◆ Paints required:

Green armour

- Black green (vallejo mc)
- Deep green (Vallejo mc)
- Ice yellow (Vallejo mc)
- Abaddon black
- Warpstone glow
- Silver grey (Vallejo mc)

Before we start painting the miniature, we locate the light reflections on armour, from our desk lamp. I have primed the miniature in Chaos Black (& afterwards basecoatet it), as it has a great shine to it, wich makes it easier to locate the different light reflections. I have added a guide for how to locate light reflections in the post description.

We start by basecoating the armour with black green. We then glaze the frame of the light reflections by adding $\frac{1}{2}$ part of deep green – add 2-3 parts of water. I have added a video tutorial for how to glaze a similar armour in the post description.

We now glaze more towards the middle of the light reflections by adding 1 full part of deep green to the previous mix. (1:1 mix of black green & deep green)

We now take pure deep green & glaze the middle of the light reflections.

We now add $\frac{1}{3}$ part of ice yellow to the deep green & glaze the very middle of the light reflections. Optional: We furthermore add a secondary light reflection in between the previous painted light reflections by glazing with a 1:1 mix of black green & warpstone glow - i have pointed some of these areas out with a black arrow.

We now add 1 part more of ice yellow to the previous mix we used for the main light reflections, & glaze the very middle once again of the light reflections – we furthermore glaze in the middle of the secondary light reflections with pure warpstone glow.

We now shade all the areas still covered in the basecoat with a 1:1 mix of black green & abaddon black – add 2-3 parts of water. We furthermore shade around all nails with pure abaddon black.

We now edge highlight the armour with a 2:1 mix of deep green & ice yellow. Add 1-2 parts of water.

Optional: We now add some scratches by painting thin lines & dots with the previous mix.

We now just highlight all the nails with silver grey – done ! 😊

Paints used for the eyes are : Khorne red, evil suns scarlet, vermilion (Vallejo mc) & basic skin tone.
