“Alright, load er up, nice and easy!” The burly man cautioned a much lither male worker from atop the inside of the 18 wheeler. “The environmentalists will kill us if we spill any of that goo that needs disposin’!”

“Yeah, yeah, I know 'It can get into the water supply' don't gotta tell me again! Yeesh!” Responded the lithe worker as he attempted to roll a 60 gallon drum up the ramp. “Man, sure glad we decided to go into the chemical disposal business rather than movin' retail product, y'know?”

“Ayep! Good pay, too! Sure, we might not get safety equipment, but who cares when they hired us with no degrees!” The burly man chuckled as the large canister neared the top. “Alright, now let me just-” Yet, as he attempted to grasp the item, he felt his footing give at the last moment, instead, lipping forward and knocking the item with his chest! “AY! LOOK OUT!”

The lithe man decided quickly to jump off the ramp; watching in horror as the drum rolled onto its side, and off the ramp at blinding speed! Quickly, the thin man attempted to chase after the canister as it rolled off the dirt path, and off the hillside which they were parked. Futilely leering over the foliage as best he could, the thin man lost sight of the item as soon as it moved behind the brush. “Ah hell...wh-what do we do?!”

The burly man would make his way down; rubbing his stubble. “Hrm...simple: we hope everything is fine, and pretend like we don't know a thing! Now hurry up and load the rest. I'll be careful this time, I promise.”

“You better; the last thing we need is more of that damn stuff getting loose. Let's just hope the disposal in town doesn't notice one little drum missing.”

As the drum bounced and rolled around bushes, trees, dented against trunks, and rocks, it finally came to a stop via a riverbed. Quickly, the canister found itself sinking into the ground, where-due to its damages-it would find a deep green liquid leaking into the body of running water.

“Just gotta get this spot!” With everyone out and about, Kuruso Kimihito-a man who had accepted a volunteer roll for the the Cultural Exchanges Between Species Bill, which allowed him to live officially with a Lamia, and unofficially with more monster girls-found himself mopping the pristine wooden floor. “Whew, that should do it!” Wiping the sweat from his forehead, the dark-haired man let out a satisfied sigh as he glanced at the shimmering surface.

“Great, now all I have to do is empty out this bucket, and I should be done. Good thing I filled this thing up before the city informed us to not use anymore water.” Grabbing the handle, Kimihito made

his way to the upstairs bathroom; a rather large area, due to the size of those who needed to use it. "Kinda stinks though, I'd love to take a shower. Oh well, an hour of waiting won't kill me." However, what the man was not ready for was the surprise lurking within the bathtub...

Opening the door to the huge room, Kimihito offhandedly tossed the water inside, not exactly paying attention towards what was within. Suddenly, a feminine voice would ring out; one of innocence and surprise. "Hm? Ahhh!"

Taking a moment to realize what had just happened, the dark-haired man recalled something. He had remembered seeing everyone leave...everyone-that is-except for Suu, the slime girl. She was a bit of a free spirit for sure-someone who wandered and enjoyed playing with a certain aura of freedom, but also appeared to have moments of actual deep thoughts and deliberation. Kuruso never really tried to pry with her as to why she was the way she was, so he just accepted it.

What he didn't think of was that she would be putting herself in a damp place to relax! "Oh my gosh, Suu, I'm so sorry!" The man pleaded as he leaned over, attempting to push away the dirty water that the woman had absorbed.

"Uhhghh..." Suu whimpered, looking down at the black sludge that was inside her interior. Her body was lithe, near stick thin, as well as *normally* made up of translucent bright blue water. As well, she was complimented by green tendrils atop her head, along with matching emerald eyes. Though, now it seemed her body was shifting into a more dark-purple shade from the dirty water.

"Oh no, no, no! This is bad, really bad!" What was he to do?! Suu's body literally absorbed any sort of liquid that came into contact with it, so it was not like he could simply pull it out! "Umm, uhh! Crap, the other girls will be home soon, too! This is a nightmare!"

The slime-girl looked down at her body; her face forming a frown at the foreign feeling of disgusting sludge within her. "N-Noo!" The slime-girl cried out, attempting to hug Kimihito. He had no choice but to let it happen; feeling the coarseness of dirty bucket water braze against his skin. Hearing Suu so worried just made things worse. He had to stop it.

"I-It's okay, Suu! Look, let's just keep a secret, okay? I'm not supposed to turn on the water for another hour, but we gotta get you cleaned up, okay? You can't get sick, so surely whatever is in the water will be fine for you, right?" The slime girl nodded approvingly, forming a gentle smile.

"Mhm!"

"Okay, great, but please don't tell the others!" With that, the dark-haired man would turn on the faucet, watching the bathtub begin to fill. The water itself looked relatively clear, only reinforcing Kimihito's theory that it was some sort of virus, or bacteria-either way, the slime-girl should be fine!

"Mmm!" Suu put her tendrils to good use; quickly dipping them into the pooling water surrounding her. Quickly, large swells of water were pulled into her form, which, reassuringly, caused her body to shift away from that sickening purple, and back towards her normal blue.

The sight was certainly a relief for Kimihito, as he took a moment to breathe easy. "Oh, great, it looks like everything is going back to norm-huh?" Gazing at Suu, Kimihito's eyebrows raised as he began to notice some...questionable changes.

Blushing whilst she drank more and more of the delicious liquid, Suu would shiver in delight. “Mmm~” Biting her quivering lip, the slime-girl's body was beginning to flush with energy. Foreign sensations began to take over her body, as she enjoyed more and more liquid ecstasy!

It started with her breasts; the once flat chested woman was now arching her back as mounds began to appear, spilling forward in violent spurts, and already forming into round, extremely vibration sensitive C-Jello-Cups! “Mhngah!~”

The foreign sensation of her height increasing pleased Suu, as she thrust her pelvis forward. The once five-two woman was now lengthening ever higher and higher at a startling rate! Five-three, five-six, five-ten! Yet, that was not even the most surprising change! No; as Suu's body grew, so too did her mental capabilities; either that, or her true personality seemed to become much more forthcoming. This wouldn't be much of a problem if what she absorbed didn't also play a role in her personality shift! Looking towards Kirusu, Suu's smile shifted into a grin as she spoke in an energetic tone.

“Ahh, this feels wonderful, Master! Suu feels herself-hah! G-Getting bigger!” With another groan of strenuous pleasure, the blue-woman's body continued to enhance itself! The expanding slime-girl's stomach was shifting at a quick pace; quivering as growths began to appear from what was a smooth belly! Slabs...slabs of powerful looking blocks of goo that shifted and expanded into two lined up rows. A six pack...how was she getting muscle when she was made from slime? “Hooahhh!~ Suu feels so *strong*! Suu wants to look it, too!”

With another conscious decision, the now six-foot Suu's arms joined in on her vibrating expansion. The woman's narrow arms were now growing more and more cut; with bulky slime being added onto her mass at a speedy pace! Biceps-ones which appeared just as toned and shredded as her abdominals were now appearing on her limbs! Not only were they extremely tight, but appeared to be getting larger with each gulp the woman took! "Mmm~! Bigger!~ Suu's arms want to be HUGE!"

With a powerful flex, the-originally-softball sized muscle began to swell and swell! The peak continued to rise along with the harmony of Suu's power-hungry moans as they grew past fifteen inches of pure solid goodness! It was almost as if these powerful new additions were non-newtonian! Still she expanded; her triceps now railways of expansive growth directly under her monstrous biceps!

"Suu! You're already larger than I am, you need to stop!" Reaching for the faucet, the man found his arm gently gripped by the woman in an almost threatening manner.

"Mmm~! Master, you have no idea how GOOD Suu feels! Suu can feel her mind expanding with-hrgh-each gulp! Suu knows to even use 'I' now, but Suu prefers the third person! Hehe!~"

With her 'hair' still continuing to absorb the water, the six-ten slime-amazon rose to her feet. Her thighs now engulfed in sixty-inch thick chunks of vascular fluid, complimented with soccer-ball sized calves! “Suu just keeps getting more and more powerful, Master! Suu wants to see how far she can take this!~” Yet another shift in her body, as Suu's form continued to improve, becoming even curvier, as her rear formed a pair of plump cheeks, each one near perfectly round!

The blushing man tried to push his arm forward, but found it hopeless as Suu leaned down; mere inches away from his face. “Aww, still trying, Master? How cute!~ Though, Suu likes being big! So, you'll need to be put in time out! Here!” With a lackadaisical lift of her large arm, the slime-woman planted Kimihito's near entire form into her chest; sinking him tightly into her, save for his head.

“Rgh! Can't...move!...” It was true, no matter how hard he struggled, it seemed that 'Master' was imprisoned inside the still expanding mass of goo.

“How cute to see you try, Master! Though, Suu is much stronger now! Having you struggle is adorable, and is almost enough to make Suu want to release you, but Suu wants you all to herself! Now then, Master, what say we add more water, shall we?” Nearly panting, the aroused Suu was quick to grip the handles of the faucet, before turning them onto the maximum amount possible! “I can hardly wait to drink this all up! Imagine how big I'll get, Master! How powerful Suu will be! These twenty inch-oops!” Another passive flex seemed to bump her powerful bicep even larger! “Forty-three inch biceps will look like nothing! Now then...~”

Yet another energetic series of chugs were being filtered into the expanding slime's form, this time nearly too fast for the tub to handle! Another growth spurt caused the already massive mounds of monstrous muscle to magnificently manifest more! "MNG~ YES, ALL SUU'S!~" Quickly, the heightening woman's body was rivaling eleven feet in height, with her bulbous, Amazonian form hitting the ceiling. "Getting a bit cramped, Master!~ Let's say we do some 'remodeling', hehe!~"

"Wh-what?! Do you know how much that'll cost?!" Retorted Kimihito, as he attempted struggled in vain against the gelatinous pull of Suu's monstrous bust. As expected, it was no use, as the man couldn't even wriggle his arm if he wanted to. Just how powerful had she become to be able to passively hold him down? It felt as if he was in sand!

"Sorry Master, but Suu needs some room to-hrgh-GROW!~" With a sudden shift, the speedbumps that were Suu's traps rivaled against the height of her own head, whilst her hands braced against the ceiling! The slime-woman's forearms would bulge, much to the cool'ing delight of Suu! "Ahh!~ Suu is still getting stronger, but she requires to be bigger, Master! Suu wants her muscles to dominate the city! For a simple movement to flood entire streets! Suu -hah!~ C-Can't wait to hear them beg!~ Now, to speed up the process! Surely there is piping for the floor above us, so, imagine-if you will, Master-Suu breaks through, and gallons of this wonderful liquid sprays into her! "

The thought went through the dark-haired man's mind, his eyes widening at the thought of her getting even larger. "S-Suu! We can talk about this! Isn't there a thing as *too* strong?"

Tilting her head for a moment, Suu would look down at the man innocently trapped between her J-Cup bust. "Hrm? Sure, of course there is."

Forming a wide smile, Kimihito let out a sigh of relief. "Great, then how about we-"

"Too strong is anything stronger than Suu. Thus, if something is too strong, then Suu must get stronger to overcome it. It's simple, Master! Suu will become the strongest thing on this planet so nothing can be *too strong* for her! Hehe, now to feel this silly little bit of wall her break under Suu's *powerful* forearms!~"

Feeling her back explode with tension as the blue girl pressed up against the ceiling above, several satisfied grunts would escape her pursed lips as she felt the entirety above her begin to separate from the rest of the room. Her determination was only heightened as she heard the audible sounds of pipes beginning to screech from above. "Ah, yes, now then, to be bigger THAN THIS BUILDING!~"

With one final push, Suu lifted the entirety of the ceiling! Her arms stretching from bent elbows to straight on above! The snapping of the water pipes was music to her ears, which was a gift that kept giving as when revealed, said pipes began spewing the wonderful substance onto her like a waterfall of steroids!

Suu's eyes glazed over for a few moments as her body absorbed the fluids at a rapid pace. The feeling was beyond euphoric, as she took in gallons upon gallons within her body! Rapid and sudden expanses formed as her muscles violently exploded! "W-Wh...WHOA!~ HAAAAAHHH YESSSS!~"

Suu's gargantuan thighs rapidly packed on more and more muscle fluid as they widened beyond the expanse of the tub beneath in mere seconds! "HAHHA-!~ F-FUUUCK, MASTER!~ SO...MUCH...POWER!!~" Her calves were already cannonballs of tightly wound muscle, which was

now engorging itself several more times its size! Soon, the ball of goey mass encapsulated the sink; breaking and being absorbed into herself in mere seconds as she grew! “SUU WANTS MOOOORE!~” Unconsciously flexing her arms, Suu's fingers would easily break through the chunk of house she lifted above her, as now her frame grew above what would be the second floor! Eighteen feet.... “UNG!~” Twenty-Five feet.... “AGH YES!~ BIGGER!~” Thirty feet! Suu was now finding herself having to hunch ever so slightly, as her back muscles dominated the second floor space, easily knocking away several walls. “AHHH, O-OOPS! HEHEH!~ M-MASTER, D-DON'T WORRY! WITH THIS MUCH POWER, SUU CAN DESTROY WH-WHATEVER SHE WANTS!~”

Suu's core was becoming quickly adorned with more muscle definition; with obliques and an extra set of abs quickly pushing outwards as her hyper muscular, five foot biceps conquered the same height as her own head, even without flexing! “N-NOW TO BREAK THIS LITTLE DOLL HOUSE! RAGGGHHHH!~”

Feeling herself cum, Suu let out a proud roar/moan as she arched her back against the roof of the home. The explosion sent debris flying in all directions, as half of the home fell victim to her now garage-sized rear, as well as her several room sized bust! “HAAAGHHHH!~”

Like a dolphin surfacing, Suu felt herself freed from the confines of the home; looking around at the neighborhood at her now seventy foot stature. People walking by were in awe at the height of the voracious mega muscular melted monster! “Hehehe!~ Don't be afraid, Suu will be the strongest, smartest thing on the planet soon! If anything, you should be elated! Bow down while you have the chance, or Suu will get a bit angry.”

The cuteness of tone did little to hide the dominating, sadistic command as the giant slime woman loomed over the entirety of the area. “Ahh, Master, it looks like these residential homes don't even come to Suu's chest!” Giving a delicate squeeze to her own large mounds, the hourglass shaped monster let out a stifled moan of satisfaction. “Mng!~ Even Suu is impressed that slime could be softer than before!”

Meanwhile, those who looked on in continued shock at the size of this dominating presence before them. “W-What? Giant Monster!” One man finally bellowed out. “Th-Those aren't supposed to be in the city limits!” Responded another, running away. “Someone call the Military!” Exclaimed a third, as she attempted to sprint away as well.

“Oh no! It seems that Suu's size might be too much for these little people to handle!” The feeling of superiority was seeping deeper and deeper into the muscular slime-amazon as her malefic grin widened into a maddening one. “Then Suu will have to show why she is superior! Surely she can put on a show in time. Anyway, join me, Master, Suu needs to get even bigger!~”

Kimihito's sweat dripped into the ever growing woman's breasts as he looked on from the five-story view below. “U-Uh, Suu, I'm almost afraid to ask, but...what are you planning on doing now?”

Letting out an adorable giggle, Suu looked down; giving her Master's head a gentle stroke with her finger. “Well, Suu will apparently need to stop a military, and Suu knows that it's this wonderful water that's making her big, sooo~” Using one of her tendrils, the curvaceous woman pointed downtown towards the water treatment plant. “It seems they haven't finished purifying the water, Master! Good news for Suu, since all that deliciousness is waiting to be absorbed! Soo, Suu will be so big and STRONG that she'll be able to boss anyone around!~”

“Suu, you can't!-Mrgh!” The dark-haired man would quickly find his mouth smothered in sweet slime.

“Shh, don't worry, Master! Soon, you won't have to worry about anything except for what Suu wants!~ Mmm, just the idea of getting Suu's muscles larger is enough to make her...hrragh!~” The violently powerful monster looked to her huge biceps; giving a tightening flex as she watched them slowly grow ever larger. The pleasure that rushed through her system was enough to make the slime woman cum once again. The power...the tension...it was all so beautiful to her! “Mmm~! But SUU NEEDS MORE! ~”

With that, the green-haired woman made her way towards the center of the city. Each terrifying step caused mass craters as her slime-like body carried enough force to break and crack concrete, steel, and more! The wake of destruction was a literal path of several small homes falling to her expansive thighs, or wide hips. “Heheh!~ Suu's ass is a tool of destruction!~ Look out belowwww!~” Giving another playful sway of her hips, Suu's massive rear would collide against an apartment complex; causing the entirety of the structure to collapse in on itself! “Heheheh! AhahahaAHAHAHA!~”

Suu's power high was only fed further while watching people flee from her terrifying rampage towards

her ultimate goal. As she approached, she looked at the structure; a large tower which had several drums and canisters surrounding it holding thousands of gallons of water. She could feel her expansive mind working with ease as she scanned the size of the actual structure. Two-hundred-fifty feet in height. Compared to that, she seemed extremely small, which caused the slime woman to puff her cheeks. “Nothing is going to be bigger than SUU!”

Quickly, the woman's tendrils would shoot out into the surrounding drums, with violent gulps being taken in. There was a tension that rang throughout Suu's body as her fists clenched. It was like before when she had burst the pipes, but now it was set on overdrive!

“A...ah...AH....AHHHH....**AHHHHHHHHHHH!!!~**” As the first series of chugs were absorbed, Suu's body detonated into a series of large growth spurts. Suu's magnificent biceps inflated dramatically; the sound of sloshing tension resonated throughout the area as the growing muscles found themselves rising and rising to the height of her old home! Roughly thirty feet in height!

“**SOOO MUCH POWER FOR SUUUUU!~**” Yet another burst as the expanding Slime's body continued to lengthen up in bursts of twenty feet! “**HAHHH YESS, MAKE SUU THE STRONGEST!~ MORE, MORE, MORE!~**” As she greedily drank; moaning in pure pleasure, Suu's thighs would continue on their rampage of taking up space. Quickly, her quads would quake and quagmire another quill of liquid, causing her body to take in even more of that delicious power!

As the slime woman began to grow, her expanding breasts would sway and swing towards the tower itself; quickly colliding against it. Glass shards, shrapnel, and people were small casualties to Suu's overwhelming sense of sadistic gluttony as she grew. “**NOTHING WILL STOP SUU! SOON, SHE'LL BE BIGGER THAN THIS TOWER!~ UNFGH!~ HAHAHAHA!~ IT'S SO FUN!~ THOUGH, IT SEEMS SOME PEOPLE WISH TO CHALLENGE THEIR NEW SLIME-GODDESS!~ HOW FOOLISH!~**”

Turning towards the skyline, Suu could see a mass of armaments. Helicopters, tanks, and ground troops could be seen approaching from the outskirts. It would seem as if the rest of the city was quickly being cleared of civilians, which was just fine for her. She needed worshipers, after all, but she could have some fun with these men and women.

But first, she had to get bigger...

Suu's tendrils were already taking in swaths of water, as were her thighs, but she needed more! Luckily, there appeared to be one more drum for her to enjoy! Her thighs would undulate due to her quivering legs, as Suu thought about becoming even stronger in mere seconds! Wasting little time, she removed the top with her hands; her fingers easily bending against the reinforced metal, and peeling it away. “**IT'S LIKE A LITTLE CAN! HOW CUTE!~ NOW THEN, LITTLE CAN, MAKE SUU SUPER BIG!~**” With that, the woman dunked her head into the tank.

“Ma'am, it seems the city has been cleared.” The corporal exclaimed to his commanding officer.

“Good, then we will start by sending our first battalion in as a-” Suddenly, a tremor would catch the entire unit off guard. “W-What the hell was that?!” The Commander asked; looking over to her recon team.

“W-We're getting strange fluctuations of activity here, Ma'am! Here, take a look!” Responded the recon commander; attempting to hand over his information pad, only to be stopped by the hand of his commander.

“No need, I can see for myself...” The woman responded in astonishment as she looked to the center of the city. What she saw was a large blue mass of liquid, which was only getting larger and larger by the second.

Bulbous muscles on muscles were collapsing nearby structures into dusty piles; kicking up debris, and sending chunks into the residential areas. “AHH, YES! AHHHH!~ MOOORE!~” A cacophony of

moans echoed throughout the entirety of the area, almost as if several voices were one.

Tendrils of green expanded over the highest of buildings, and swayed for miles; each one causing torrential winds! Finally, a head could be seen above it all, with eyes of shimmering green, looking directly down onto them.

The breasts caused a cast shadow over half of the city, with her legs sinking into the very foundations of the civilization itself! Her weight had shifted the actual ground so much so, that a slight slant could be felt for miles away. Suu's height was around two-thousand feet, with each powerful muscle on her being more dense, and large than an entire neighborhood!

A wicked grin complimented her face as she licked her lips, looking down on the entirety of the army before her. Forget ants, they looked like specs of dirt to her! **“MMM~! WHAT A DELICIOUS SNACK FOR SUU TO HAVE!~ NOW SUU TRULY IS THE BIGGEST, AND STRONGEST THING!~ THOUGH, PERHAPS SOME PROOF IS IN ORDER!~ SO, YOU HAVE BEEN LUCKY ENOUGH TO BE CONSIDERED AN EXAMPLE OF SUU'S IMMENSE STRENGTH!~”**

The commander's eye would twitch in a mix of fear and anger, as she held out her arm. “ARMORED BATTALION 1, FIRE! AIR BATALLIONS 1, 2, AND 3, FIRE!”

And on her command, the volley of missiles and other ballistics were sent out soaring throughout the sky. The target wasn't hard to hit, and as they made contact, the sky would light up with a fiery blaze!

“Got that smug bit-”

“HEHEHE!~ THAT TICKLED!~ IT'S SO CUTE WHEN DIRT TRIES TO CLUMP ITSELF UP TO SEEM BIGGER!~ SPEAKING OF BIGGER!~”

Suu's mighty forearm would flex as she formed a fist. The large balls of muscle would expand larger...and larger...AND LARGER! Her own strength magnifying as the size of her arm grew to four-hundred feet in height!

“NOW THEN, ENJOY A TASTE OF SUU'S STRENGTH!~” With a single punch, there was a vacuum of air. A sudden shimmering would form around her, as the air released outwards in a violent line of fiery pressure. The straight shot of energy melted anything within range into glass immediately, as the helicopters fell into pure ash.

“AHHHH! FUCK, IT BURNS!” The tanks themselves became welded to the ground as the men and women inside were steamed alive; their blood boiling and popping from within, much to Suu's satisfaction. **“HEHE!~ YOU'RE LIKE LITTLE CHERRY FILLED SNACKS WITH THE WAY ALL THAT RED IS DRIPPING OUT!~”** It did not last for long, however, as the blood was stained to the steel of the vehicles.

The troops, meanwhile, were completely melted into an ashen slag that became one with the rest of the Earth that was unfortunate enough to face the wrath of Suu's lackadaisical punch. In a single move, a quarter of the city was gone, as was the entire battalion sent to defeat her.

“AWW, THAT WAS SO EASY!~ HEHEHE!~ SUU LOVES FEELING SO POWERFUL, MASTER!~ ISN'T THIS GREAT?! NOW WE CAN DO WHATEVER WE WANT!~ WELL, WE

CAN DO WHATEVER I WANT!~”

Looking down to him, Kimihito's eyes widened as Suu licked her lips once more, yet he was ensnared in her gooey embrace. The expanse of her breasts was a town within itself, and as such, the man felt completely lost in this near-literal sea of cleavage. **“NOW, SUU THINKS WE SHOULD START BY MAKING MORE OF THAT WATER!~ AFTER ALL, SUU COULD ALWAYS USE A BIT MORE BULK!~”**
