

I tried to find the same image I had used as my inspiration but (the awoken part at least, but i couldn't. The general gist of it is that she is a cross of awoken and asari, a light blue color with plenty of white shading.

+

This is basically what Ema's armor looks like, yes it's from destiny and I figured it goes well with her theme. The only differences are, one, no loose cloth, so no hood or sash, and two slightly more armor plates on her stomach and thighs, the thigh armor replacing the leather chaps.
