

"Notice for the Safety and Betterment of Honest City Folk"

Worrying reports have reached us of strange happenings within the humbler quarters of our fair city.

Strange noises and **tracks of a somewhat beastial nature** have been in evidence throughout these districts.

Perhaps more concerning still a number of **street urchins** and **vagrants** have disappeared without trace. Most recently a young pin seller by the name of **Flora Rugly** has vanished, a girl of just six summers. She was last seen in the vicinity of **the old well** on **Trout Street**.

Until this threat is past we advise our fellow citizens to avoid travelling alone, particularly at night.

A **reward** is offered to any that have information that leads to the resolution of this matter.

Signed,

The Council of Three.
