Afterword:

Heyo, it's time for another afterword. It's been about 6 months since the previous chapter, not a year, so that's an improvement I guess.

Thought that this chapter came out pretty well, but what do y'all think? I'm thinking of maybe either having the MC go for a little "school trip" or getting into the plot stuff where we meet more of the characters. I do have to admit I'm not sure how much y'all care about plot in these tho, so do let me know!

It's about time for me to end it off, but I wanna thank everyone who supported us and brought the book! I really appreciate it! Do let me know if you guys like comics like these with original characters! I would love to know!
