

Walk-through to A Struggle With Sin 0.1.4

General information: I know that it's tempting to use Save-Edits on the game. Be aware that **changing game variables, switches or items might break the game** as many of them are connected. This will also lead to the skipping of scenes and dialogue. I try to keep grind at a minimum as I hate this stuff as much as most of you do. So when ever you have to repeat an action I try to add in new dialogue or images. If you stumble into money problems look at the [Tips and tricks](#) section at the end of the walk-through.

Green = New content

9. 7 days after you completed L7. (If using old saves this might differ) Talk to him again and he will offer you a new potion which will stop your lust building for 5-8 days and also prevent you from causing corruption when cumming in a girls mouth

7. Frisha (Mira's older sister)

1. Watch her talk to Dave on a Saturday

3. Two bandits will attack, if you manage to kill both (attacking early) the quest won't start and you will only be tasked to find the camp
4. If Emily got captured you now have 7 days to either pay the ransom at the old oak or rescue her.
 1. Rescue her:
 - Walk into the Darkwood and follow the foot-prints into the deep forest. Inspect the prints near the river, afterwards inspect the tree

- Back to Arenfield and talk to Tia
- On the other side go inside the shed and interrogate the bandit
- Now you have to search the forest for 3 runes, the locations are random so look around the other maps (entrance, hunting ground, bridge, hidden path, deep forest)
- Under the bed in the shed you can find a chest with gold

- There is a shortcut to the Old oak on this map

- after your Keystone is charged go back into the deep forest and inspect the foot-prints at the NW edge of the map
 - At the bandit camp you can now try to sneak towards the cave to rescue Emily, if the guards detect you the camp will be alarmed which will make it much harder to reach the cave (wait until the next day to set it back to normal). During the night (20h-6h) it is much easier because the guards aren't patrolling as much as during the day.
 - At the cave you have to kill the bandit (hard without a better armor or weapon, see John and Lucius) and get the keys from his body. Afterwards escape the camp without being detected
 - Should you lose the battle you will lose your keystone, in the forest near the entrance of the camp will spawn a new bandit where you can get a new stone
2. Pay ransom: To get more gold you can talk to Mira every day she will give you 20 silver. Place the gold under the old oak before the time is up
 5. After you paid the ransom/rescued Emily you can now sleep at her place without bringing her food. Bringing her rabbit meat will still increase her A towards you. (7 days after the rescue: if you sleep at the storage room the bandits will attack again)
 6. At 11+A visit her room in the evening when she is dressing for bed.
 7. Continue sleeping in her bed until she starts playing with you while you sleep.

8. Run into her before she enters her bedroom in the evening (try to peek on Mira)
9. Continue sleeping with her. At some point she will ask you what this is you two are doing. Choose if you want a relationship or just fun (will effect dialogue and future events)
10. After 9. if you already kissed Mira and Emily caught you she will ask you what this is you are doing with her daughter. If you tell Emily that you would leave her if things between Mira and you work out she will end the relationship (If you started it), but you can still have fun with her.
11. If you don't have sex with her for 1 day and just sleep in her bed she will wake you again in the middle of the night.

Corruption:

1. Each time you cum in her mouth raises it, more and more altering her behavior
2. At 10C and if you didn't fuck her for 3 days she will fuck you in the kitchen after you brought her food (small scene)
3. If you didn't fuck her for 5 days and sleep in the storage till late evening she will come to fuck you (small scene)

NTR:

1. Fail her rescue quest
2. Fail to often and Emily has sex with the bandit (small scene)

10. Corven (At the desk of the Inn. Monday evening)

1. Buy him a drink
2. hunt a rabbit to get a hare paw
3. bring the paw to him, this will increase your hunting skill to 3 which will increase your hunting yield

11. John (Smith)

1. Talk to him and he will sharpen your dagger for 20 silver

12. Imawyn (Bandit leader)

1. Complete Emily's quest up to 5.
2. 7 days after the kidnapping sleep in the storeroom at Emily's house again and don't prevent the Emily getting kidnapped.
3. Talk to Lyvia (at the bridge in Arenfield in the afternoon). You will get a bandit disguise
4. Talk to Thomas (Inn) and buy a bottle of wine, talk to Lucius (shop) and buy (normal) Anesthetic (to get this see 6. Lucius)
5. Use the wine to mix it with the Anesthetic (inventory)
6. Visit the camp. If Emily is still captured rescue her first. At the Rock in the south you can put on the bandit disguise during the evening (If the camp is alarmed or during the day the disguise won't work)
7. Talk to each bandit and give them something from your sleeping wine. After all are asleep enter Imawyn's tent
8. (At this point you should have full Life/Energy, new armor from Lucius and sharpened dagger from John, learned defensive strike from Lyvia) Confront her. To win use defensive strike every 3 turns starting with the 1. It will still be a tough fight. Should you lose she will take your keystone and instantly capture Emily again. (To get a new stone kill the bandit in the forest)
9. After you defeat her choose what to do with her. You can now start to corrupt her or turn her in to the militia (last will be continued in the future)
10. If you choose to have fun with her you have to compete with her again same way you did before. At some point she gives up fighting you and surrenders to your judgment.

Corruption:

1. Every time you cum in her mouth will raise it. Do this after you had sex with her to speed up the process. At 10C enter her tent.. From now onward you won't need to put the bandits to sleep anymore.
2. At 10C if you lose to the guard guarding Emily you will get a small bonus scene

13. Female Orc:

1. Lose to the orcs during the hunt at the hunting ground
2. Defeat the female Orc when they attack you during the hunt

14. Additional:

- You can always visit Gwen and submit to her.
- Some girls can be uncovered while sleeping

Tips and tricks:

Hunting: The hunting system is a placeholder for now until I come up with a better solution. To actually hit with the bow you need to first Take aim and then fire. If however you are detected (to avoid this sneak up from the side or behind) and an enemy strikes you you will lose the focus buff.
So when fighting orcs switch to your dagger. (skills)

Money problems:

- After you completed Lucius quest line you can buy empty vials from him and sell potions to him for 20 silver each.
- You can steal wood from the inn and sell it to Lucius
- Killing orcs/bandits will often reward you with coin pouches which you can open in you inventory (20+ silver)
- After Corven's quest you can sell the fur you get from a rabbit, wulf, deer

That's it, more to come in future versions.
