This sketchbook  
contains:

-Consensual rough sex,  
choking (ish?), self harm scars.  
pg 5,6,7

(I say ish because it's mild and not  
really with intent to cut off air,  
just powerplay)

if they hooked  
up at a bar...

What was your name again?

Sylvia

Ah - and yours?

Jerry

To be honest I'm still figuring out their dynamic,  
but I figure drawing it is a fine way to find stuff out about them.  
I don't know what strap-ons looked like then  
but if they were widely used Billie would absolutely get off on wearing one.  
She probably wouldn't top with it in any dominant way,  
but Bertie might top from the bottom, sometimes.

I actually only drew this  
because I couldn't make  
eating-out work with Billie's  
pose. But it was fun to  
explore.

thanks for reading!
