

Today was a new day for Ember and his newfound body. Yesterday has a little hectic and full of action, but he was a new dragon today. He had a body that could help him hide within the all female college campus. Well, at least his chest would help him blend in.

Ember woke up early to get ready for his morning classes. He stood on the outside of the shower and turned on the water set to the hottest setting. He stood outside of the shower waiting for the water to heat up, and stared at himself in the mirror, admiring his new body.

Ember brought his hands up to his hefty J cup breasts and fondled them. They felt surprisingly sensitive. He then let both of them go from his hands to see a titty drop. But, as he wasn't used to the weight yet, his tits almost made him lose balance as his torso fell slightly towards the bathroom counter. "Geez. Alright, I need to be careful of that I guess."

Ember regained his composure and looked down at his grapefruit sized nuts and hefted one of them with his hand. He smiled as he admired his new body. He then figured the water was hot enough, and hopped into the shower. The boiling hot water hit his skin and scales. His eyes went half closed and he smiled. "Oooohhhh yeah. That's this is the good stuff."

As Ember started to enjoy his shower, he heard the bathroom door knob being messed with. He cocked his head, peaked outside of the shower around the curtain, looked to the door, and watched as Ella entered the bathroom. She was wearing just a shirt and some panties. He pulled the curtain to make sure it covered his breasts and genitals. "Ella?! What are you doing here?! The bathroom is occupied! Can't you hear the shower running?"

"Yeah." Said Ella as she walked past Ember, completely ignoring concern for privacy. She walked over to the toilet and began to sit down.

"Can't you wait?!" Said Ember who felt so confused. "I'm currently using the shower!"

"Oh right." Said Ella with a smile. "You're not used to an all female school. Ember, girls go to the bathroom all the time together. Besides, I just need to pee."

"Wait, girls actually go to the bathroom together?" Said Ember even more confused. "I thought that was just so you all could gossip in the bathroom."

Ella chuckled and then waved her finger at Ember. "Tsk tsk. You have so much to learn Ember."

"Okay but can you at least wait till I'm done showering? I'm not used to this all girl thing."

"I just sat down! I can't stop now. Either leave for a moment or just close the curtain if you don't want to watch. But you better hurry. I have to pee and I'm holding it back for you."

"Ugh. Even if I stay here I can still hear it." Grunted Ember.

"Then plug your ears." Shrugged Ella.

Ember furrowed his eyebrows and glared at Ella before closing the curtain and covering his ear holes. He waited for a moment, and was extremely thankful for the shower to be running. But after about thirty seconds, he heard the faint sound of a toilet flushing and uncovered his ears. He heard the sound of the sink water running and then shortly after some teeth brushing. He grabbed for the body wash that he had brought with him and his luffe, and began to lather it up. He heard some spitting and then the bathroom door opened and closed, and started to scrub his body.

The shower curtain was swiftly drawn back. "So di-" Said a voice. Ember panicked and let out a high pitched girly scream as he hunched his back and covered his breasts and cock. He looked back at the perpetrator who had just defiled the sanctity of a closed shower curtain. It was Ella. She stood there naked with a smirk that read of her about to suffer from a bad case of the giggles. She let one snicker escape and she covered her lips. "You uh, okay." Another snicker. "Ember?"

Ember tried to regain his composure and stood up properly. "Ahem. I uh. Was just uh. Erm..." He couldn't think of a lie as to why he just squealed like a bitch.

Ella chuckled. "Your secret is safe with me. Unless of course Bao Bao or Tallulah heard it. Then that's on you for screaming so loud" She then got into the already small shower with Ember and stood behind him. Some of the water began to hit her feet. "Oh heck yeah. You got that scalding water. Best feeling there is."

"I know right! And... Wait, this is my shower! "

“So?”

“So?! Ella, this is a private place!”

“Yeah. But... I like you.” Said Ella with a grin.

Ember felt slightly dumbfounded and he blushed. “Oh.”

“Yeah...” Said Ella. There was an awkward silence between them, with nothing but the pitter patter of the shower. “Sooooo can I join you?”

“Oh! Yeah, of course!”

“Thank you!” Said Ella with a big smile. She watched Ember as she started to scrub his body. “Would you like help?”

“With the body wash?” Said Ember with a chuckle. “I think I can handle-“

[smut]

Ember felt Ella place her hands on his shoulders and she began to massage them. “Are you sure? I’m pretty good at washing the female anatomy.” She slid her hands down his shoulders and around his chest to Ember’s breasts. She cupped them, and hefted them, while she pressed her own tits firmly into his back. She rested her chin on his shoulders. “You have a pretty big pair of breasts here. I’m not 100% sure you know how to clean them properly.”

Ella’s fingers began to rub Ember’s areolas, and he let out a slight moan. “Mmmm. Gosh why does that feel so good?” He could feel his cock start to get a bit stiffer.

“Yeah? You like it when I do this?” Said Ella, and she rubbed her fingers together around his nipples, and smiled softly as she heard Ember moan.

“Mhm.” Said Ember as he relaxed his body and started to close his eyes. “Keep going.”

Ella continued to massage Ember’s breasts in the shower and enjoyed the sounds of him moaning. But the more she massaged, the more intense his moans became. “*Hmm. I wonder.*” She did her best to peak around his shoulder and down at his cock, and sure enough, he was at full mast. She smirked. “Let me know if this feels good as well.” She let go of his right tit, and brought her hand to his shaft. She began to slowly stroke it.

“Oooooohhhhh yeeeeaaaah.” Said Ember with a big grin. “That feels awesome.”

“Glad you like it. So, do you wish to still scrub yourself, or do you want my help?”

“No no, uh, no I... I like you helping.” Said Ember as another moan escaped his lips.

Ella kept stroking, and the sounds of skin slapping masturbation fought against the showers' pitter patters and Embers’ moans. She heard his moans start to get more intense, and figured he was getting close to climax. “Oh man!” She said in a voice that pretended to be shocked.

“What... What is it?” Said Ember who sounded pitiful as he approached his orgasm.

“We can’t have you cum in the shower buddy. Your jizz will clog the drain. Don’t worry, I have a solution though.” Ella stopped massaging Ember’s tit and stroking his dick and walked to the front of him. She knelt down and opened her mouth and placed it around his dick.

“Oooohhhh. Ella. If... if you...”

Ella pulled herself off of Ember’s dick. “I know big boy. Choose whatever you’d like. Big tits, big ass, whatever you prefer. Maybe even a combo of the two.” She let out a barely noticeable giggle, and went right back to sucking him off.

Ember felt his knees start to feel weak. Ella’s mouth felt so warm and soft, and she was handling all of his length. His tip was hitting the back of her throat while her tongue expertly licked and wrapped around

his dick. He placed his hand against the shower for support, and groaned more intensely as Ella sucked him off. He was about to climax.

Ember belted out one more big moan as Ella shoved her head down to the base of his dick, and his orgasm began. He felt his dick begin to slightly swell as the massive load of jizz was on its way. He shoved his free hand against the back of Ella's head, locking her in place as he came. He stared down at her body as she drank from him, and smiled at her form. *"Maybe... maybe she could use a liiiiiittle bit more curves."*

Ella grinned as she felt Ember's hand on the back of her head, and the first load of his seed pelted the back of her throat. The shower was hot, but his jizz felt hotter. She nearly lost herself in pleasure as she began to gulp the load that he was shooting down into her throat. His cream felt so thick and viscous. It slowly crept its way down her gullet, and into her awaiting stomach. And even though the shower was one, she knew that her loins were wet from other reasons besides the running water.

Ember continued to moan as he finished his climax inside of Ella. When he was finally done, he let go of the back of her head. She slid her mouth off of his shaft, and let the drool drip from his dick. She noticed it started to get a little bit flaccid in her hand, and she let go of it, letting it plop onto his melon sized nuts. "So." She said with a grin as she wiped her lips with her wet furry arm. "What enhancements will I be getting?"

[/smut]

Ember smiled down at her with exhaustion in his eyes. "Uh, well I was looking down at your body as I climaxed, and was liking your curves and... you know I'm going to be honest there was a lot going on in my mind as I was climaxing. Not a hundred percent sure as to what will be happening exactly."

"Oh a surprise!" Said Ella as she started to stand up. She started to look over her entire body trying to see what might be changing, but didn't notice anything immediately. "Anything in particular stand out to you?" She said as she kept looking.

"Um. Oh yeah! Your ass and waist were looking pretty juicy."

Ella made a genuine smile and blushed. She looked behind at her ass and placed both hands on her cheeks and tried hefting each. "Hmmm. They do feel a bit heftier." She brought her hands to her waist. "Oh! I think I do feel a more intense curve here."

"Might be easier to notice once we get out of the shower?"

"Sure. Not a bad idea. Oh, and I'll actually help you scrub. I was being genuine about that but didn't want to miss an opportunity."

The two continued to have their shower together. After Ella helped clean Ember, he helped return the favor and cleaned her up as well. They finished up and hopped out of the shower, and she couldn't help but still look over her body, trying to figure out what exactly might have changed. As she used her towel, she ran the towel over her ass cheeks and smiled. "I think it is a bit bigger." She chuckled, then raised an eyebrow. She looked behind her and placed her fingers around her tail. "Is... is the base of my tail thicker too?"

"Uuuuuhhh. Maybe? Your tail was looking kind of sexy."

"Huh. Never thought about having a thicker tail. But you actually like it?"

Ember blushed. "Well, yeah. Thick tails are pretty kinky. Do you um... do you like, use yours as another appendage sometimes?" Ember smirked with some embarrassment behind the question.

"No, not really. It's more of a balance thing you know. Why? Can you use your tail as an appendage?"

Ember's face blushed even harder. "Well, no... but I've thought about some thick tails kind of just like, I don't know." There was a slight pause and he spoke softly. "Someone just picking me up with their tail seems kind of... hot."

Ella grinned. "Well, I can try to do some practicing on my tail work." She let out a soft chuckle. "Come on, I want to try on my clothes and see what fits me."

The two went to Ella's room and Ember watched as she tried on her clothes. All of her panties were now too small for her waist, and clung on tightly. She couldn't wear her jeans anymore, and even her sweatpants felt a little snug around her waist. Her tail was definitely larger at the base, but it didn't seem to be any longer. Her breasts had gained a couple of cups, and now none of her bras fit her. But she didn't mind, she was excited for the new changes.

Ember goes to his art class, based on modeling. But he doesn't realize that the students are the models. One of the models goes up and gets nude and poses for the class. Ember tries to hold back his urges, but his cock continues to grow. He accidentally breaks his clothing that hides his dick. Tallulah notices, and thankfully because she is wearing a skirt, she pushes her panties to the side and sits on his cock when no one is looking. The teacher finds it kind of weird, but Tallulah says Ember is helping her. The teacher begrudgingly says fine. Tallulah tries to keep going in class for the drawing, but her movement is causing too much pleasure for Ember. He can't hold back, and he climaxes inside of Tallulah.
