## Office Party Commissioned Story

### Assistant Lab Rat II Bust Enhancer Tinkering

Previously on „Assistant Lab Rat“ we’ve been following James, Stacey’s clumsy Assistant who has managed to turn the table on Stacey at the last minute by accidentally mixing up the control Tiaras. Now he is in charge of her and her daughter Julie, two hot blondes. But being a man... another gadget Stacey was working on just does not let him sleep... the **Bust Enhancer!** He used it on both of the girls, giving Julie quite the globes and Stacey... well... let’s not talk about Stacey... The Bust Enhancer has some quirks... like randomly changing breast size... and only being useable once per target... Those need to be fixed! Join Stacey and her new assistant as they try to fix the Bust Enhancer by testing it out on a newly acquired Lab-Rat (N.I.C.O.L.E.).

## Featuring:

- ❖ **James** ... The guy who is controlling the girls via those Tiaras
- ❖ **Stacey** ... A crazy scientist who developed the Tiara's and the Bust Enhancer
- ❖ **Julie** ... Stacey's daughter, now helping her mother out in the lab
- ❖ **Nicole** – Previously a waitress, now captured and used as a test subject

## **Even more text-based Intro:**

Note that previously Doctor Alcone and her daughter Julie were doomed to a life as obedient drones to the Control Tiaras. But a drone has no creativity aside from what her Master thinks of. So, any attempt to work on the Bust Enhancer ended in utter failure. But James has come up with a solution for that. By imagining his drones working in harmony on the gadget, they retain enough of their original personality to work efficiently, while still being devoted to James and his goal of ruling the breasts of this world...

Down in the secret lab, Doctor Alcove is working in the Bust Enhancer, which looks just like a normal remote control. But due to her... enhanced assets she has some trouble working...

Argh! FUCK!  
Not the clock!  
Where did I put  
that remote  
again!?

I can barely see  
down there thanks  
to these fucking  
globes!

How's a girl  
supposed to  
work with tits  
like that?!

Julie....  
JULIE!

Hm...  
Now I just have  
to open that lid  
and... Okay no  
way I can do it.

Great!  
Well done,  
Julie.

Is the test  
subject ready?

Errr... Yes,  
Mother. She's  
standing in the  
corner for the  
last three days  
now.

This is Nicole.

I know her from my way to school.

She's a waitress at a coffee shop I often frequent.

Once Master converted me and mother said we needed a female test subject she was the first to pop into my head.

So, I hooked her up with a control tiara and brought her here... I guess she's missing ever since...

What's the test subject's label again?

Nicole.

Mom!  
That was  
her name!

N.I.C.O.L.E. ...  
hm... what does  
it stand for?

I see...  
boring!

Well anyway, the reset function seems to be working.

Yes, Mother.  
Her original size  
was something  
between a big C  
and a small D  
cup.

Almost there!

**Wow!**  
Those look  
tiny... compared  
to what they  
were moments  
ago!

**Indeed!**

**Yes!**  
Give me your  
best shot.

I need to be  
able to focus on  
the upcoming  
task!

Ha-ha!  
It's working!

*shrink*

I'm a  
genius!

*smaller*

This feels so strange.

*Reduce!*

Like a huge load is taken off my chest...

Well \*DUH\*!  
That is literally what is happening right now!

Less!

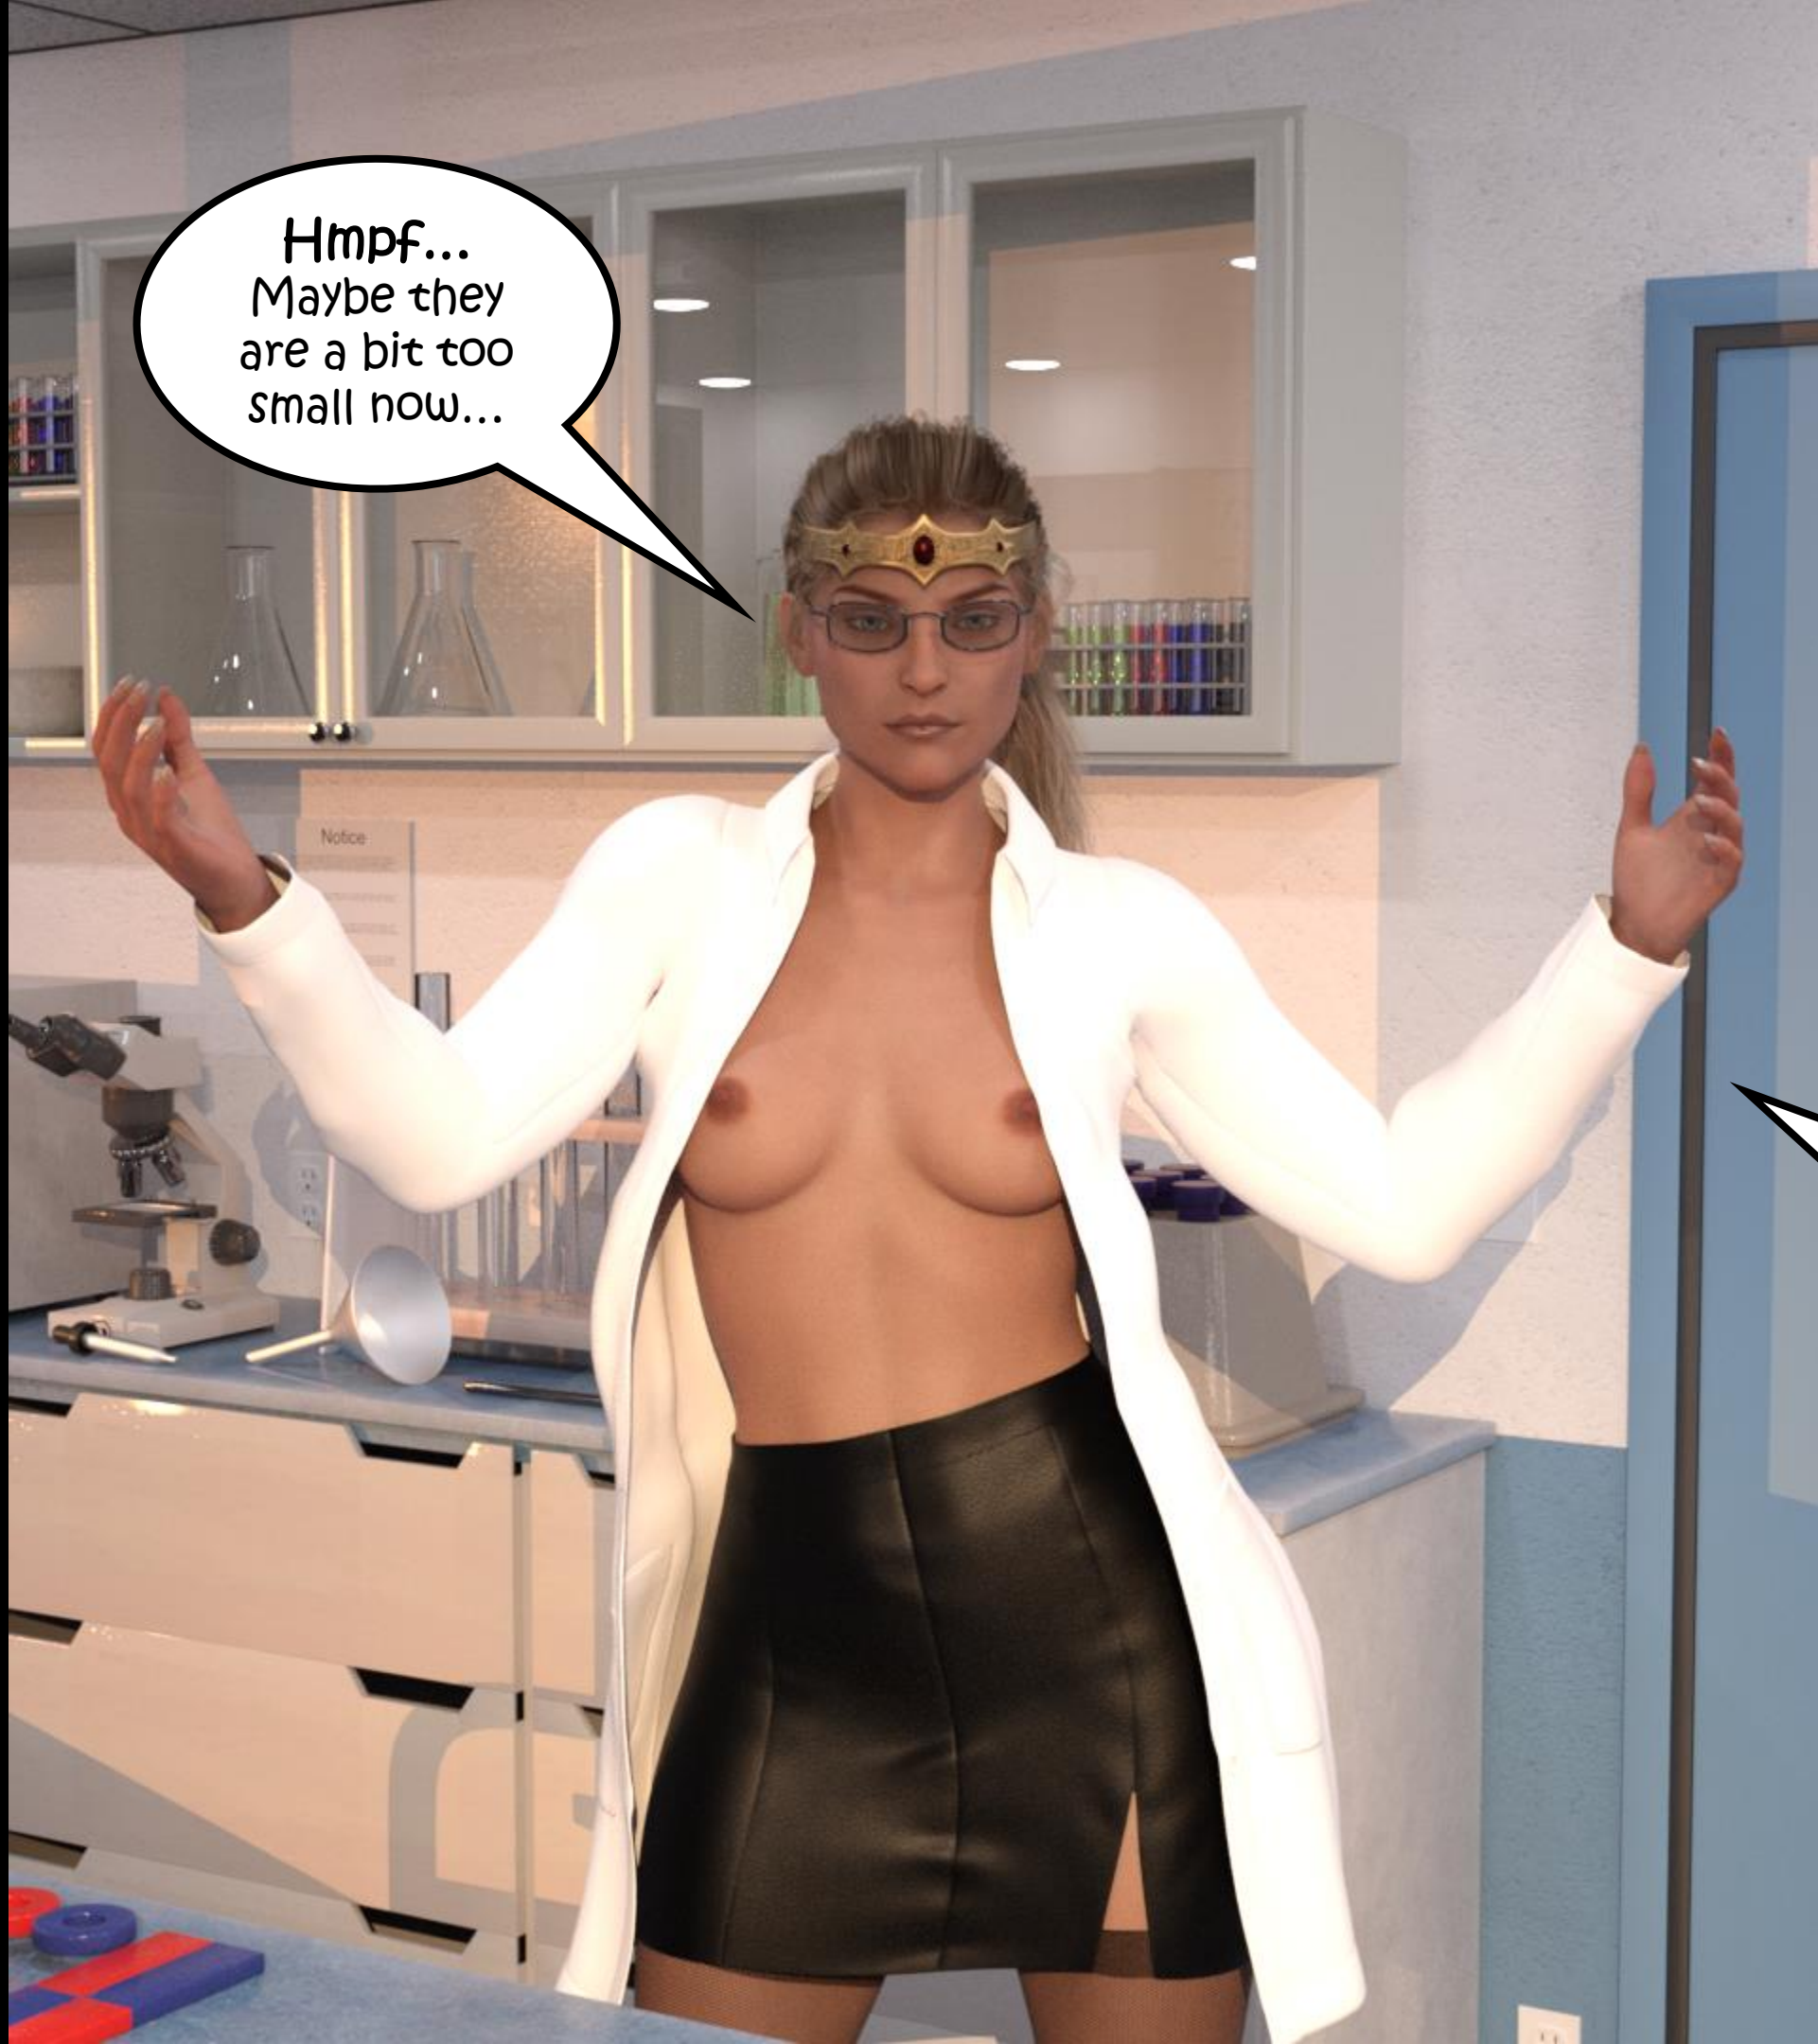

It may stop now ...

**SHRINK!**

Hmpf...  
Maybe they  
are a bit too  
small now...

It's your  
original size,  
mom...

**Shut it!**  
Don't be  
cheeky!

**Alright!**  
All back to  
normal.

Want me to  
reset you as  
well?

**Hell no!**  
Don't you dare  
take away my  
perfect spheres!

They look  
awesome  
on me!

Well, I guess  
Master would  
agree.

Yeah, you do that.

This will take some time.

Call me when you are done.

I'll let Master suck on my titties in the meantime.

...

Now that they have a rest function they can start reinventing the Bust Enhancer to add more control... And how does science work?

## **Trial and Error!!**

Once Stacey thinks she has the Bust Enhancer fixed she calls for Julie once more and they begin testing.

**Alright!**

Now with this setting, the test subject's udders should inflate to beautiful double G-Cups.

Bust Enhancer Experiment 03 commencing. Hit her, Julie.

Yes, mother. Pressing the button ...  
**Now!**

The test subject's  
breasts are  
growing, just as  
expected.

*Expand!*

Double G Cup  
reached.  
**SUCCESS!**

*Grow!*

**Mom!**  
I don't think it's  
working. She's still  
growing.

Damn it!

**HUGE!**

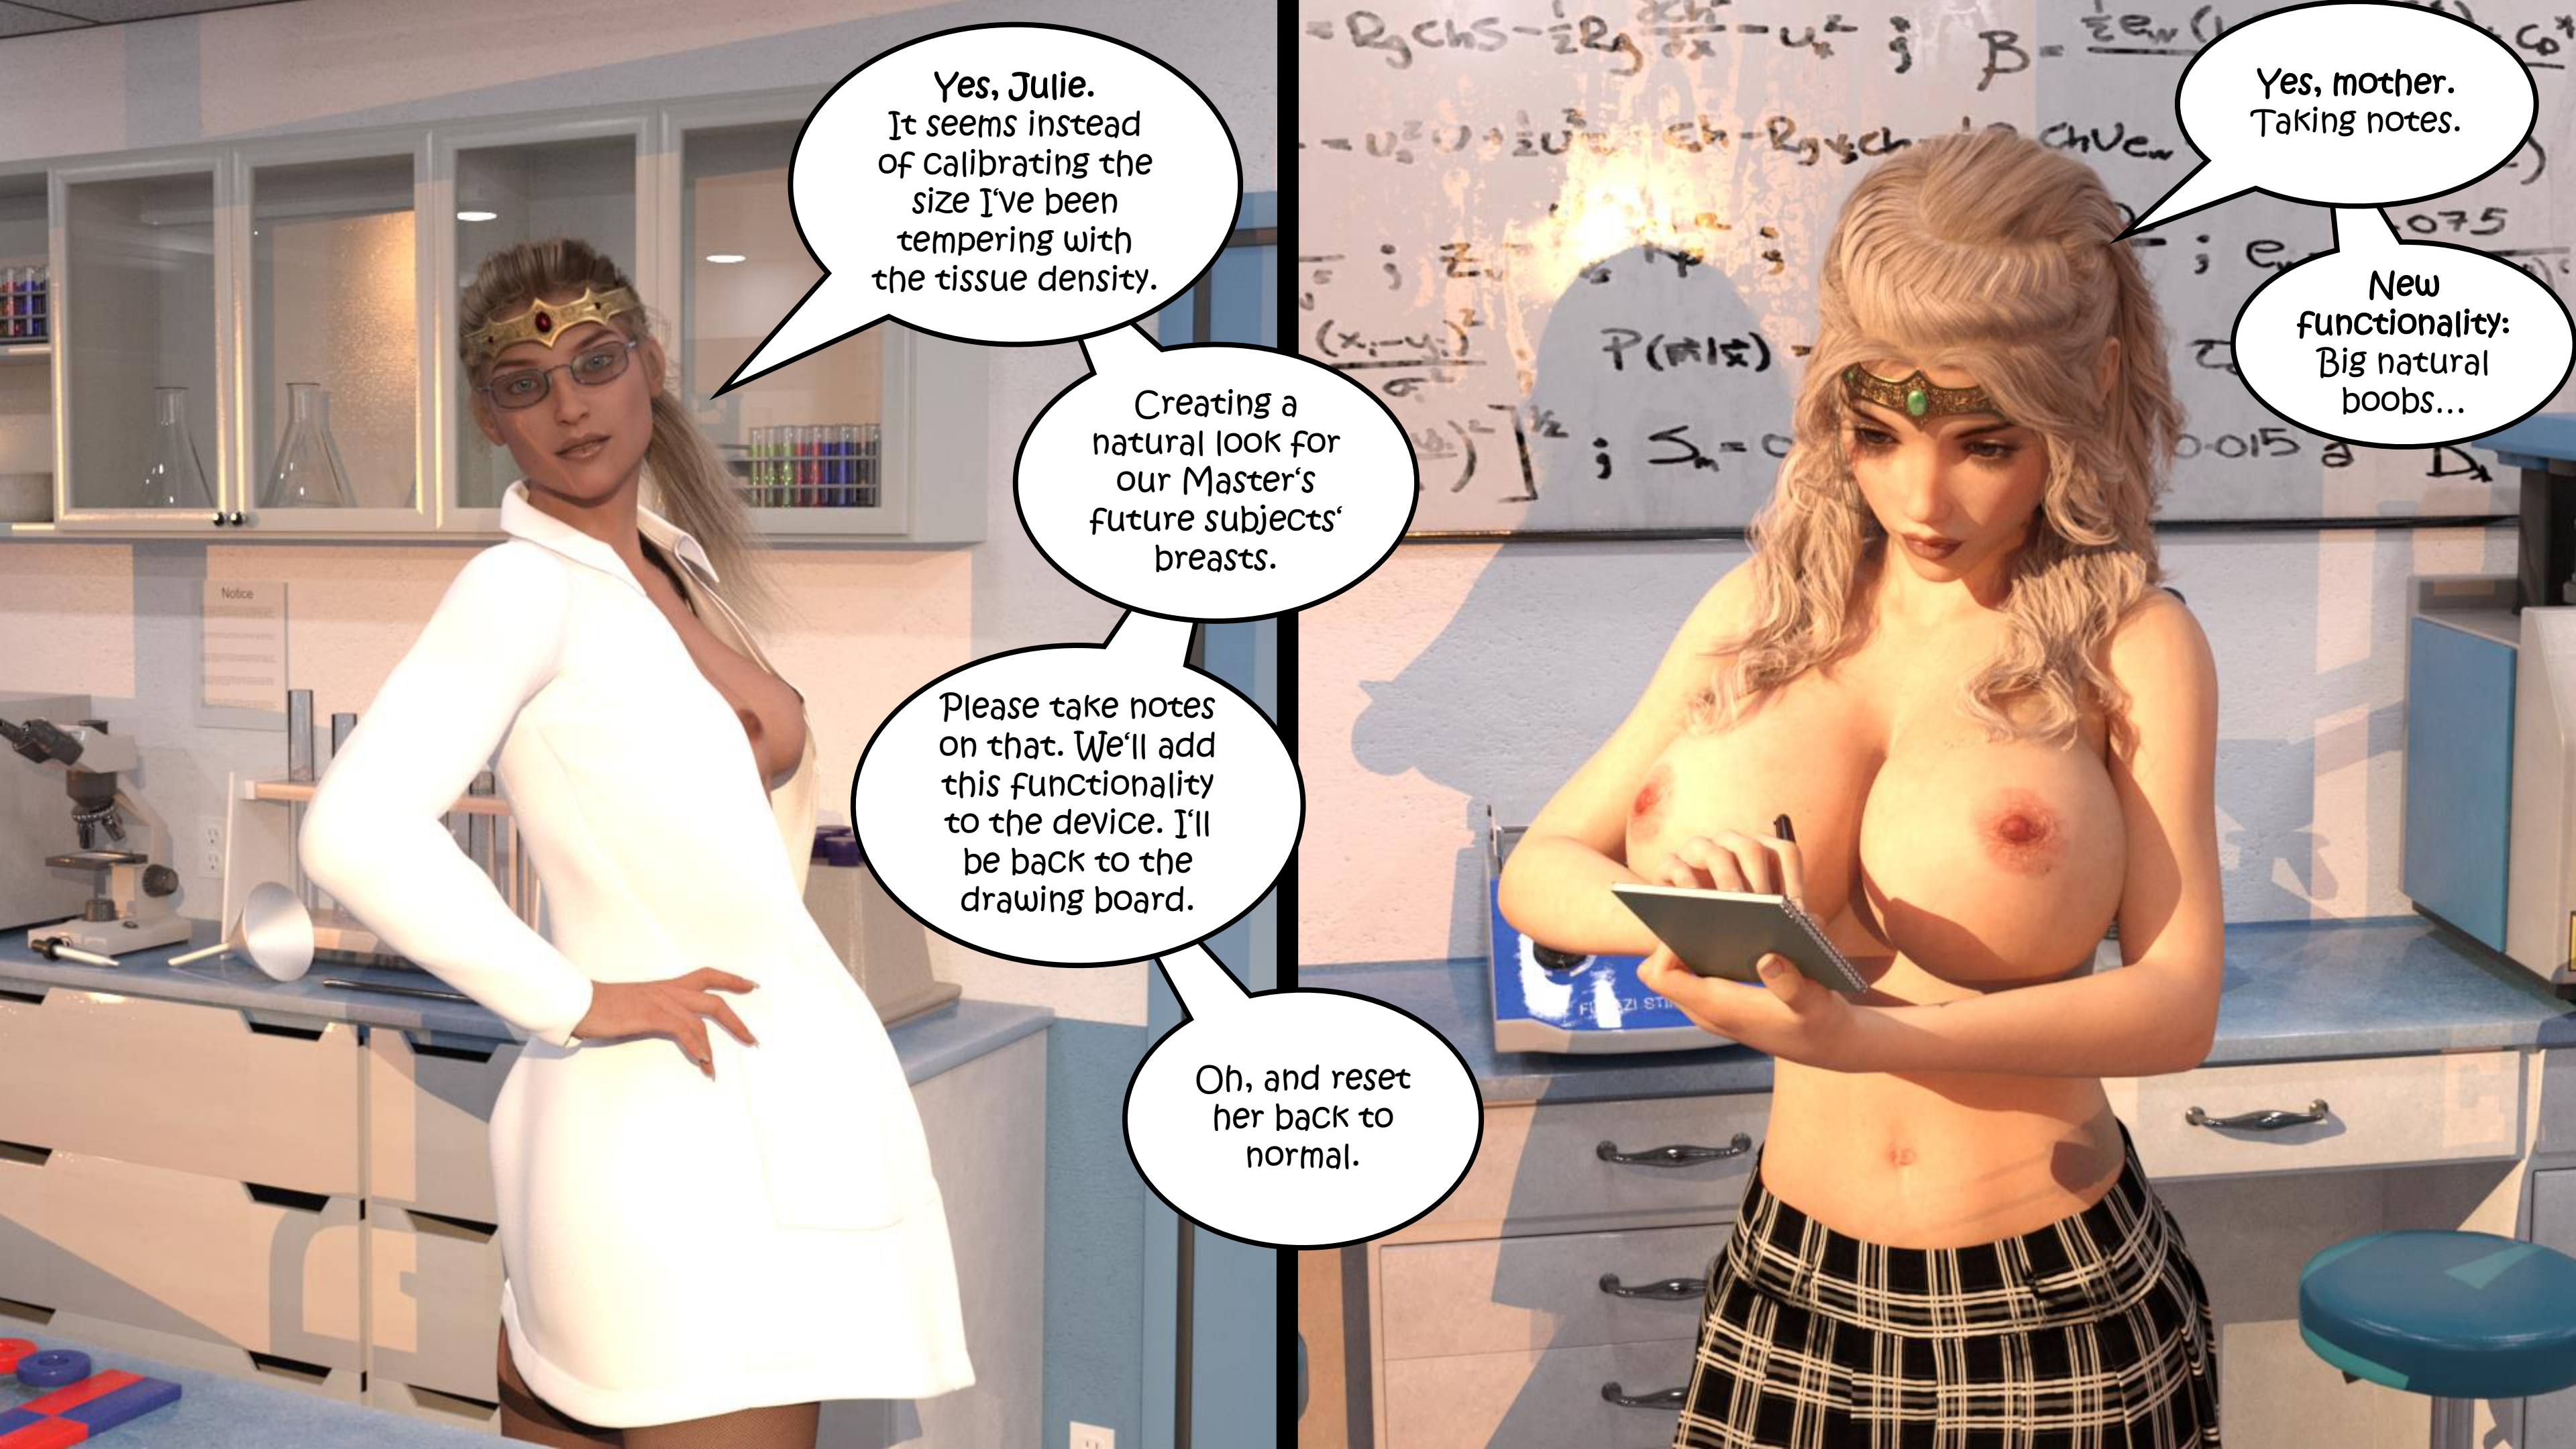

But they look differently!

**Holey moly!**  
I think those are as huge as yours were, mom!

**HUMONGOUS**  
*Natural Boobs!*

Yes, Julie.  
It seems instead  
of calibrating the  
size I've been  
tempering with  
the tissue density.

Creating a  
natural look for  
our Master's  
future subjects'  
breasts.

Please take notes  
on that. We'll add  
this functionality  
to the device. I'll  
be back to the  
drawing board.

Oh, and reset  
her back to  
normal.

Yes, mother.  
Taking notes.

New  
functionality:  
Big natural  
boobs...

Half an hour later Stacey has reconfigured the Bust Enhancer for the next test. It surely will have the desired results now... right?!

Bust Enhancer  
Experiment 04  
commencing. Hit  
her, Julie.

One pair of fake-  
ass-looking double  
G-Cups coming up  
right... now!  
**\*press\***

Breasts  
expanding as  
usual...

*Expand!*

**Ha-ha!**  
Double G-Cups!  
And it seems the  
test subject has  
stopped growing!

**FAKE  
Double G-CUP!**

**Mom!**  
Look closely!  
Her nipples! I think  
her nipples are still  
expanding!

*Bigger!*

Oh, my!  
You are right  
deary!

**BIGGER!**

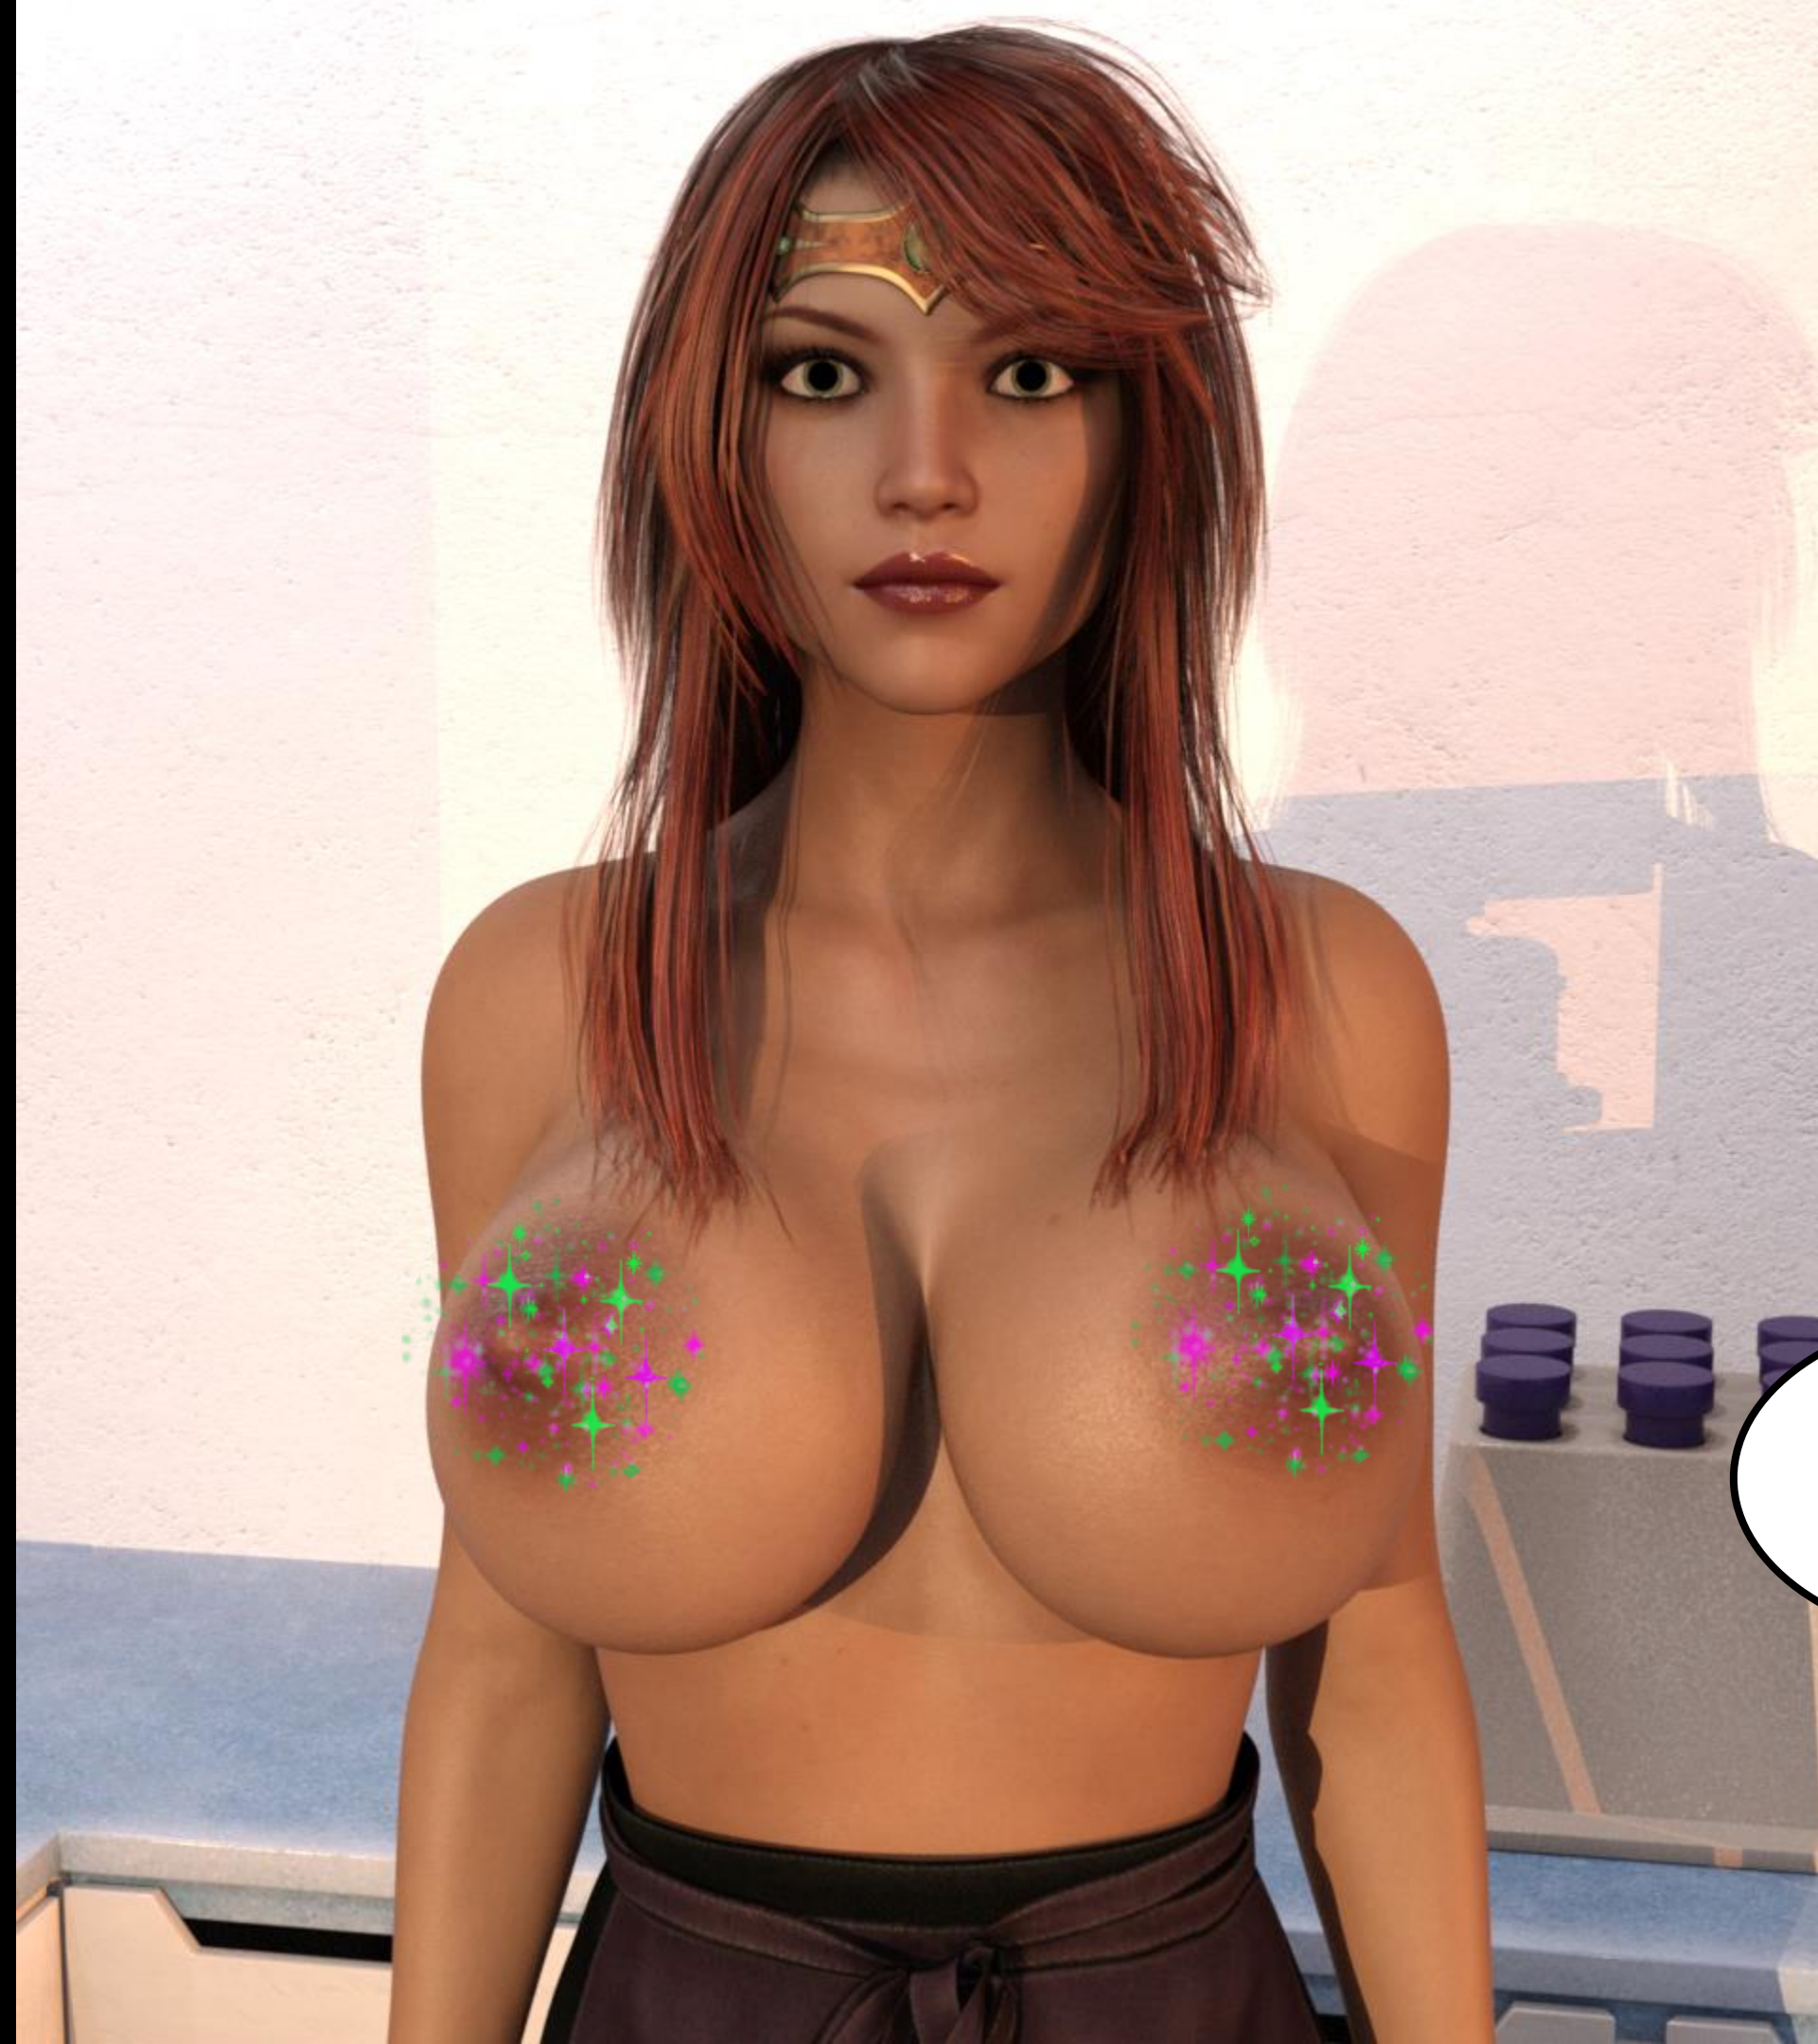

They look...  
alluring. I... want  
to pop one in my  
mouth and suck  
on it...

Get yourself  
together, Julie! Those  
are Master's desires  
you feel through the  
control device on  
your head.

*Huge Nipples!*

That's a good thing right? He'll like this new function then.

You are right about that, hon.

Oh, dear! The process is still not complete?

Now the areoles are expanding!

*Super wide Areoles!*

**Wow!**  
They are huge!

Well, breasts  
come in a lot  
of different  
shapes and  
sizes.

And we have  
found another  
one to add to our  
list of available  
options.

Take notes  
and reset  
her.

Yes,  
Mother.

Resetting  
Nicole  
now.

A true scientist does not know setbacks. A setback is just another step back to the right path!

Some more tempering with the device and Dr. Alcone is ready for the next test. It surely will work now as intended. What are the chances that it goes wrong **again**?!

Bust Enhancer  
Experiment 05  
commencing. Hit  
her, Julie.

Sure thing,  
mom. What are  
we doing  
tonight?

The same thing  
we do every night,  
Julie! We try  
reaching the fake  
double G-Cup!

That's the exact opposite of fake!

Expand!

I don't think this is working out, mom...

*Bigger!*

**Darn!**  
I think I did a mistake with the sign when I tried to increment the tissue density...

Making it saggier rather than going for the silicon-like touch...

**BIGGER!**

Yeah... and you kinda did not fix the target-size problem either...

**Enlarge!**

Oh, C'mon!  
How is that not  
working right  
now!?

**GROW!**

**HUMONGOUS**  
**Saggy Boobs**

They are  
super huge!

And they  
almost go  
down to her  
pussy!

Low-

fruits!

**Yes, yes.**  
Stop fooling  
around, you  
know the  
drill.

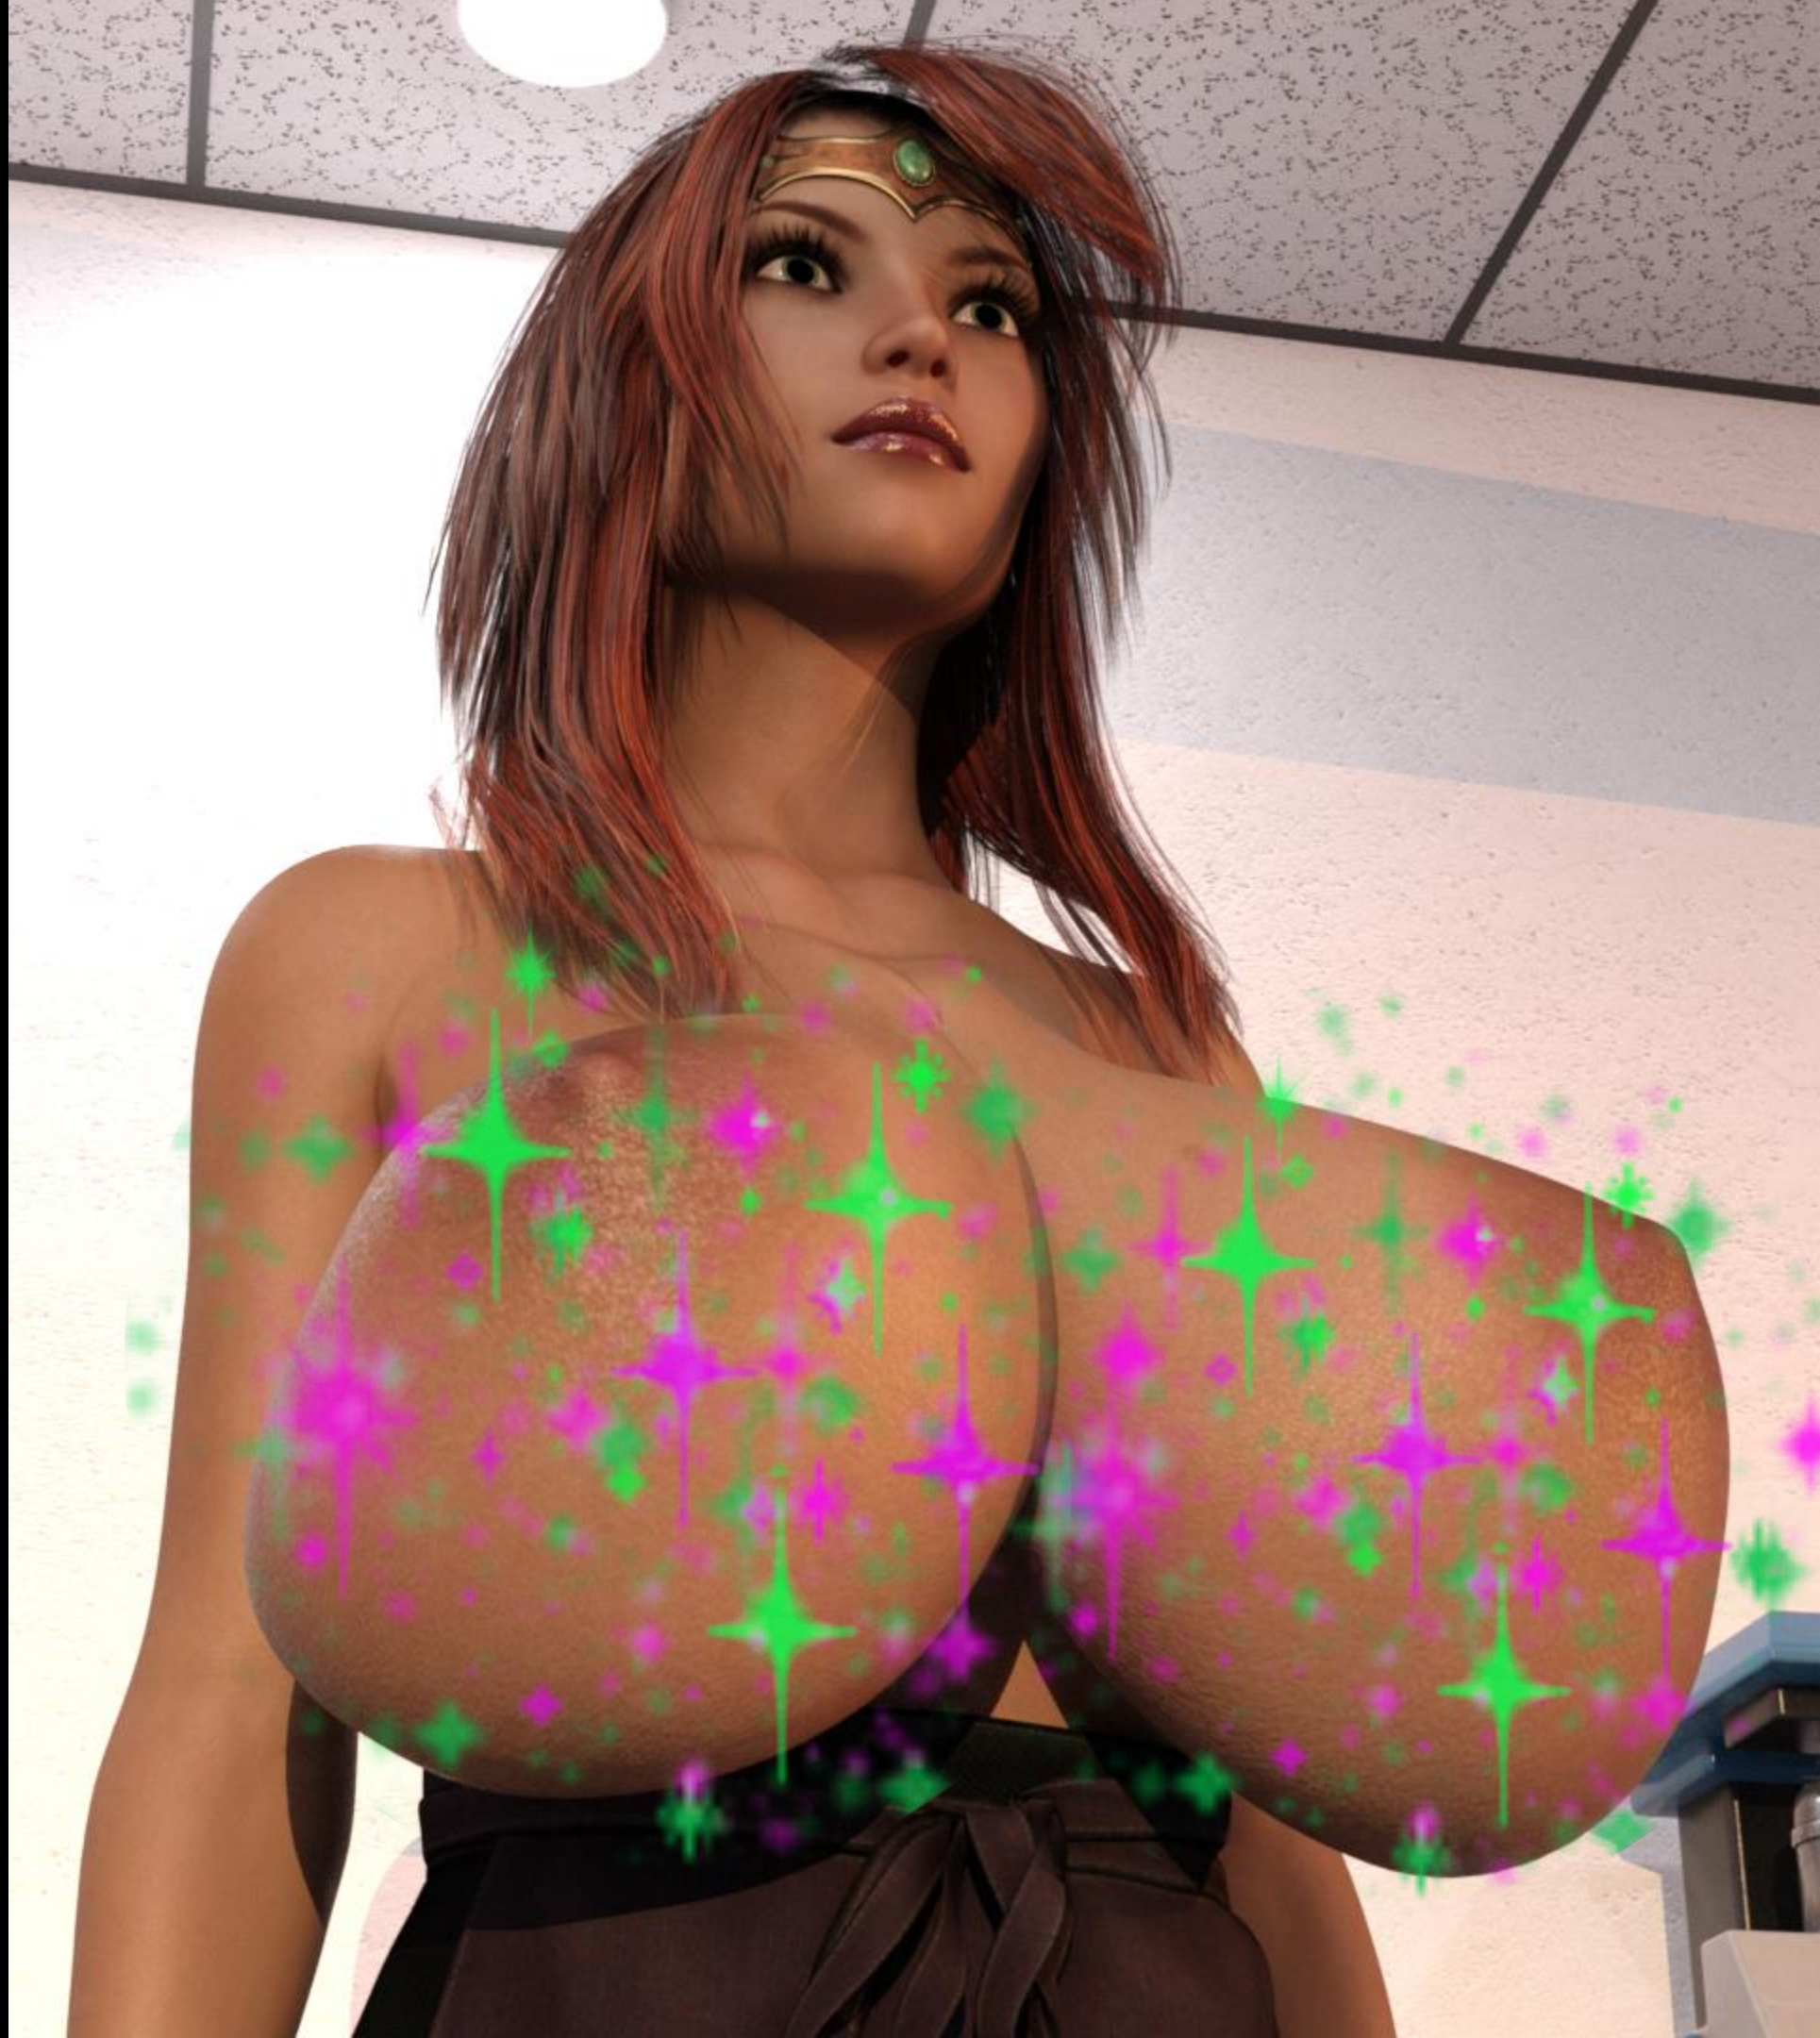

One reset,  
coming up!

Press

I'm gonna  
watch this  
reset from  
below.

They are shrinking fast... but they are still so big!

shrink

Bye bye boobies...

Smaller!

*Reduce!*

There they go...

*Original Breast Size*

And gone..  
so cute!

After another long brainstorming session and tempering with the Bust Enhancer, Dr. Alcone has taken everything breast related into account and she is sure the device will now yield the promised results. Time for the final test! JULIE!!

Nothing is 100% in science...

But yeah, I'm pretty sure.

You sure it's gonna work this time?

you to shave  
the subject?

I did just  
yesterday!

Wow, mom!  
That really is one  
big butt! Master  
will be pleased!

**BIG BUTTT!!!**

Having found two further functions for the Bust Enhancer... even though it's not bust related, Stacey returns to her computer and keeps working the night through to finally fix the device...

The next morning she calls Julie over to inform her that it's finally done. The Bust Enhancer is ready!!

I can do anything!

Well, what can I say? Your mother is a genius!

I then simply had the AI solve the problem for me!

I've written an AI that simulates the human body and the Bust Enhancer's effects on it.

Well, deary. After our repeated failures I've taken a new approach.

What makes you so sure it's working now?

Err... shouldn't writing an AI that can do what you can't be more complicated to do than actually doing the thing?

Except directly fixing the bust enhancer on your own...

$$\frac{\partial \chi_h}{\partial E} + \frac{\partial \chi_h}{\partial x} = v_s(E_s - \hbar \omega_c) ; \quad \eta = \frac{z}{h \omega_c}$$
$$\frac{\partial \chi_h}{\partial E} + \frac{\partial \chi_h}{\partial x} = v_s(E_s - \hbar \omega_c) ; \quad \eta = \frac{z}{h \omega_c}$$
$$E_s = \frac{\Delta z}{1 + \alpha_s} ; \quad z_s$$
$$\chi_r = \frac{1}{D} \sum_{n=1}^{\infty} \left( \frac{x - x_n}{D} \right)^2$$
$$K_2 = \left[ \frac{1}{12} \sum_{n=1}^{\infty} \left( \frac{x - x_n}{D} \right)^4 \right]^{1/2}$$

Well. Be it as it may. I'm happy to announce: The Bust Enhancer is working flawlessly now!

\*Hmpf\* \*Hmpf\* Glad to hear that!

Master, welcome to the lab.

We will now showcase the working product.

May I direct  
your attention  
to subject  
Nicole.

**N.I.C.O.L.E.**  
What does it  
stand for?

**No idea.**  
Already forgot.  
Julie named  
her.

**Did not!**  
It's just  
her...

**Whatever, Julie!**  
Now, Master,  
please watch me  
use the device on  
the test subject.

Now please,  
observe the  
subject's breast  
expanding.

*Expand!*

And  
expanding  
...

**BIGGER!**

And settling for  
a perfectly fake  
double G-Cup.

Oho!  
Well done!  
Good job,  
Stacey!

**FAKE**  
**Double G-CUP!**  
*(Finally!)*

breasts

Please keep watching the subject's breasts as I zap it again.

I'm glad you like it, Master. But there is more!

With this button we can change the breast tissue itself.

Sas!

In such a way that the silicone like denseness is lost and the tissue tightness is reduced tremendously.

Leading to quite saggy tits.

I see! Very interesting!

Saggy Tits!

Of course, we can also settle for the middle with another push of the button.

Making the tissue tighter, but not like silicone.

**TIGHTEN!!**

*Natural Tits!*

Thank you, Master.  
Now please come  
closer. There is more  
we can change about  
these breasts!

Leading to  
awesome natural-  
looking breasts!

**Wow!**  
You've really  
outshined yourself  
this time, Stacey!

Please focus on  
the areole area.  
It's getting larger  
and much  
puffier!

And for the final touch... **Julie!**

**\*DRUM-

We have full control of the nipples as well!

**\*Gulp\***  
**Impressive!**

**Very  
Impressive!**

Now, there are two  
more features, but  
they are not breast  
related. Shall we  
showcase them  
anyway?

By all means,  
please, go  
on.

Alright, please  
focus on the  
privates for  
this one.

Pubic hair?!

Indeed!

And we have  
full control  
over it!

We can  
change its  
colour...

Its shape ... Look!  
Julie insisted we  
program a little  
heart as a default  
setting.

A milestone in cosmetics and hair removal!

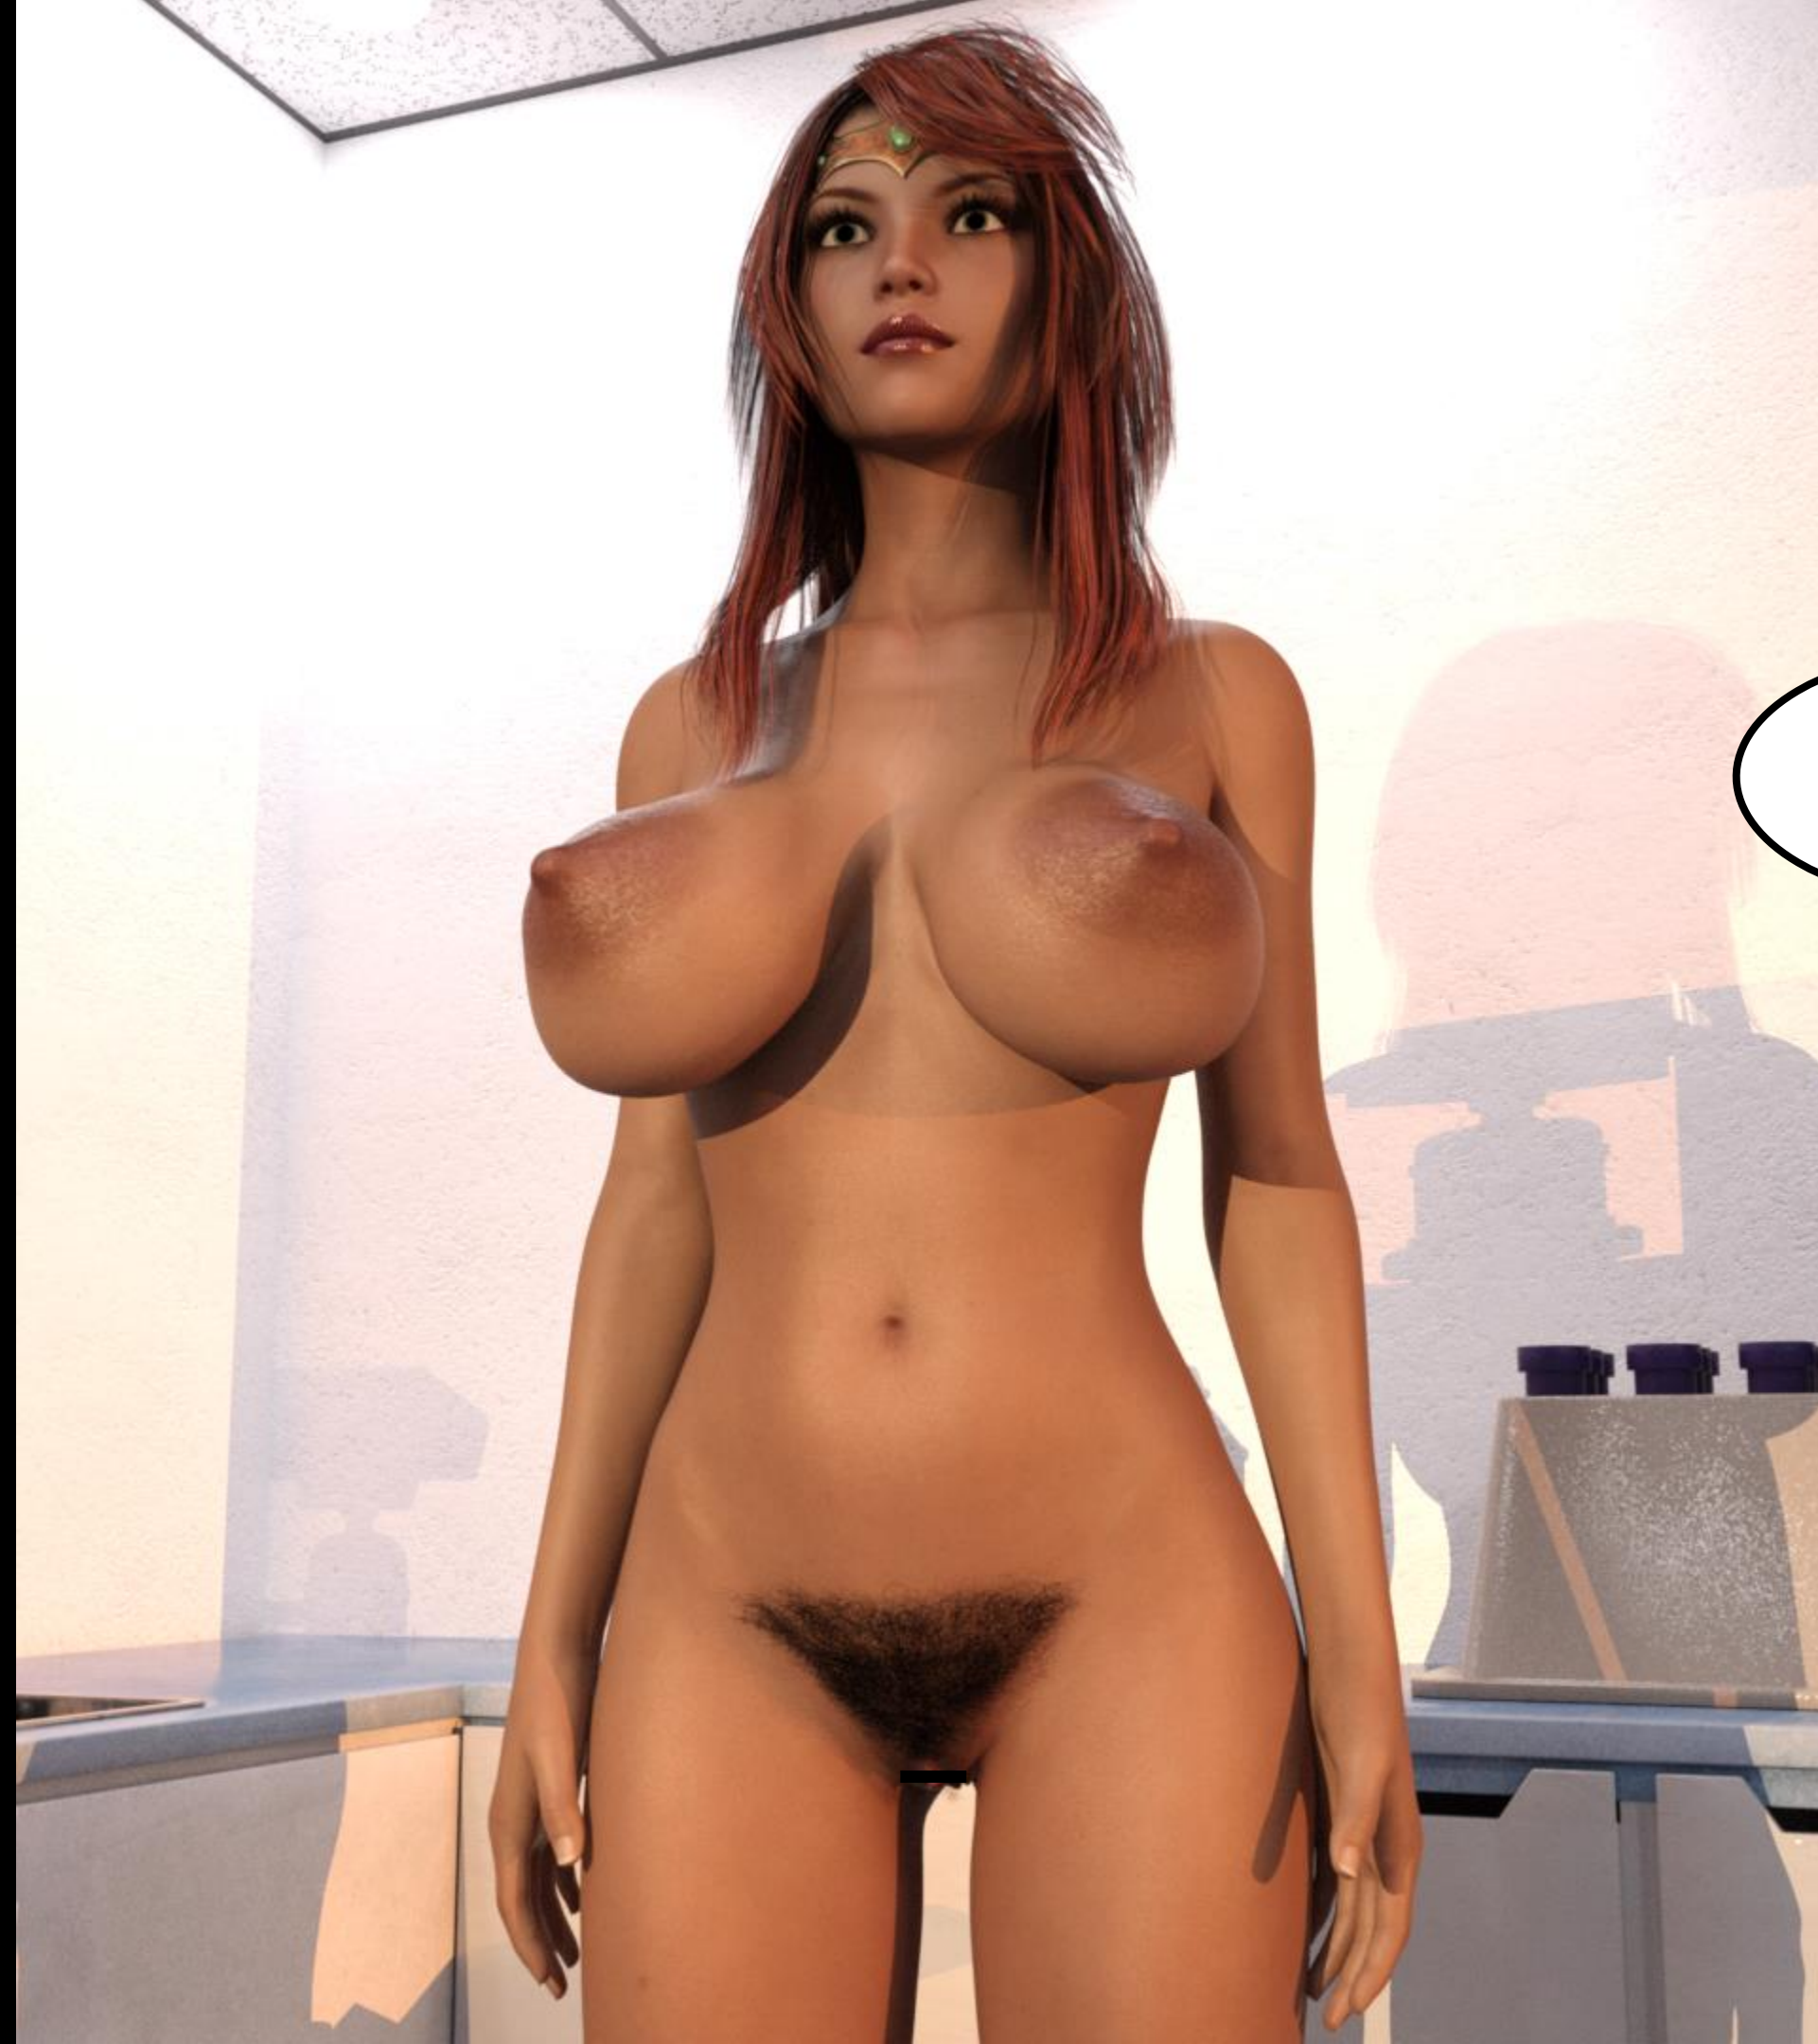

This could be the invention of the century!

And even its length and density.

Do you have any preference, Master?

A full bush, please.

A full bush?!  
Errr... of course.  
Anything you  
want, Master.

Tada. Full  
Bush!

Change it to  
her natural  
hair colour.

Sure... like this, Master?

Perfect!

... if you say so, Master...

Now if you could command the test subject to turn around that would be a huge help for the next feature.

Turn around, Subject N.I.C.O.L.E.

Thank you,  
Master.

Please have a look  
at the subject's  
bottom as I hit  
this button

Don't tell me  
you can...

Indeed!  
We can!

Stacey,  
you are a

Thank you!  
But I can't take

My AI did  
most of the  
fine-tuning in  
the end.

I'm calling  
it Julie 2.0.

I have to admit.  
Your results are  
outstanding,  
Stacey!

Alright, girls!  
Now I want to  
try this thing

While the girls keep at it Jame's thoughts drift to another problem that needs fixing... And since James is a man living in the moment... If you can fix something why wait... start fixing it now! Especially if you can make somebody else do it 😊.

# Thank you for reading!

Hello, Hexxet here,

I hope you enjoyed my comic. 😊

This one got a little bit carried away with the transformation sequences (and me trying to be funny ^^). That's why it got this long. But I hope you've enjoyed all those breast-experiments on the newest test subject Nicole 😊.

Note that all of this is only setting up the stage for some more Breast Enhancer fiction you are hopefully looking forward to 😊

If you like my comics, please consider supporting me on Patreon or Gumroad by buying my work. I need your support to keep creating more Mind/Magic-Control comics! 😊
