## *Feminine Impulse, Part 3*

### ✧ **Drinks**

Fall deeper and deeper into trance as you listen to my voice and let all of your worries, fears, and anxieties fade into nothing. And, as the world fades around you, I want you to find yourself sitting in a crowded bar. You can look down at yourself and find that you are wearing a pretty, lacey, outfit to perfectly show off your flirty, feminine, body. Happy. Adorable. Comfort. You are delighted to see that you have applied a cute, sparkly, nail polish on the fingers of your dainty, feminine, hands and your pretty toenails have been painted to match adorably in your trendy open-toed platform shoes. Confident. Pink. Pleasure. You are dressed in your feminine best and know that any other woman in the bar would kill to be you right now. Yes. And as you think your cute girly thoughts, with your smooth legs crossed, at the popular bar that you love to visit, I want you to pick up and look at the menu in front of you. You can smell the sweet floral scent of your girly perfume as you start to read about all the fun things that you can order. Confident. Feminine. Cute. You know that there are many items on the menu that would be completely inappropriate for a woman like you to select. Gross. Masculine. Nausea. You remember that food items that are fried or greasy will always make you look fat and unfeminine and gross. These meals simply do not taste as good, and every bite makes you remember how fat and ugly and disgusting you are going to make yourself whenever you eat them. Yes. Remember clearly that any alcohol that is distinctly masculine also brings you nausea and makes you feel alone and uncomfortable. Gross. Disgusting. Ugly. Beer, whiskey and any other alcohol with a high calorie content makes you feel more masculine and gross and uncomfortable than anything you have ever felt. You can clearly remember that you are a pretty, feminine, woman and know that those horrible, masculine, drinks are completely inappropriate for the delicate lady that you present yourself as every day. Pink. Feminine. Soothing. You can confidently remember how much you prefer wine and cocktails and fruity, sugary, girly drinks whenever you go out to drink. Yes. Happy. Comfort. You know that you might have tried other alcohols in the past, but can relax as you feel a soothing wave of pleasure and comfort in knowing that your new preferences are overtly feminine and perfect for such a delicate little slut such as yourself. Feminine. Adorable. Loved. You want to only drink flirty Cosmopolitans. You absolutely adore a perfect Martini. You make sure to only eat healthy salads. You know that by only eating low calorie foods and drinking girly, feminine, drinks, you can work every day to keep your body perfect and fuckable to the sexy strangers around you. Yes. You know that you are the most confident whenever you are the most feminine, and you

will try your best to be the most feminine and confident version of yourself with each passing day.

✧ **Flirting**

As you fall deeper and deeper into trance, I want you to look around at all the other sexy, hunky, strangers walking around the bar. They are so beautiful and enticing and strong, and you are grateful and happy that you put so much effort into looking your very best for them tonight. I want you to reach into your pretty, feminine, purse and pull out a mirror to check your makeup. Comfort. Pink. Confident. And as you check your makeup, in your pretty, ornate, mirror, I want you to realize that some of your cute lipstick is out of place. Afraid. Alone. Uncomfortable. You know that if even a tiny portion of your makeup is out of place, you completely lose all of your feminine self esteem and turn into a complete emotional mess in front of others. You are intuitively aware that your pretty makeup is an advertisement to the people and strangers around you to see how beautiful and creative and feminine you are and having even a little bit of that makeup out of place causes you to feel gross and uncomfortable and ugly. Yes. Pink. Desire. Now, while you think these distinctly feminine thoughts, as you always do whenever you find yourself in this situation, I want you to reach into your purse and pull out your tube of pretty pink lipstick. You know that you will feel better about yourself when you touch up the makeup on your adorable face. Yes. Desire. Loved. You can remember that you are the happiest and most feminine whenever your makeup is perfect and can feel waves of giddy anticipation as you spread your pretty lipstick evenly over your girly lips. Happy. Pleasure. Pink. You feel so much better now that you have fixed your makeup. You know that since your makeup is fixed and perfect you can feel confident in your ability to interact and communicate and flirt with the strong, dominant, strangers moving around you. Desire. Pleasure. Confident. Your innate habits tell you that you need to check your makeup often to make sure that you are always confident wherever you go. Deep inside yourself, you can remember how unconfident and out of place you have felt whenever your makeup was imperfect or not right for the occasion. Yes. Masculine. Gross. Even thinking about your face without any comforting makeup just makes you feel sick to your stomach. Makeup is what you rely on to feel confident and flirt like the delicate little feminine princess you love to be and not having any on makes you feel like a gross, awkward, man in any social situation. Loved. Feminine. Pink. You are intuitively aware that matching your makeup to every outfit and style you decide to wear is just part of your charm and who you are and who you aspire to be. Hunky strangers will always be drawn in by your allure and be putty in your soft, feminine, hands once your makeup and style and pretty outfits align to make you the sexiest, most seductive woman you can possibly be. Loved. Pink. Feminine. You know that you love to flirt because you love to

---

be seen and looked at and complemented by others. Happy. Pleasure. Desire. You aspire every day to be a sexy little tease, and having your makeup and clothing and personality become completely feminine and girly will help make it easier for hunky strangers to take you home to their house and fuck you like the delicate little princess you love to be every day. Happy. Soothing. Feminine. Smile for me now and drift deeper as you think about giving into the desires and wishes of the sexy lovers of your fantasies.

✧ **Dancing**

Peaceful and relaxed for me now as you fall deeper and deeper into trance. I want you to look around the popular bar you find yourself sitting in. Are there people talking and flirting with each other, just like you love to talk and flirt like a delicate, feminine, princess with all of the hunky strangers you see? Yes. Pleasure. Soothing. People are laughing and joking and talking with each other, and you hardly even notice when the music starts and they all begin to dance. Desire. Anticipation. Confident. You can find yourself easily moving with the poppy rhythm of the music playing through the bar speakers and know that you love how feminine and comforting and soothing it is to dance to the beautiful melodies of the songs with your adorable, seductive, body. Yes. Pink. Desire. And as you move with the music I want you to remember all of the other times in your life where dancing brought you pleasure and comfort and made you feel like your most confident, feminine, self. Can you picture those thoughts now? Yes. You can clearly remember how much you loved ballet when you were a little girl. All of your other friends were dressed in the same cute ballerina outfits as you and you felt so confident and girly on stage as you showed off the fun dance routines you had just learned. Feminine. Adorable. Pink. You remember the pride you had in yourself and your abilities when you were cheered for at your first ballet performance. Moving your body to music has always been something you have intuitively loved, and you know that it would be completely unintuitive to ever stop dancing or moving your body whenever you are given the chance. Yes. Soothing. Comfort. It is almost involuntary how your curvy figure moves whenever you hear a catchy song. Your hips start to sway back and forth as your hands and torso move seductively like any other cute, flirty girl would move whenever they are trying to dance to attract horny strangers into fucking them in just the ways that they love to be fucked. Yes. Confident. Loved. You remember that you need to practice your pretty dance routines each and every day to keep yourself in peak physical shape and make sure that your body is flirty and sexy enough that you can take a hunky stranger home with you whenever you desire to. Adorable. Happy. Pink. Finding great pride and passion in your movements has always been a soothing source of personal pleasure for you, and you remember how much you love looking for fun dancing classes to try and find new and seductive ways to express yourself to the people around you. Yes. Pleasure.

Feminine. You can intuitively understand that dancing is the best way to be the pretty, feminine, self that you've always wanted to be. You want to show the world around you the sexy seductress that you keep hidden deep underneath your pretty dresses, lingerie, and makeup. Feminine. Desire. Deeper. Not expressing yourself with dance and music just seems so foreign to you and you know that you would feel gross and uncomfortable and masculine if you were ever caught not dancing to the girly pop songs that you love to listen to. Yes. Moving your body like a completely flamboyant feminine princess whenever you hear a catchy song is just part of who you are and you know that you will dance every day until you become the most perfect version of yourself. Picture yourself now, moving your curvy, feminine, body to the poppy bar music as you fall deeper and deeper for me into a calm and peaceful trance.

✧ **Anticipation**

Drift for me now. Deeper and deeper into trance. Back to the crowded dance floor in your favorite bar where you love to flirt with hunky strangers in your tight, sexy, outfits. You feel confident and seductive and feminine as you grind up against the strong, dominant strangers behind you on the dance floor. And, as you dance back and forth. Moving your body like the sexy little tease you know you love to be. You discover that your partner takes you by the waist and pulls you closer. Pleasure. Desire. Feminine. You absolutely gush with desire as you feel the strong dominant hands pull you closer and hold you so securely. You feel pleasure and desire and know that you would love to absolutely melt like putty in their arms every single day. Yes. You can feel your horny little ass start to light up with pleasure and anticipation as you begin to imagine all the sexy things your strong, dominant, lover is going to do to you once you get back to wherever they need to take you to fuck you in the ways that you love to be fucked. Happy. Loved. Soothing. And as you have these happy, normal, feminine, thoughts to yourself, I want you to grind even harder against your partner to excite them even more. Yes. You just love rubbing against and teasing strangers in public to try to entice them into fucking your adorably girly little body. Dancing and sex and flirting are all undeniable facets of who you are and you know that you will only be happy once you try every day to make them a part of your adorable, feminine, life. You know that you cannot wait to be bent over and used by the strong hunks you see every day and feel completely confident that you have the delicately feminine skills to tease them into making it happen. Yes. Confident. Feminine. You remember how much you absolutely adore acting like a dirty little slut in public whenever hunky strangers start to move against your body. You intuitively know that dancing and acting like a slut in public is how you let off steam after a long day at work and you find a soothing, peaceful, pleasure deep within yourself whenever a dominant admirer takes you back to their house to fuck you like the insatiable little tease you love

to be. Adorable. Girly. Pink. You know that you love to have fun in your life. Dancing like a seductive slut. Teasing strangers with your body. Dressing in skin-tight, feminine, outfits. Desire. Happy. Soothing. Being a slutty little tease is just who you are and you will work every day to make sure you have more and more fun in your life by acting and dressing like a tease wherever you go. Confident. Comfort. Loved. The anticipation of being fucked drives you completely crazy sexually and turns you into a wet feminine mess and you know that you love leaving the house every day with the complete intention of ending up in a dominant lover's bed. Pink, submissive, feminine thoughts envelop you as you discover your body heating up even more. You feel a sense of ultimate pleasure and belonging as your hunky partner pulls you closer on the dance floor. Pretty. Pink. Pleasure. You know this is how you were always meant to be. Just a sexy little tease in their arms, ready to be used in any way they could ever desire. You can smile and drift deeper as your lover takes you out of the crowded bar, pulls you into their car, and starts driving you back to their house.

❖ **Lover's House**

Now relax and drift further down for me. Deeper and deeper into the darkness until you find yourself in a well furnished house belonging to the sexy stranger you followed home from the bar. Desire. Pleasure. Confident. You can tell that your lover wants to remove all of your clothing and fuck you right there on the spot, but you know that something isn't right. Yes. You need your hunky admirer to pleasure you first. Pink. Desire. Feminine. Having a hunky lover work to turn you on before they fuck you is one of the most important parts of sex. You remember that if dominant lovers don't know how to cater to you as a woman, they will never be able to satisfy you sexually as the dirty little fuck toy you love being. Yes. You need your lovers to grab your cute boobs. You yearn for hunky strangers to play with your growing bubble butt while they whisper sexy compliments into your ear. Pink. Pleasure. Desire. Being turned on is being catered to sexually, and you know that you have a hard time giving yourself up as the sexy little fuck toy tease you love being without having proper time and attention spent towards your feminine needs. Yes. Sex without foreplay is so boring and crude. You want your lovers to tie you up. You need to be spanked in your sexy lingerie. You fantasize about being spoken down to like the foulmouthed little slut you love to be. Feminine. Happy. Cute. You can clearly remember in your mind that foreplay is the all encompassing spice of your sex life, and you will insist on foreplay in each every sexual encounter you come to find yourself in. You need a lover who can cater to you and your needs as a completely delicate and feminine woman and will actively seek out those hunky strangers whenever possible. Yes. And as you are thinking these cute, adorable, feminine thoughts, that define you as the woman you love being each and every day, I

---

want you to come back to the room where you are undressing in front of your dominant lover. You can clearly see them laying down in front of you on the bed. Your hunk is so sexy and you are completely turned on once you realize that they have already begun undressing for you. Pleasure. Desire. Happy. You can see them start to play with themselves and you can feel comfortable in your ability to start feeling even more aroused. Pink. Adorable. Desire. You know that you need to be fucked right here and now, but there is still something missing from foreplay isn't there? Yes. You know that you need your lover to talk to you like the silly little slut you love being to truly get you in the mood. Desire. Pink. Comfort. You are aware that, in the past, you have not been as vocal with your lovers with how much you need them to use you like the slut you love to be. You will now commit to a future of reminding and encouraging them each and every day to use you like the fuckable princess you've always worked towards being in your life. Pink. Pleasure. Desire. You know that you are happy whenever you are honest with yourself and the world around you, and you can be assured in your own honesty that foreplay is something you need and desire before each and every sexual encounter. Find comfort in yourself as your lover continues to turn you on with their deep voice and sexy language and hunky body and find yourself drifting even deeper into a dark and comforting trance.

✧ **Lingerie**

Drift deeper and deeper for me now. You know that you are now on fire sexually and horny and ready to be fucked by your chiseled, dominant, lover that turns you on so much. Desire. Happy. Feminine. And since you are so horny and wet and fuckable, you know that you are ready to take off your clothes and show your lover your beautiful, feminine, body. Soothing. Pleasure. Loved. I want you now to carefully remove all of your beautiful, feminine, clothes for your lover. Take off each item of clothing piece by piece and make sure you do a sexy dance before you show him how deliciously adorable your cute, feminine, body is. Yes. And as you are dancing slowly, with your horny body moving as seductively as possible, I want you to look at the lingerie that you are wearing. Is it expensive? Is it matching? Does it entice lovers into fucking you with little to no encouragement? Feminine. Adorable. Confident. You are aware that having flirty, feminine, underwear is just part of who you are and know that you love wearing expensive panties and bras wherever you might decide to go. Wearing satin or lace underwear helps you feel like a delicate princess. Wearing cute, flirty, lingerie helps you feel completely confident in yourself and makes you need to find sexy strangers to show yourself off to. Pleasure. Pink. Desire. Cute underwear is for you to show to others and to hug the curves of your adorably feminine body. Seductive lingerie is for you to wear whenever you are feeling less than confident in yourself. Yes. You know that you always

---

need to check to make sure that your lingerie is matching each and every day. You can easily remember that not having the right set of cute underwear with the right outfit makes you feel unconfident and bored and gross. Yes. You know that lingerie is a great way for you to show others how adorably cute and feminine you love being while also giving them a little bit of mystery they need to work for. You remember that you will not be confident until you have a set of lingerie for every occasion and secretly wish that everyone could see how cute and adorable your matching underwear looks underneath your pretty, feminine, outfits. Pleasure. Pink. Desire. Wearing delicate, feminine, underwear makes you feel sexy and confident and you know that you wear seductive lingerie at all times to make sure that you maintain that confidence throughout the day. Sexy underwear is a fun little secret that you can keep with your lovers and yourself. Delicate panties and bras help you feel confident in who you are as a woman and prevent you from feeling gross and masculine and uncomfortable in front of others. Yes. You know that you love wearing sexy lingerie whenever given the chance and remember how good it feels each and every day to listen to yourself and follow your dreams and ambitions towards your ultimate desires.

✧ **Come**

Feel content now as you drift deeper and deeper into a soothing and relaxing trance. And as you drift deeper and deeper into the warm and comforting embraces of your very open and receptive mind, I want you to focus on your sexy, dominant, lover. Your sexy stranger is clearly turned on, laying down on the bed in front of you. Yes. And you know deep within yourself that you need to please them totally and completely in order to be truly happy. You can intuitively remember that unless you have tasted your lover's come, you have not completely satisfied them in all the ways that they need to be satisfied. Yes. Confident. Loved. You can feel the anticipation on your lips as you dive onto your hunky lover and take them into your mouth. Desire. Pleasure. Feminine. It just feels so good to be submissive and please your lover in the ways that they want to be pleased. Yes. You can feel the sweat and musk combine into an undeniable aroma of arousal as you hear your partner begin to moan. Happy. Loved. Desire. You begin moving faster and faster. Desperate to please your lover. You know that your partner's pleasure is also your own and that whenever you are pleasing others, you are also pleasing yourself. You intuitively remember that swallowing come down your little fuck toy throat is one of your ultimate pleasures in life and love that you have become such a good little tease that you can generate a steady supply of come whenever you want. Confident. Comfort. Happy. You remember that by pleasing your partner, you are also pleasing yourself, and you know that you love pleasing yourself more than anything when it comes to swallowing as much come as you possibly can. The taste of your lover's come is the best taste in the

---

world to you, and you will do whatever you can to make sure you swallow it each and every day. Yes. Comfort. Desire. The thought of not being able to consume enough come in a day makes you feel afraid and uncomfortable and alone. Not tasting come for enough time even makes you feel nausea and pain and makes you feel gross and masculine. Yes. Pink. Happy. You know that you are a sexy little, feminine, bottom slut, and not being given enough come to swallow reflects poorly on how delicate and feminine and fuckable the rest of the world perceives you to be. Happy. Loved. Confident. You love tasting come because it means that you have satisfied your lovers in all the ways that they love to be satisfied. Yes. Now, I want you to focus on your lover again. You can hear them let out a loud moan as they come all over your slutty face. Pleasure. Desire. Happy. You are so happy that you were a good enough of a woman to make your lover come all over your face and ruin your pretty makeup. Are they telling you to do anything? Loved. Soothing. Peaceful. You know that as a completely feminine, girly, girl you love to be submissive and seductive and horny whenever you are near your lover and remember how good it feels to just let go and submit to another during sex. Yes. Thinking for yourself. Making hard decisions. Taking responsibility. These are all the things you need your lover to do for you while you go down on them with the intent of swallowing as much of their come as possible. Drift off into a peaceful trance as you remember your love for come and deep need to satisfy your partners sexually each and every day.

✧ **Afterglow**

✧ **Boobs**

And now drift deeper and deeper for me. Down and down in your mind to the image of you leaving your sexy lover's house and getting into the taxi to go home. And as you sit in the back of the car, driving down the street in your sleeping town, I want you to focus on the small vibrations of the vehicle. Yes.
