

RICH IS A HOSER

Company: Jay Software Corp.

Suggested Retail: \$49.95

Type: Hi-Res adventure with crisply detailed colour graphics.

Description:

Your mission is to collect evidence that Rich is a hoser, which proves difficult in the treacherous Troc household. If you don't find all the evidence within the time constraint, Rich will enter your room and fart. Along the way you'll meet such strange creatures as a mysterious black cat, Uncle Chuckles, Lydia and you may even catch a glimpse of Troc, herself!

Playability:

Extremely well implemented. Kells has created a challenging game which is a lot of fun to play. Great for kids, but they may need help from Dad to unravel the tougher puzzles. In fact, getting all the evidence together before Rich farts proves quite difficult. Along the way, you will find clues to answer the five riddles which are a basic test of Buddhist and Yogi tenets, but answering the riddles is not necessary to winning the game, so ignore them.
