Did you have a good day at work?

I started the hucow experiment on Subject 26, and the the hubull experiment on Subject 27. I'm confident in about the enhanced hubull experiment, but I have some doubts about the hucow experiment.

You don't have to make everything a contest. You and Dr Williams have been friends since University. You two agree on most things and this is is area of expertise.

I know. I'll look at the data with an open mind.

Good, now enough work talk. I've been so horny I can't stop masturbating and my breasts are aching to be milked.

A scene from a virtual reality environment. A woman with long, wavy grey hair, wearing a purple corset and high-heeled boots, stands on the left. She is holding a purple vibrator and using it on the back of another woman. The second woman, also with grey hair, is wearing a black leather harness and is kneeling on a black chair. She has a look of intense pleasure or pain. The room is dimly lit with a floor lamp, a skull on a table, and a framed picture of a white owl on the wall.
