*Blue* = Noises

*Green* = Tone

Don't make any sudden moves. Unless you want your throat slit. Stay nice and calm for me, ok beautiful?

Now tell me...where is the other resident of this house?

...

What? No one else lives here? That can't be true, because you're not my target. I've been watching this place for over a week and I've never seen you around. I think I would remember someone like you.

Are you lying to me, sweetheart? I don't like liars. They make my job much harder than it needs to be.

...

You're not lying? Fine then. I'm going to go search this house, but I can't have you running away on me, can I? Hands behind your back. I'm taping you up. Don't try to fight me.

*[tape sfx]* Now lie on the bed. Gotta tape your feet too. *[tape sfx]* And...I need you to shut up. You can breathe through your nose, right? *[tape sfx]* There. All wrapped up like a little present. I'll be right back.

...

Today is your lucky day. Turns out you were telling me the truth. Looks like I'm in the wrong house. This neighborhood is way too fucking confusing.

But, no matter. I may have been studying my other target, but you'll do instead.

...

Awww don't be afraid. I promise to make it quick. You've seen my face, so I can't risk letting you walk free.

Fuck...it is a shame though. I quite like the way you look with tears streaming down your face. I don't usually target people who...suit my tastes.

Sure you don't want a quickie before I kill you? *[laughs]* Don't give me that look, I was joking.

...

You're pretty fun. Out of the kindness of my own heart, I'll choke you to death. It's one of my less...painful methods.

You look so defeated already. Here...I'll remove this tape from your mouth. Any last words, lovely?

...

Whoa whoa whoa. Is that any way to speak to your captor? I think I've been extremely kind to you. If you were anyone else, I would have been cleaning up the scene already. Be fucking grateful.

...

*(shocked)* Just get on with it? Wow, you must really dislike me. Not that I can blame you, but it does sting a little.

...

What? A serial killer can get his feelings hurt too. *[laughs]* Ok fine, I'll get on with it then.

Damn...your neck fits so nicely in my hand. Be good for me, ok sweetheart?

*[choking sounds]* There you go. Try not to thrash around, just accept your fate. Shhhhh you're doing so good. So good for me.

...

*[laughs]* This has got to be a joke. Are you getting turned on by this? I see you squeezing your legs together. Are you into the kinky shit?

...

Alright, that's it. *[choking sounds stop]* Breathe. Just like that. Deep breaths, beautiful.

...

You know...I was joking before, but now I am dead serious. I want to fuck you. It's been a long time since someone has turned me on this much. I've felt like my dick was about to explode

since you started crying earlier. And by the looks of it...you could use a little relief yourself. What do you say?

...

*[laughs]* You're crazy. I love it. Fair warning though. I'm crazier. Think you can handle it? Don't worry, sweetheart, I'll make your last time mindblowing.

...

These need to come off. *[clothing sfx]* Shit...look how soaked your underwear is. You must have been super turned on. You just keep on surprising me, love.

Spread your legs as best as you can. I know you're taped up, but I want to see you.

You're so vulnerable to me. You can't even defend yourself. I can do whatever I want to you.

I can run my fingers up your thighs...trace them along the edge of your sensitive spots...tease you until you're begging me to touch you.

...

*(teasing)* Do you want me to touch you? Tell me. Go ahead. I removed the tape from your mouth for a reason. I want to hear you.

*(angry)* Don't shake your head. I think you're forgetting who is in charge here. You are at my mercy, so do as I say.

...

That's more like it. Of course I'll touch you, love. I'll make you feel so good.

*[wet noises]* Those are the moans I've been anticipating to hear. You like the way I touch you down here? You're dripping wet.

*[wet noises]* Fuck...the way you're moving your hips is so hot. You're so desperate for my touch. You're loving this, aren't you sweetheart?

*[wet noises]* You're doing so good for me. Let me hear how good I'm making you feel.

*(demanding)* Louder. There you go. So obedient.

...

What's that? You're gonna cum? Already? *[wet noises stop]* Aww I don't think so. Not yet. That would be too easy. I want to have some fun too.

You see...I want to break you. Have you completely submit to me. I want you to be so close to the edge that you're begging me for release.

*(whispering)* If you obey me, maybe I won't kill you. How's that sound?

That's what I thought. Now...you don't cum until I tell you to...understand? Even if you're right on the edge and you can't control it, you do nothing without my permission. Tell me you understand. Use your words, lovely.

...

Good. Shall I fuck you now? Do you want my cock? Knees to your chest. I'm gonna fuck your ass.

Your hole looks like it's begging for me. *[loud moan and wet sfx]* Fuck, sweetheart. You're so tight. Loosen up, will ya?

...

*[improv noises and wet sfx]* It hurts? Sorry, my dear, but I don't care. I'm going faster.

*[improv noises and wet sfx]* God it feels so good to be inside of you. You like feeling my cock in your ass?

*[wet sfx]* Aw, baby, don't cry. You're gonna make me cum. You know how I love it when you cry.

...

*[wet sfx]* Lift your chin up. I'm gonna choke you again. You liked it a lot when I did it earlier.

*[choking noises and wet sfx]* Holy shit...you get so tight every time I squeeze your throat. You feel so fucking good.

*[choking noises and wet sfx]* Your face is getting all red. This is so sexy. Do you want to breathe? Yeah? You can breathe after I cum. I'm close. Squeeze my dick tighter.

*[groan]* Just like that...fuck, babe, I'm cumming! *[improve noises]*

Holy shit. You're amazing. *[choking noises stop]* Breathe, my dear. Deep breaths.

Did you cum from that? You know...I could have sworn I told you not to cum unless I told you to. Remember that?

It's a bit too late for apologizing, isn't it? And you were doing so good up until now.

Don't worry. I'm not going to kill you. However, I can't leave you here, plus, my DNA is all over you. *[choking noises]* I just need you to sleep for me. We'll go somewhere safe. Rest now, sweetheart. I'll see you when you wake up.
