

Well
this ought
to be fun! Watch
closely now. I'm
about to
grow!

Mmmm!
I love the
feeling of my
breasts growing
bigger and my
top becoming
tighter.

Swell!!

Grow!

The sun beating down on my skin as it stretches feels really nice too.

Bulge!

Ripen!

Maybe that is what is causing my growth? Maybe I'm absorbing the sun to develop?

Expand!!

Englarge!!

If that is the case, then how big do you think I'll get if I stay out here all day?

Balloons!

Bigger!
