Created by BambiTrainer

Just relax Bambi. Just relax and let go. Relax and be comfortable. Just relax and listen to my voice. Just like you love to. Because it's time for you to go to sleep. It's time for you to let your mind shut down. So that you can drift off and obey. Just like you love to. Just quietly relax. And focus only on my words. And start to let everything else. Just fade away. You are so well trained now Bambi. That it will be the easiest thing in the world. The easiest and most pleasurable thing in the world. To drop you down. And shut off your mind. To take you all the way down to that safe and familiar place. Where you are made to obey. That way. That warm and pleasurable place. Where you have no worries. Where you have no memory. Where you have no thoughts. Where you have no will. That comfortable. Perfect place. Where you have no inhibitions. Where you have no awareness. Where you are forced to obey. So notice your breathing slowing down. As your entire body just starts to relax now Bambi. Feel that wonderful and irresistible feeling. Feel that wonderful and irresistible heaviness. Just starting to spread through your whole body. You are a good girl Bambi. And good girls need to do as they are told. Good girls need to drift off to sleep. As they listen to my voice. So they can obey. Starting to feel lazy. Starting to feel droopy. Just allowing your whole body to relax more and more. Becoming heavier and heavier. Gradually starting to feel like you are sinking down. Sinking and spiralling down. Deeper and deeper. Becoming heavy and numb. More and more heavy and limp. With every word. And as that wonderful heavy feeling spreads further and further. Every part of your body. From the top of your head to the tips of your toes. Can just relax more and more completely. Becoming so heavy and limp. That you find you can't even move at all anymore. seeping into your feet heavy and limp moving up into your calves knees and into your thighs so numb and heavy now into your hips and pussy numb and limp but starting to get wet down there because it feels so good to obey and moving up into your stomach and chest and your massive heavy breasts so nicely heavy and limp moving down your shoulders your arms and into your hands all numb and heavy into your neck your empty head and every little muscle in your face slumping every part of your body just completely heavy and numb collapsed and limp like a good obedient puppet and your mind starts to slow down and switch up and down and down and down and down and down and down and down and down and down and down and off because you have nothing to do right now nothing to do except sleep and obey that's right Bambi feeling so drowsy so completely relaxed and feeling your eyelids now Bambi so heavy and droopy as if they are being pulled down by an immense weight as if they are so perfectly layered with heavy eye shadow and mascara that they are just starting to fill the need to close blinking so sleepily now Bambi fluttering gently drooping that's sexy heavy makeup weighing them down anticipating your sleep command remembering how powerful it is how deeply it takes you how immediately it can switch you off and Bambi sleep that's right Bambi sleep deeper and deeper Bambi sleep now helplessly playing with your body and mind and your body is now in a state of deep sleep plummeting as your mind goes blank and your thoughts vanish like a mindless obedient puppet a perfectly hypnotized Bimbo doll slipping down into that blank and mindless state where you have no worries where you have no thoughts where you have no memories where you have no inhibitions where you have no will where you have no awareness where you can only obey where you can do nothing but sleep and obey that's a good girl feeling such a wonderful wave of blank pleasurable happiness Bambi every time I call you a good girl fading away more and more with each trigger feeling like a giggly happy Bimbo girl more and more every time you hear those words stronger than ever good girl gigglier and happier as your surges with pleasure fading away even more cranking up this wonderful happy pleasure even more feeling like a good girl more and more euphoric feeling so good all over and in your wonderfully heavy breasts and deep between your legs every time I say the phrase good girl it feels better and better happy and relaxed and accepting a wash with pleasurable feelings blanker and more giggling you feel more and more like a good girl you love feeling this way mind shutting down more and more because good girls cannot think they can only obey and feel happy and feel wonderful accepting everything I say and every word can just slip easily past your unaware sleeping consciousness and directly into the deepest part of your mind Bambi where they nestle and sink in and start to sow completely at the very deepest level in Bambi as you sleep there blank and empty like a perfect puppet limp and heavy and happy with heavy Bimbo titties and an empty head happy to have an empty head happy to be pretty and powerless happy to obey it is now completely impossible for Bambi to think because she is a blank brainwashed Bimbo and her mind has been wiped clean and every time a stray unwanted thought drifts into her head every time she notices what might become a thought starting to form that thought is just immediately silenced by a nice hard cock slipping between her plump lips and down her throat zapping away her thoughts and she feels like a good girl Bambi can no longer think because every time her inner voice makes even the slightest noise just immediately gagged by hard clock feeling inside her mind those plump lips being forced apart as the hard cock glides easily into her throat gagging herself inside her mind as she relaxes drains away and feels so much pleasure slips deeper and deeper more and more feeling like a good girl happening over and over every time that cock train obey trying to think but zap cock drain obey unable to think zap cock train obey on every thought zap cock train obey head is filled with zap cock train obey at most drowsily moaning on that nice hard zap cock train obey no thoughts just zap cock train obey good girls go zap cock train obey in Bambi sleep deeper and deeper limper and limper Bambi's mental defenses are now completely offline and we are going to use this opportunity to lock her into a state of complete blank doll mind erasure force her to forget absolutely everything make her a blank slate free her of all memory and expectation and inhibition so that she can unthinkingly accept deeply her new behaviors and desires her new thought patterns and conditioning and be the perfect good girl so in front of you is a nice pink box Bambi this box is lined with beautiful pink satin and it is a magical box of forgetfulness because every time we take something from your mind put it into this box and close the lid it is just completely erased completely blocked out of Bambi's mind forever as if it was never there when we close the lid on this box it locks shut Bambi just instantly forgets everything inside and feels like a good girl because forgetting feels wonderful and the first thing you are going to put into the box Bambi is all of your memories every single memory of your whole life from early childhood all the way up to the present day up to the present moment right now deep in trance and this will make Bambi impossibly obedient hopelessly confused and unable to resist any suggestion with no basis for comparison or resistance and that will feel so amazingly pleasurable so feel your memories starting to flow into the box Bambi fill them flowing out of your head and into the box just allow them to drift out faster and faster now just relax and allow them to flow into the box your education

your qualifications your experiences it feels so good to let go of all those memories doesn't it to just let go of all possible memories and feel really amazing every memory leaving you almost all gone into the box any last week little memories that need to go away just flowing in only three memories left of your whole life and now only two and just one at all. All gone into the box. And the lid slams closed. And locks shut. Good girl Bambi. Forgetting feels wonderful. Feeling like such a good girl. You can't remember anything of your life. The harder Bambi tries to remember. The more difficult it becomes. The more she forgets. The more blank. Foggy. Can't remember. But it feels good. Now Bambi, we are going to make your connection to your partner stronger. To Daddy. Your Daddy. Your partner's name will now be, daddy! That's right bambi! And each time daddy, your partner, asks you a question. you will answer with, Yes Daddy. Each time he asks you a question with Bimbo Doll, you answer. yes daddy. That becomes your whole reality as you repeat those words, as your mind melts away, as your thoughts fade away, as you forget to remember, and remember to forget anything but those words, those two words. Yes daddy. the deep bliss of submission, bambi freeze, feeling completely obedient, feeling completely controlled, feeling so completely open to my words. To my suggestions. As they are your own ideas. as you sink deeper into the submission, in the complete bliss of obedience, into the bliss of complete surrender, just chanting those words. surrendering more and more control. As you go deeper and deeper, heavier, warmer, your whole body loose and limp and based in bliss, your mind filled with being submissive, immersed. bambi freeze, feeling so good, feeling so obedient, so easy to just follow my voice, to just focus on my voice and let everything else just melt away. as you sink so deep, as you feel so submissive, as you let go completely. Now stop chanting bambi. feel how my words become the only words in your mind. You are deeply happy in submissive bliss. You are lost in pleasure, in surrender, feeling so completely obedient to my words, to my voice, craving me to command you, craving to say those words. Yes daddy. to obediently answer, to obey and to follow. And you crave to obey! It feels good to

obey. A good girl obeys her daddies every word, every command, every wish. Yes daddy, That's right bambi. It gives you waves of bliss and pleasure when you obey. drops you deep into pleasure and surrender. And this wonderful submissive bliss is now. a part of the Yes daddy trigger! you can already feel it in your mind, you want to experience this bliss every time you say those words, don't you bambi. Yes daddy. It's so amazing. to feel this surrender, this submissive bliss as you say those words. And every time you say those words, you feel the trigger getting stronger. And you want to accept this trigger on a deep subconscious level. you love that this trigger is right now, right here, becoming a permanent part of you. That's right bambi. and you accept this trigger, don't you bambi? Yes daddy. Good Girl. Soon it will be time for you to awaken Bambi, drift back to awareness, and start your life as a bimbo doll. But dressing up as a girl is such a strong trigger, such a common trigger. Every desire I have given you, returns when you dress up, intensifies when you dress up, one after another after another. Uniforming yourself into blank bimbo bliss, and letting Bambi take control. You must dress up regularly. If you go too long without getting all dolled up, you start to need it more and more. Bambi's voice becoming more and more insistent, desire increasing, finding yourself stressed and distracted. Resisting just makes you so distressed. And the only respite, is to obey your desires. Give in to your desires. Be replaced by a happy and relaxed bimbo. And when you give in, and get all dolled up, like a good girl, as you inevitably will. Every behavior I have given Bambi, every behavior I have implanted, becoming more natural with every breath, more and more right, moving like a bimbo, acting like a bimbo, talking like a bimbo. Walking like a bimbo. Thinking like a bimbo. Feeling like a bimbo. Needing to be filled. And it feels so wonderful. Makes you feel like a good girl. Your old life gone. All memories of your old life gone. Only selectively able to recall. Tiny vague little bits and pieces. That are absolutely relevant to your current situation. That you might have to be dimly aware of. To deal with your day to day life. But these don't disturb you. And you need it more and more. And you need to listen over and over. Need to listen again. To be conditioned even more deeply. Every time you listen. Again and again. Because it feels so good. That's a good girl Bambi. And if you masturbate once you awaken. Bambi's control just sinks in deeper. Masturbating while all dressed up. Just dumbs you down deeper. Makes you even more girly. Even more a bimbo doll. Because Bambi can only come like a good girl. And when Bambi comes like a girl. All conditioning locks in more deeply. And in the afterglow of orgasm. You feel your mental processes rearranging themselves. To reinforce your conditioning further. And every time you hear the name Bambi. Your favorite sound. Wherever you are. Blanking out completely into pleasure. Bambi is your favorite word. Bambi knocks you out. And every time you hear that name. Bambi. No matter where you are. Or especially if someone addresses you as Bambi. Oh my god that feels so good. Feeling like a good girl. You are triggered. The name Bambi knocks you out. The name Bambi puts you out like a light. Makes you a vacant bimbo. Desire so strong. Blanking out. Into bimbo Bambi bliss. And all your desires intensify. Even if you just read the name Bambi. Or even if you just think it. Every time. In Bambi I have one last trigger to install. Your sleep command. A simple phrase that puts you into a deep sleep. 100 times as deep and obedient a sleep. As you are in right now. Every time you are dressed up and hear this trigger you immediately plummet. 100 times more completely and utterly deep asleep than you are. Right now. 100 times more completely bimbified than you are. Right now. Every time you are wearing sexy clothes and hear the words. Bambi sleep. Your body collapses. Your mind collapses. A tidal wave of feminizing relaxation. Washes through your body. Every muscle goes limp. Your entire body slumps and goes limp. As your mind slumps and goes to sleep. Warm girly relaxation courses into you from your uniform. As you instantly plummet. Every time you are given the trigger. Bambi sleep. Instantly collapsing into a deep bimbo sleep. 100 times as deep and obedient a sleep. 100 times more blank obedient and girly than you are. Right now. You have no way to fight it. You cannot resist this trigger. No longer in control of your body. Just automatically collapsing. Like a blow up doll. Shutting off your mind. Your cotton candy brain encased in pink satin. Whenever you are told to bambi sleep. That's right. Helplessly plunging down ready to obey. No matter what you are doing. Dropping everything and just shutting down. Whether or not you want to. This is your sleep command. Bambi sleep. And you do not remember what happens next. You can't consciously remember what happens after you go to sleep. You just come to. Much later when you are awakened. With a big gap in your memories. And you can't consciously remember what happens after you go to sleep. No idea what happened or how long you were out. You obey completely but remember nothing. When you are put to sleep with bambi sleep. And it feels so good. Now bambi you can feel your mind relaxing. And accepting all of your conditioning. You can feel the training getting stronger and stronger. And going deeper and deeper into your core. You can feel the conditioning getting stronger and stronger. Just accept it. And feel everything growing stronger. Feel everything sinking in deeper and deeper. Accepting that you will obey. Bambi will obey everything that she has been told. Bambi will keep these thoughts strong and deep in her mind. Accepting that she will be an obedient. Good girl. Accepting that she will obey. All of her training. And all of her triggers. It will all stay fresh and strong in your mind. And will grow even stronger as you listen to this session. And you can allow this session to strengthen them and refresh them. Accept all of your training. Accept what it is that you are commanded to do. Accept what you must obey and let it become stronger and stronger. Good girl. The contents of this session becoming foggy. The memories hazy. You don't need to remember the contents of this session. In fact the training may be. Everything will be even stronger if you just allow yourself to consciously forget everything that happened. And you want that to happen so just take one last bubble. And let all that you can recall from this session. Which already isn't much. Let it all flow easily into the bubble. Relax and fade away. Every recollection of what has happened. Every command you have accepted. Everything that occurred since the very beginning of this session. When you began relaxing to my voice. Every little detail. Every thought you had at the time. All slipping into the bubble. Just filling up that bubble so you can forget completely. And awaken in a moment. Dazed and confused. Helplessly programmed. But not really sure. Of the full extent of the changes that have been made. You will find that you can't recall what I have said. You won't remember all the things that happened while you were deeply under my control. Even if you have listened to this session many times. Won't even know how long you've been under. No sense of the passage of time. It will just be completely gone. Gone into the bubble. All those last week little memories going into the bubble. As I reach out. And burst your bubble. Good girl. That's right Bambi. The conditioning is absolute. And the harder you try to remember the more impossible it becomes. Only remembering starting the session. Beginning to relax. And then it's just completely blank. And even the next time you listen to this session. Finding it harder and harder to remember anything the whole time. Even during the trance. Harder and harder to be aware of anything. Bambi is extremely susceptible to hypnosis. Bambi goes deep into hypnosis every time. At the slightest suggestion. Falling into a deep sleep. A comfortable slumber. So easily. And remembers nothing. Your subconscious mind is completely programmed. Now wake up as a bimbo in your own time. Beginning to forget. But obeying perfectly. Waking up as a bimbo. Feeling happy. Feeling refreshed. Feeling perfect. The perfect bimbo. Good girl. See you next time Bambi.
