

Bimbo Nurses - Chapter 8

Melissa has been drooling over Kindra's body, wishing she could be that sexy. Maybe the doctor can help.

Beatrice, who we met in the previous chapter, sits in Doctor Putishka's otherwise unoccupied waiting room. Though not in the best spirits, she very much appreciated Melissa's efforts to cheer her up. She wonders if Melissa could be right, and if the experiment she's volunteered for really could help her. From what she's heard, this Doctor is very different from the others she's seen. Suddenly she hears a moan, followed by a clink, coming from the other room.

Such a nice girl. That was so kind of her to say those things. I hope she is right.

Oh my! It certainly sounds like she is enjoying her exam.

QoQoohHhh!!!

Clink!

Yes.
The gas
form of this
compound is very
fast acting. It
takes only
seconds.

Wow!
That kicked
in very quickly.
This should
be fun.

MmmMmmMmm!!!

The effects of the pink gas hit Melissa immediately, causing her to drop the now empty vial. She begins running her hands over her body, already more aroused than she's ever been in her life, and becoming more and more so by the second. Though embarrassed about touching herself in front Kindra and the Doctor, having them watch her also serves to turn her on even more.

Now we shall see how effective it is in other ways. I am intrigued to see how this plays out.

That is important too, but just enjoy yourself to the fullest is what I say.

MpPpAaaaNn!!!

Doctor Putishka is quite pleased that Melissa's reaction to the fumes is off to a promising start. But now the important part is about to take place, and he wants to keep a close eye on the process. Kindra encourages Melissa to enjoy every moment of her bimbofication.

It's getting so hot in here, and this pressure...

Feeling warmth building in her chest, Melissa quickly unbuttons her top, revealing her bra. As she does so, her fingertips tingle slightly as her nails start to change, though she barely notices.

...it is so intense. I have to get this thing off.

Linger!

Melissa is hit with the first of many orgasms as her breasts explode outwards. They rapidly add cup size after cup size, as they swell right out of her bra. The poor garment is ripped to shreds. When the growth is finished, Melissa is amazed by the pair of tits she now has.

The changes do not relent, instead they travel down her body, and Melissa's waist narrows and tightens while her hips widen. Melissa's stolen enough glances at Kindra and her clients over the last few weeks that has a pretty good idea of what's going to happen next.

That... that is an interesting feeling. I bet I can guess what comes next.

Wider!

Cinch!

Thicker!

I...
I can't
quite see it. What
do you think
Kindra?

I
think it's
"cumming" along
nicely. Very
juicy!

Rounder!

Just as she predicted, Melissa's ass rapidly swells beneath her skirt. A little like her bra, the poor garment is pulled shorter trying to contain her new ass. Unable to see this particular change for herself, Melissa asks for Kindra's appraisal. As you'd expect, Kindra responds enthusiastically.

Bigger!

Bubble!

I'm glad you like what you see. Gawd! I tingle all over!

Soon, the pleasurable sensations spread across Melissa's skin, which takes on a noticeable tan. We also pan the camera out for a full-body shot, which gives us a really good view of the changes so far.

Curvier!

Sexier!

TANNED!

It feels like... Mmmm... so totally awesome, Kindra.

Melissa's head tingles as the final changes begin. Her hair grows longer and turns red, her eyes grow larger and more vivid in colour, her lashes grow longer, and her lips plump up, also turning red. Makeup is also applied to her face. While these changes occur, her speech gradually becomes more and more bimbo-ish as her mind is altered as well.

It's like so hard to put into like words and stuff just how good this feels.

Longer!

Plump!

DLING!

The results do seem acceptable initially, but a proper examination is in order I think.

I'm like gonna need to go like shopping. Things like don't fit and I'm all wet down there.
giggle

Damn! Shit Dad, this might be your best one yet.

As the effects of the gas finally subside, the newly bimbofied Melissa giggles and comments on how it's a good thing she'll need new clothes anyway, because her panties are completely soaked.

I mean it seems pretty clear to me that she is smoking hot now, Dad.

Hmm, we'll see. Nice elasticity. Very round and full. They definitely fill my hand.

Kindra very much approves of the new and improves Melissa. Doctor Putishka also takes a moment to admire his handiwork, before leaving the two girls to have fun, saying that he'd better bring Beatrice down to the lab before she comes in wondering what all the fuss was about. Kindra and Melissa make sure to thank him before he leaves.

I concur with you, Kindra. She is very hot now. I should go check on my other patient.

Thanks Dad! Talk to you soon.

Yeah! Thanks Doc!

Kindra and Melissa stand face to face. Kindra has one hand down Melissa's panties, with the other arm wrapped around her waist. The two of them lean in close for a steamy kiss.

So just how wet are you down here? Oh! I see. Looks like you're all ready.

More than ready. I need to thank you for your help. Come here you sexy thang.

Melissa just doesn't seem to fit you any more. How about Misty? Also, I need a closer look at you. Strip for me!

Misty! I love it, and I love the idea of getting naked too. Mmmm.

Kindra tells Melissa that she'll need a new name befitting of a bimbo. She decides to call her Misty, which the newly created bimbo is very pleased with. Kindra then asks Misty to strip naked so she can get a good look at her. Needless to say this is a suggestion Misty immediately and emphatically agrees to.

Damn!
You really
did turn out
great. Let's take a
closer look. Not because
I need to, but just
because I
want to.

Kindra circles around Misty,
examining and fondling her new
bimbo body as she does so. She
circles her several times, running her
hand all over her. She caresses each
ripe breast, fondles her juicy ass, and
runs her fingers through her hair.

Look
all you want,
but don't look for
too long. Or
don't **just**
look.

Kindra takes off her clothes as well, and joins Misy in her nakedness. Misty complements her body, telling her how much she's wanted her since the day they first met.

Good point. Let's take a page out of Dad's book, and enjoy some flesh on flesh action.

Fuck! You're just as hot as I dreamed you were. I've wanted this for so long. I can't wait.

Following Kindra's instructions, Misty kneels between her legs and puts her tongue to work. Misty is more than eager to do as she is asked. In fact, she's been hoping for this day for a very long time. Kindra encourages Misty's impatient efforts.

Why would you wait? Get on your knees and lick me. Ohhh! Yeah, just like that.

I can't wait even one second more...

MmmmpPppHhh!!

You taste like totally fantastic by the way.

Thanks! I think we should find out how you compare.

The two of them lie on the floor, Kindra pleasuring Misty with her fingers. Misty has Kindra nicely warmed up now, after a furious licking session. Misty is no longer the only one who is wet.

Oh, I'll fuck you all right. You sexy little slut.

Oh gawd! Right there! That feels **sooo** good! Fuck me!

Kindra and Misty shift positions on the floor. Now they have their legs interlocked and are grinding hard against one another. They practically shout at one another as they pound into each other until they both climax with powerful orgasms.

Kindra and Misty fall asleep on Doctor Putishka's examination bed, Misty cuddled up to Kindra, whose arms are wrapped around her. In her sleep, Misty grinds against Kindra's leg while dreaming about all the things bimbos tend to dream about.

Though muffled, the rather alarming words, "field integrity lost" can be heard from downstairs. This doesn't wake either of them, however. After such an eventful day, the girls are well and truly asleep.

**FIELD
INTEGRITY
LOST!**

Meanwhile, downstairs...

**FIELD
INTEGRITY
LOST!**

**FIELD
INTEGRITY
LOST!**

The story will
continue in the
next part.
