

“The Pill” Classic Endings

Belle’s Ending: Bouncy Bounce

Heading to the bedroom, you notice Belle lagging behind slightly. Turning to face her you notice while her torso fit through the bedroom door easily, her posterior did not.

Looking at you sheepishly Belle said “I think I’ve Winnie the Pooh’ed it”. You couldn’t disagree.

Some lubricant and gentle shoving later you both find yourselves in the bedroom and free. “Being stuck like that, with my giant ass too big to fit through...” Belle said, even more sheepishly than before “...was actually kind of hot”.

Surprised but endeared, you grab her ass, only to find your hand not up to the task. Smiling, Belle notes “looks like you’re going to need some bigger hands”. You promise you’ll check the pill bottle for them next time, only half joking.

You move to embrace her, toppling her on to the bed. The sex that follows is exciting and unlike any you’ve had before, with Belle or otherwise.

After both climaxing you roll off her (a slightly harder job than before). “Well...” you note “that’s something I could definitely get used to”. Belle turns to face you. “You damn well better, buddy” she says, dead serious.

“That was everything I dreamed of and more... and I’m not done yet!” she says, as she rolls onto your erect member, her added weight almost toppling her off the other side.

Gyrating back and forth like a pendulum she starts up on you again, her larger thighs holding you tight. “Definitely could get used to it...” you think to yourself, a wry smile on your lips.

It was going to be a long, and incredible night.
