Manifest URL: Install

You can install any package by providing a direct link to its JSON manifest URL.

1. When you launch Foundry VTT choose the Add-on Modules tab

2. Hit the Install Module button at the bottom

3. Wait for this to load. Once it has loaded copy paste the url (listed above) into the Manifest URL box, and hit Install

4. Once it is installed, load up your game. Be sure to enable this mod. Once the mod is enabled the maps are available on the *compendium packs* tab

5. Right click on any map in the *compendium* to import it to your game
