

Location Concept Art

Downtown:

Residential area apartment blocks are laid out similarly, with parking in the interior along with small park/community facilities.

Very Unimportant Note: street lamp would have 4 blades or 3, depending on location, this only shows 2.

A larger blown-up version of the downtown map.

Some thematically similar images

A more residential-type area

The central park area, which has good canopy cover and nice pathways. The central park is quite large, covering 4 square blocks.
