had noticed not long after her virus stabilized that her breasts had gotten larger seemingly overnight and her butt had grown nearly to the same degree. This growth continued at a constant rate ever since, and now Sherry possessed an ass and breasts so large and shapely that they would make most women cry with envy, along with much wider hips and thicker thighs that enhanced her curves dramatically.

The most shocking physical growth Sherry had gained however was the sprouting of a penis just above her clit. Though futa existed within the world, Sherry was well aware that no one simply grew a penis like she did. You were either born a natural futa like Claire and Ada, or you were born a normal female.

Though she had initially been terrified at seeing the small penis that she had grown, Sherry was quickly comforted by Ada and Claire as they both helped her to adapt to her newfound life with a dick. With this, Sherry learned from them the many pleasures of having and using her cock, and with time her penis and testicles both continued to grow in much the same way as her breasts and curves. Now, Sherry's cock was so large that the only people she was aware of in the entire world that surpassed her in size were her "mothers", Claire and Ada themselves.

Not all of Sherry's mutations were purely physical growths however. For instance, Sherry had gained the ability to heal from nearly any injury at an impossibly fast rate. Whether it be lacerations or even amputations, her body would recover in no more than seconds. She had also gained greatly improved muscular strength, with her muscle fiber now constantly growing denser as time passed. This meant that despite her muscles not appearing particularly well built, Sherry's physical strength would ceaselessly improve over the course of her life. Presently, her muscle fibers were so many times denser than a normal human's that Sherry, who had appearance of a not particularly active girl having a soft belly and lacking in muscle, actually hid a person that was orders of magnitude stronger than anyone else on the planet.

However, this strength became the cause of her current problem. Because of Sherry's natural strength constantly growing over time, no matter if she was sedentary or active, the young girl never felt it necessary to exercise or go to the gym. While this was fine for her physical strength, Sherry's flexibility was still that of a normal human, as she had recently noticed when she had found it difficult to reach down and touch her toes.

Though that wasn't an issue in itself, it would definitely lead to some problems if she wasn't flexible enough when out in the field.

To remedy this, Sherry's first thought was to ask Ada, the only woman Sherry knew who possessed incredible flexibility, for help in loosening her joints. Hence leading to her current situation.

"I'm quite happy you asked me for help though. A "daughter" should be able to rely on her "mothers" for things like this." Ada said, now audibly much closer to Sherry. "Now, maintain that position. You have one last stretch to do and then you'll be all finished."

Ada walked around and stopped directly at the foot of the couch that Sherry was facing, her lengthy cock perfectly level so that Sherry could see the incredibly long rod directly in front of her. Despite Ada now being still, her cock was so long that it continued to sway left and right from her previous movement as Ada stood in place, wafting its pungent scent to Sherry's nose.

With Ada's amazing cock dangling mere inches from her face and its lewd smell assisting her senses, Sherry felt her pussy instantly begin producing juices and a warm pool began to form in her belly as her cock quickly harden to its full size.

"Wh-What am I going to be stretching this time?" Sherry asked, cursing herself internally for the stutter, but she was finding it hard to hold it together with the feeling of her cock snaking further down her

calves at every moment.

"This time I'm gonna help you stretch." Ada said with a smile as she looked down at Sherry and began slowly pulling loose the tie on her kimono. With one final tug, the kimono fell off of her shoulders. The Asian woman let loose the softest of moans as the silk fabric flowed over her large ass, and more importantly, her cock. As the silk travelled down her length, it gave one last pleasurable lick at her glans before Ada caught it with her left hand and hung the garment just next to Sherry on the couch.

Now fully bare, Ada's massive length was finally on unobstructed display, which Sherry did not waste a second in drinking in with her eyes. Even though she had without doubt seen this same penis thousands of times before over the years, her sheer amazement at the size of it never went away.

"Y-you are gonna help me stretch?" Sherry asked, while staring shamelessly at the cock once again. Ada's sheer length went all the way down her thighs and rested well past her knees, lightly peppered with veins along the way.

She wasn't sure if it was just her viewing angle or because she was so horny, but Sherry felt like it looked even longer than usual.

"Yes, you and I are going to be practicing a nice long stretch on that throat of yours." Ada said, heavily emphasizing the word "long" as she dragged her finger up the length of her cock.

The message was incredibly clear to Sherry, and she couldn't have been more excited. For all the other futa she had lain with over the years and all the sluts she had fucked, Sherry had never once had a lover that was able to give her as much sexual bliss as Ada and Claire, with the only person that had even come close being Claire's close family friend, Jill Valentine, or "Auntie Jill" as the woman had insisted that Claire refer to her as.

That being said, her "mothers" had always told her that no matter how excited she was in situations like these, that Sherry should always put up at least some resistance. Otherwise people would begin treating her like your run-of-the-mill slut.

"I.... I don't think my throat needs stretching, A-Ada." By this point, Sherry was practically drooling from her position on all fours, eyes of pure hunger locked on the Asian woman's cock.

"Oh? But every good girl should practice stretching her throat. How else will you be able to drink all of your milk if you don't?" Once again, Ada put heavy emphasis on the word "milk", however this time instead of her cock, she gently cupped the side of one of her huge testicles, which churned in response.

With that, all semblance of false resistance left Sherry as her hunger overpowered her and she lunged a hand forward to grab Ada's cock.

"Ah, ah, ah, my little slut." Ada chided as she moved her cock just out of reach, causing it to sway enticingly from the movement once again. "I told you to maintain that position, didn't I?"

"What?! But how am I supposed to-"

"You have a mouth, don't you? I think that would be put to much better use around this huge cock of mine than speaking, no?" Ada walked forward as she motioned Sherry to return to her previous cat like stretch, then placing her dick close enough for all of it to be fully accessible by Sherry's mouth.

"Now, start lubing up this cock you love so much."

Nodding, Sherry immediately lowered her head to place a gentle and loving kiss on Ada's cock head. Working her way up, she continued to plant butterfly kisses on the entire expansive length of Ada's dong before finally reaching the root. Sherry gently moved the base of the shaft aside with her nose before planting her face deep into the Ada's balls and taking a deep inhale.

Despite having a cock that was less thick than both Claire and Sherry's, Ada's balls easily surpassed both of theirs in size, allowing for Ada to produce more tasty cum than anyone Sherry had ever seen.

Smiling as she inhaled the pungent scent of Ada's cock, Sherry could almost taste the lewd scent emanating from her sack and felt her mouth begin to produce drool on instinct in response. With that, she gathered a pool in her mouth and began to lick the surface of the older woman's balls with feverish need. Sloppily coating her entire sack, Sherry opened her mouth as wide as she could and began sucking directly on the testicles themselves. However, Ada's balls were so large that Sherry couldn't actually fit either in her mouth, so she was left simply suckling on portions of the oversized orbs.

"Oooooohhhh yeah, that's a good little girl." Ada cooed as she began gently patting the top of Sherry's head.

Sherry continued lavishing on Ada's fat sack until she had felt they had been properly tended to. Planting a parting, loving kiss on each of her testicles, Sherry then moved on to the main event. Gathering as much saliva on her tongue as she could the young blonde gave Ada's lengthy shaft a long lick.

"Ahhhh, That's a good little slut. Looks like all those lessons Claire and I gave you on sucking dick were worth it." Ada said with a pleasant sigh, enjoying the feeling of Sherry's soft tongue on her rod.

Working from the tip, Sherry began the arduous yet very much enjoyable task of coating Ada's entire cock in saliva. As she moved further up the shaft, Sherry began changing it up and alternating between not just licks, but slobbery kisses as well. After a few more minutes, she finally reached the shaft and moved her head back to judge her handiwork.

Seeing that Ada's entire length was now not only caked in a thick coating of saliva, but that the rod itself was beginning to harden as it slowly rose from its downward position, Sherry lowered her head and quickly gulped down the head of Ada's cock.

"Oh fuck, yes! That's a good little slut. It's been too long since I've had someone who actually knows what they're doing attend to my cock." Ada said, biting back a moan as she felt her "daughter" rotate her tongue around the glans of her cock.

Sherry smiled internally as she saw that her technique was enough to please Ada, before beginning to relax her throat. A blowjob was easy enough, but the real challenge was about to come.

With her throat as relaxed as it could be, Sherry gave a soft moan around Ada's still hardening cock and began to slow rock backwards and forwards. Despite the head of Ada's cock already reaching the back of Sherry's throat, the vast majority of its length was still out and exposed to the air, with this length only increasing as Ada's cock got harder, so Sherry had to work fast.

"Oh? Trying to deep throat me already?" Ada chuckled, taking her hand off of Sherry's head and laying it onto her own hip. "That's probably a good call, you'll have a harder time forcing it down that tight little throat of yours once I'm fully erect.... Well, hurry up now. My cock isn't getting any softer.~"

With that, Sherry began the laborious process of trying to take Ada as deep down her throat as she could.

First, Sherry would push herself forward, taking as much dick as deep down her throat as she could, before rocking back and fourth. This not only allowed herself to get used to the new intrusive length, but also to pleasure Ada. Once she had adapted to the amount of cock in her throat, Sherry would push more down once again and repeat the process. The results were slow but steady, with each push only resulting in Sherry getting two or three more centimeters of dick down her throat each time, but they were results none-the-less.

Sherry mentally thanked her past self for doing such a good job in coating Ada's length in saliva, as this was allowing her the lubrication necessary to have a much easier time as Ada's cock slithered further down her throat. The only problem, however, was that Ada was still becoming more and more erect as time went on, so for every centimeter of headway Sherry made, Ada's cock seemed to grow a centimeter in turn.

"That's a good girl Sherry, you're doing great. I'm already about two-thirds of the way to my full size, just-.... oh fuck yes that's it..... just a little more....."

'This is only two-thirds?!' Sherry thought, as her eyes widened. She had become very familiar with the full

size of Ada's cock over the years, and she was almost sure that she had already been nearing her maximum size.

'Did.... did her cock have a growth spurt?' Sherry had always assumed she was the only one who had a dick that was constantly growing, but maybe not....

Nevertheless, Sherry was determined to take as much of the pleasurable meat down her throat as she could, even if the size was larger than she had been anticipating. This entire situation was just too arousing to stop now.

"Hmmm, if I'm remembering the last time you tried to deep throat me correctly, you only got a little under half way down my penis." Ada thought aloud as she made an exaggerated gesture of putting her hands in a thinker pose as if trying to remember if she was right or not.

Looking down at Sherry again, it was clear that Sherry was already about to pass the half way mark.

"However, last time I was already fully erect. If you beat your record now it'll feel like cheating." Ada was all smiles as she said this and reached down, grasping both sides of Sherry's head before softly whispering.

"Here, let's fix that."

With that, Ada pulled backwards, taking all of the precious progress Sherry had made out of her throat until only the head remained once again. Sherry was too preoccupied to notice however as she felt a powerful orgasm rip through her body at the feeling of all that cock meat moving through her throat at once.

Ada watched with a small chuckle as Sherry's cock exploded between her legs, laying a generous amount of cum all over Ada's couch as well as Sherry's own legs.

Ada then clenched her large ass cheeks before she rammed her hips forward, forcing nearly half of her length down Sherry's throat, causing another loving orgasm for Sherry on top of the one she was currently recovering from. Giving her "daughter" no leeway, Ada once again immediately pulled back and then slammed her cock in again and again.

Ada repeated this relentlessly as she face fucked Sherry. Smiling as she watched her "surrogate daughter's" eyes roll into the back of her head thanks to a combination of her continuous orgasms and Ada's cock growing constantly within Sherry's throat as she fucked it.

Ada groaned, feeling her arousal heighten even further at the sight of the cute little girl she had raised being brutally face fucked by her huge dick, and finally she felt herself reach her penis's full size.

"Ah, there we go...." Ada said with a groan as she slowly removed her cock from Sherry's throat, stopping just when the head was the only thing left inside.

"Alright Sherry, now that I'm finally at my maximum, you can start. Let's see how far down your slutty little throat we can go." Ada said with a mocking smile. She was pretty sure that Sherry couldn't even hear her, as her eyes were still rolled behind her head and she had a large combination of drool and pre-cum flowing out of the corners of her mouth.

"Oh? You want me to do it myself? I'm sure you know already but I'll be a lot rougher on your throat than you would, is that ok?" Naturally, there was no response. "Alright then, if you insist...."

Grabbing Sherry's head once again, Ada brutally shoved her cock down the younger girl's throat and began pounding her even more mercilessly than before. This seemed to be enough to bring Sherry out of her trance as her eyes suddenly came back to life and she immediately began groaning loudly, which only helped to goad Ada further as the moans sent pleasurable vibrations through her cock.

As this pounding continued, Ada began forcing more and more of her length down Sherry's throat. Initially only about a centimeter more with every thrust, but soon she began getting as far as three or even four centimeters deep. This continued relentlessly for minutes as Sherry's throat was used as little

more than a fuck toy.

Soon however, Ada began changing her thrusts. Instead of the brutal and long fucks where she took her entire length out before slamming it back in, she began using more short and compact thrusts at a much faster pace, now only removing a third or a quarter of her cock before immediately slamming it in once more.

“Oh yes, yes, yes, here it comes!” Ada moaned, her thrusts becoming even more compact than before.

“Mmmmmghhheerrr!” Sherry loudly moaned around Ada’s penis in excitement as she watched the woman’s huge testicles begin to swell to even larger sizes as they prepared to dump a thick, creamy load straight into Sherry’s stomach.

With every thrust, Sherry felt the large balls slapping against her chin gain more and more weight as they grew larger, filling with more and more of Ada’s virile seed.

“Oh yes!.... Oh FUCK! HERE IT COMES, SHERRY! DON’T YOU DARE SPILL A DROP YOU LITTLE SLUT!”

Gripping Sherry’s head even harder, Ada closed her eyes and gave one final thrust, her cock going deeper into Sherry’s throat than ever before.

And then....

Nothing.

Confused, Sherry looked at Ada’s face and saw that her eyes were still closed, a look of concentration on her face.

\*slosh slosh\*

The only sound Sherry could hear was a mysterious light sloshing. Looking around with her eyes, she tried to locate the source.

\*slosh slosh\*

Finally, Sherry’s eyes laid themselves onto the source of the noise: Ada’s testicles.

With every second, they were growing larger and larger at a pace that was faster than ever before.

‘Oh my god.... I can actually hear the cum flowing around in her balls....’ The idea alone was so arousing that Sherry felt another orgasm immediately flow through her own cock, further dirtying the couch.

Then finally....

“OOOOHHHHHHHHHH!”

Ada flung her head back and with a loud groan, her balls contracted while her cock’s girth expanded due to the sheer amount of cum being pushed through it. As Sherry’s throat expanded as well thanks to the cum that moved down Ada’s cock, she felt it finally begin depositing into her stomach.

Shot after shot of thick warm cum began filling her with a warmth unlike any other as the blonde girl became a moaning mess around Ada’s dick.

Sherry had lost count of how many orgasms she had already gone through today, but the one she had received in that moment overshadowed all those previous. With her eyes rolling back into her head, all Sherry could do was moan as Ada deposited more and more of her thick cum into her stomach.

Sherry didn’t know how long Ada’s orgasm lasted, it could have been minutes, it could have been an hour, but it seemed to last an eternity to Sherry, as her own orgasm warped her perception of time.

As semen ceaselessly continued pouring into Sherry, her stomach was no longer able to contain the sheer volume that was being ejaculated, and began expanding under the pressure.

This continued for even longer as Ada rode the wave of her amazing orgasm, now no longer shooting large shots of cum into Sherry's stomach, but instead a constant strong stream of baby batter was being poured into Sherry's stomach as Ada's huge testicles continued to churn more out.

Finally, once Ada felt her orgasm begin to subside, she opened her eyes and looked down at Sherry. It was obvious from first glance that Sherry was long since unconscious, impressively however, she was still holding herself in the same stretch position she had been this entire time.

Smiling at how obedient the girl was, Ada reached over to where her kimono was hanging next to Sherry on the couch and fished a phone out of one of the pockets. With her fully erect cock still deep in Sherry's throat, she opened up the camera app and got a few good shots of how far Sherry had taken Ada's dick down her throat. While most of Ada's cock was currently inside of Sherry, there was still a fair portion that remained outside the younger girl's mouth.

Smiling at the new pictures, Ada added the best one to an album of very similar images, showing Sherry at various stages in her life attempting to deep throat Ada's cock. This new picture however, was by far the deepest she had gotten of any of the dozens of other in the album.

"Wow Sherry, you really broke your record. You got almost three-fourths of my cock down this time. Maybe soon you'll be able to take it all the way to the base?" Ada said aloud, as she reached down and gave Sherry's head a few more pats.

Gripping the blonde girl's hair, Ada slowly began pulling her cock out of Sherry's throat until only the head remained, with one last grunt, Ada contracted her balls, forcing her cock to release a few more large spurts of cum into Sherry's mouth.

"Here's your milk honey, you did a great job today." Ada said with a smile that was completely out of place on someone that had just face fucked their "daughter"

Even while unconscious, Sherry began gulping down the cum in her mouth as if on instinct, causing Ada to smile even wider, before the older woman finally removed her dick entirely from Sherry's mouth, causing the younger girl to collapse into a sleepy, cum stuffed pile on the couch.

"Alright Sherry, have a good night's rest.... You'll need your energy for when we're back at your stretches tomorrow."

And with that, Ada walked away from the unconscious blonde, her still fully erect cock leading the way as she headed towards the showers, smiling all the while as she thought of more ways to have fun with her "daughter" in the coming days.
