Dubois Vol.2

Nonoplayer

None but the shadowy creatures take comfort dwelling within these terrains.

At least they shall be easy to be located.

"Reveal yourself, monster..."

Excelling in silence and stealth, it leaves me wondering if it is truly present.

Many inquiries remain unaddressed since our last encounter.

In the solitary darkness, I now find myself feeling foolish.

Perchance it truly is absent from this place...

...?

As I was about to make my departure...

Awh!

Ah...

While I hold faith in its remembrance of me, perchance it tightens its grasp upon me with excessive force.

"You sneaky fellow."

Ngh

Hhh

"Hold, hold your pace..."

Nghh

"Oh my, you're eager aren't you?"

Ng...

I am certain that with further echoes of my voice, it shall recall our prior meeting with greater clarity.

Oh!

"Gentle, Dubois!"

Oh, heavens, not my throat once more...

Hah

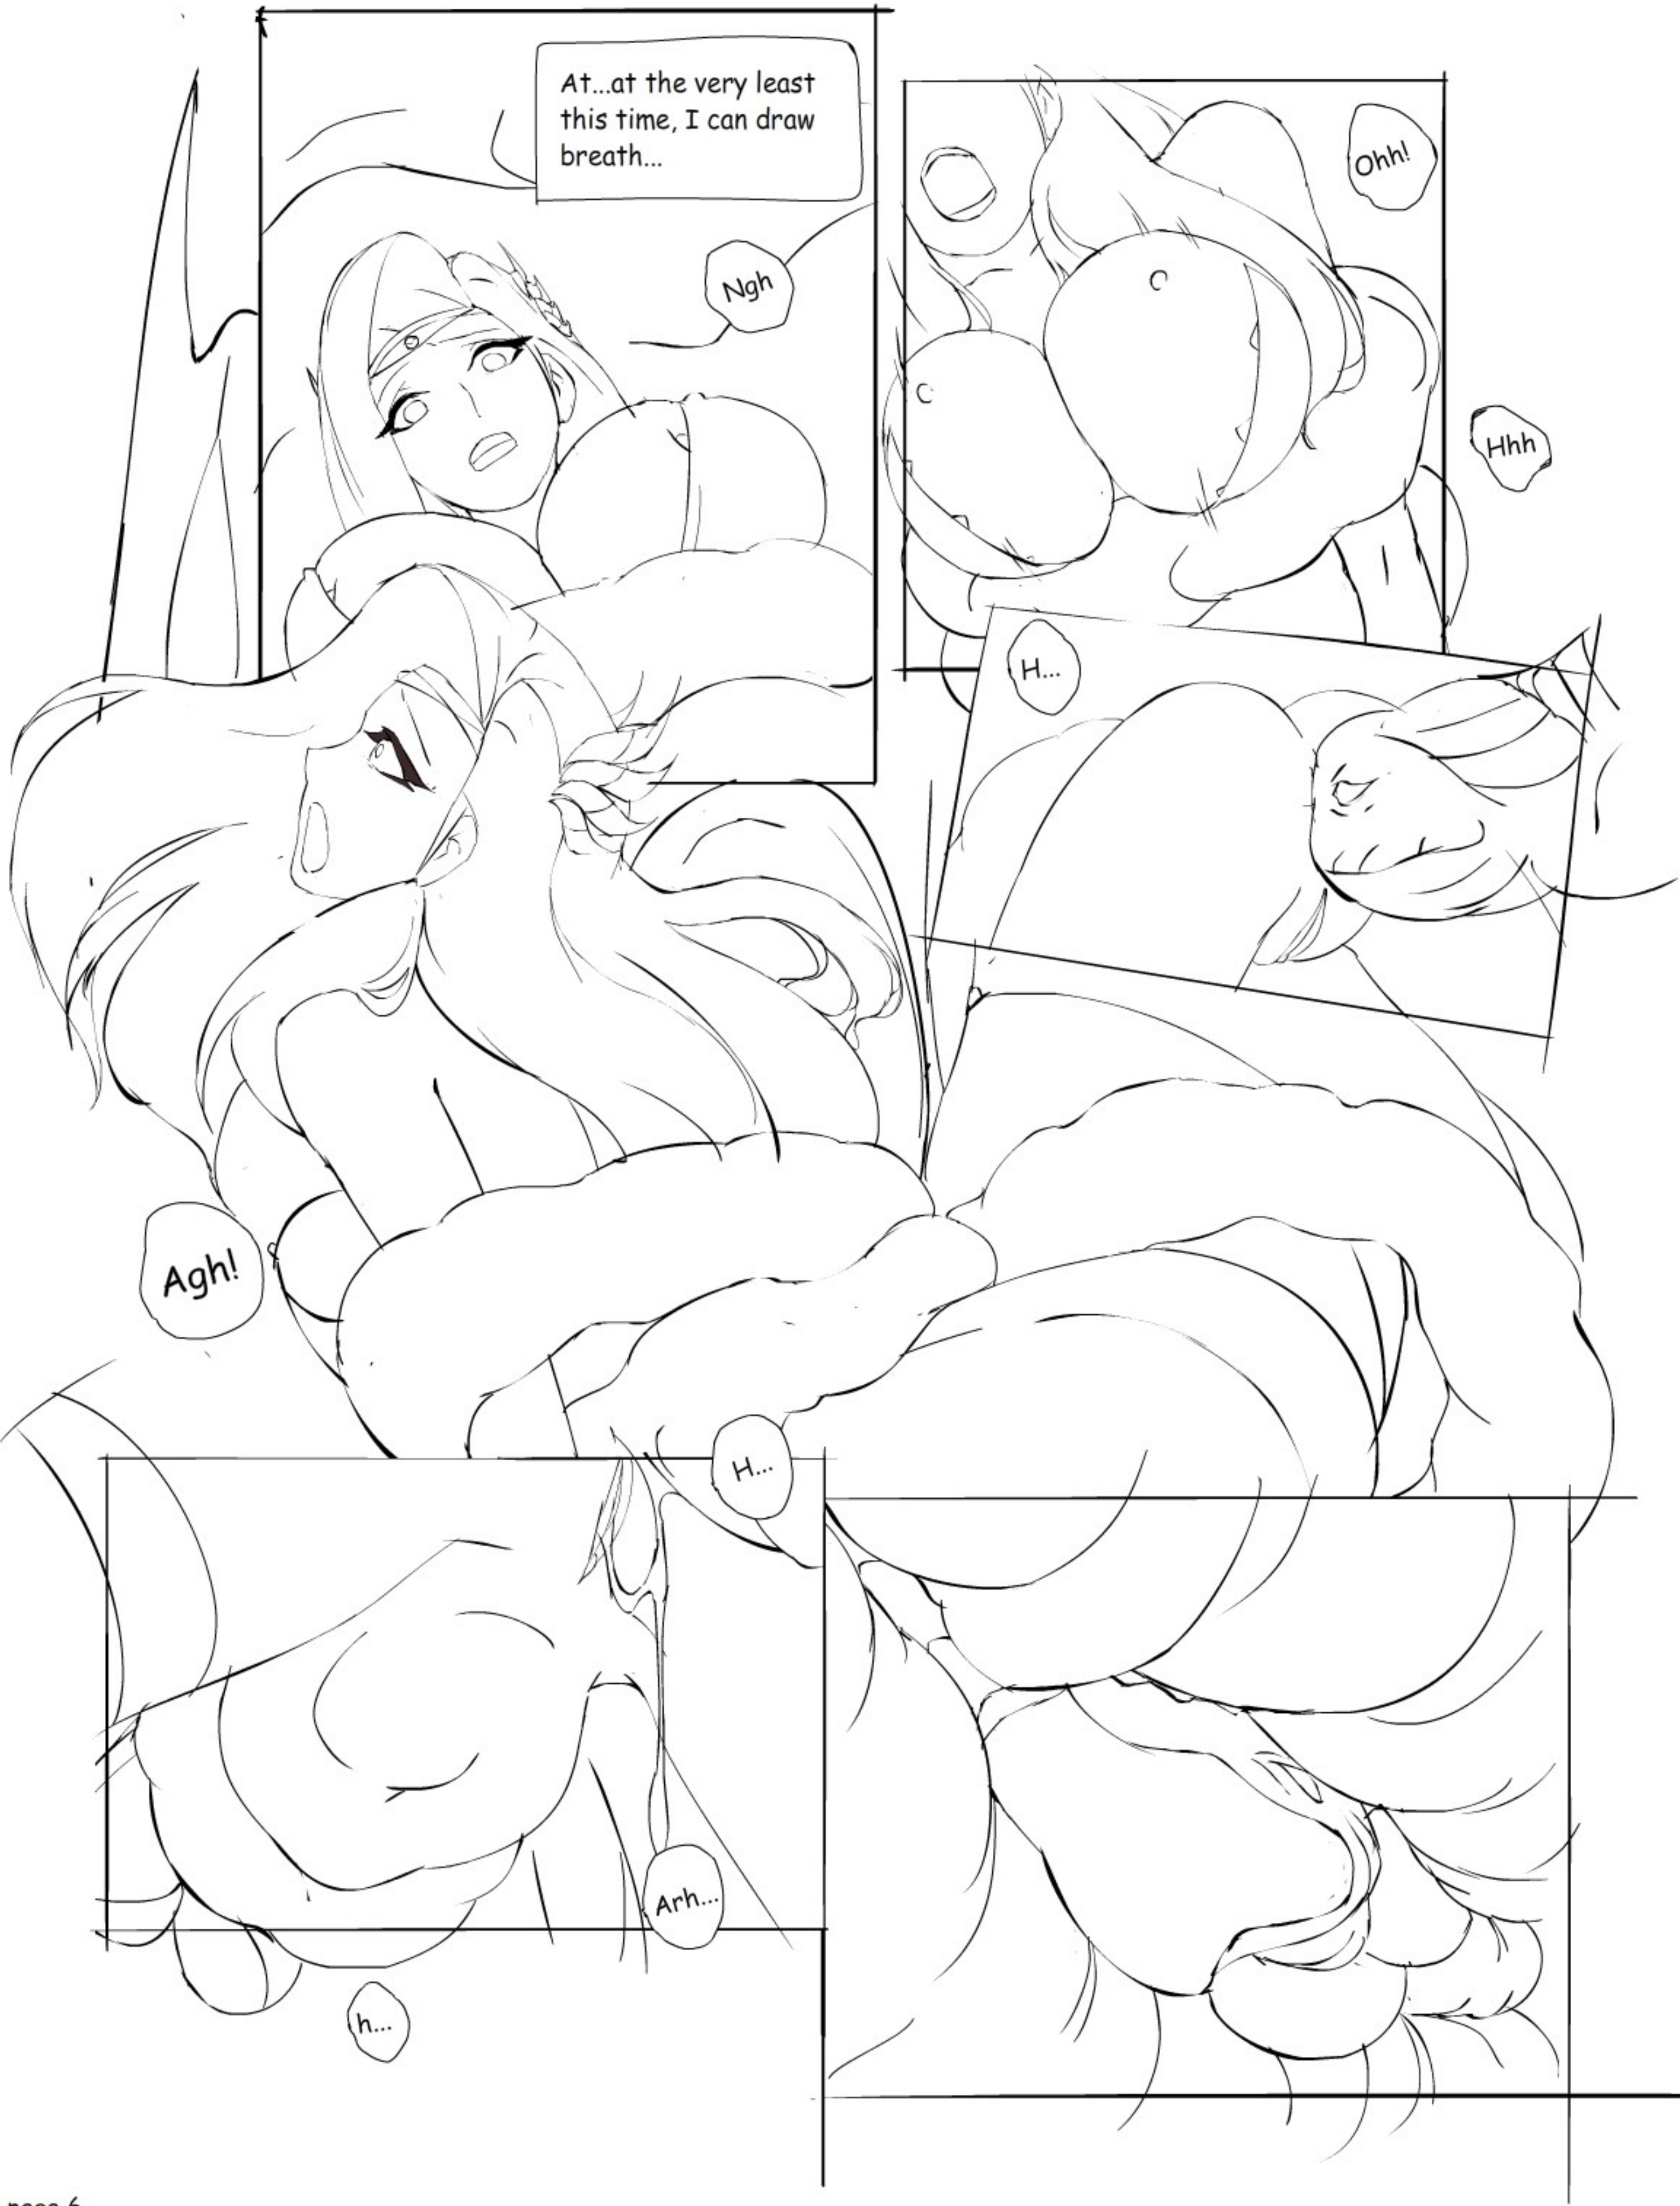

...

It appears that something else has sparked its interest.

Ae?!

What other dark scheme does it harbor within its mind?

H...

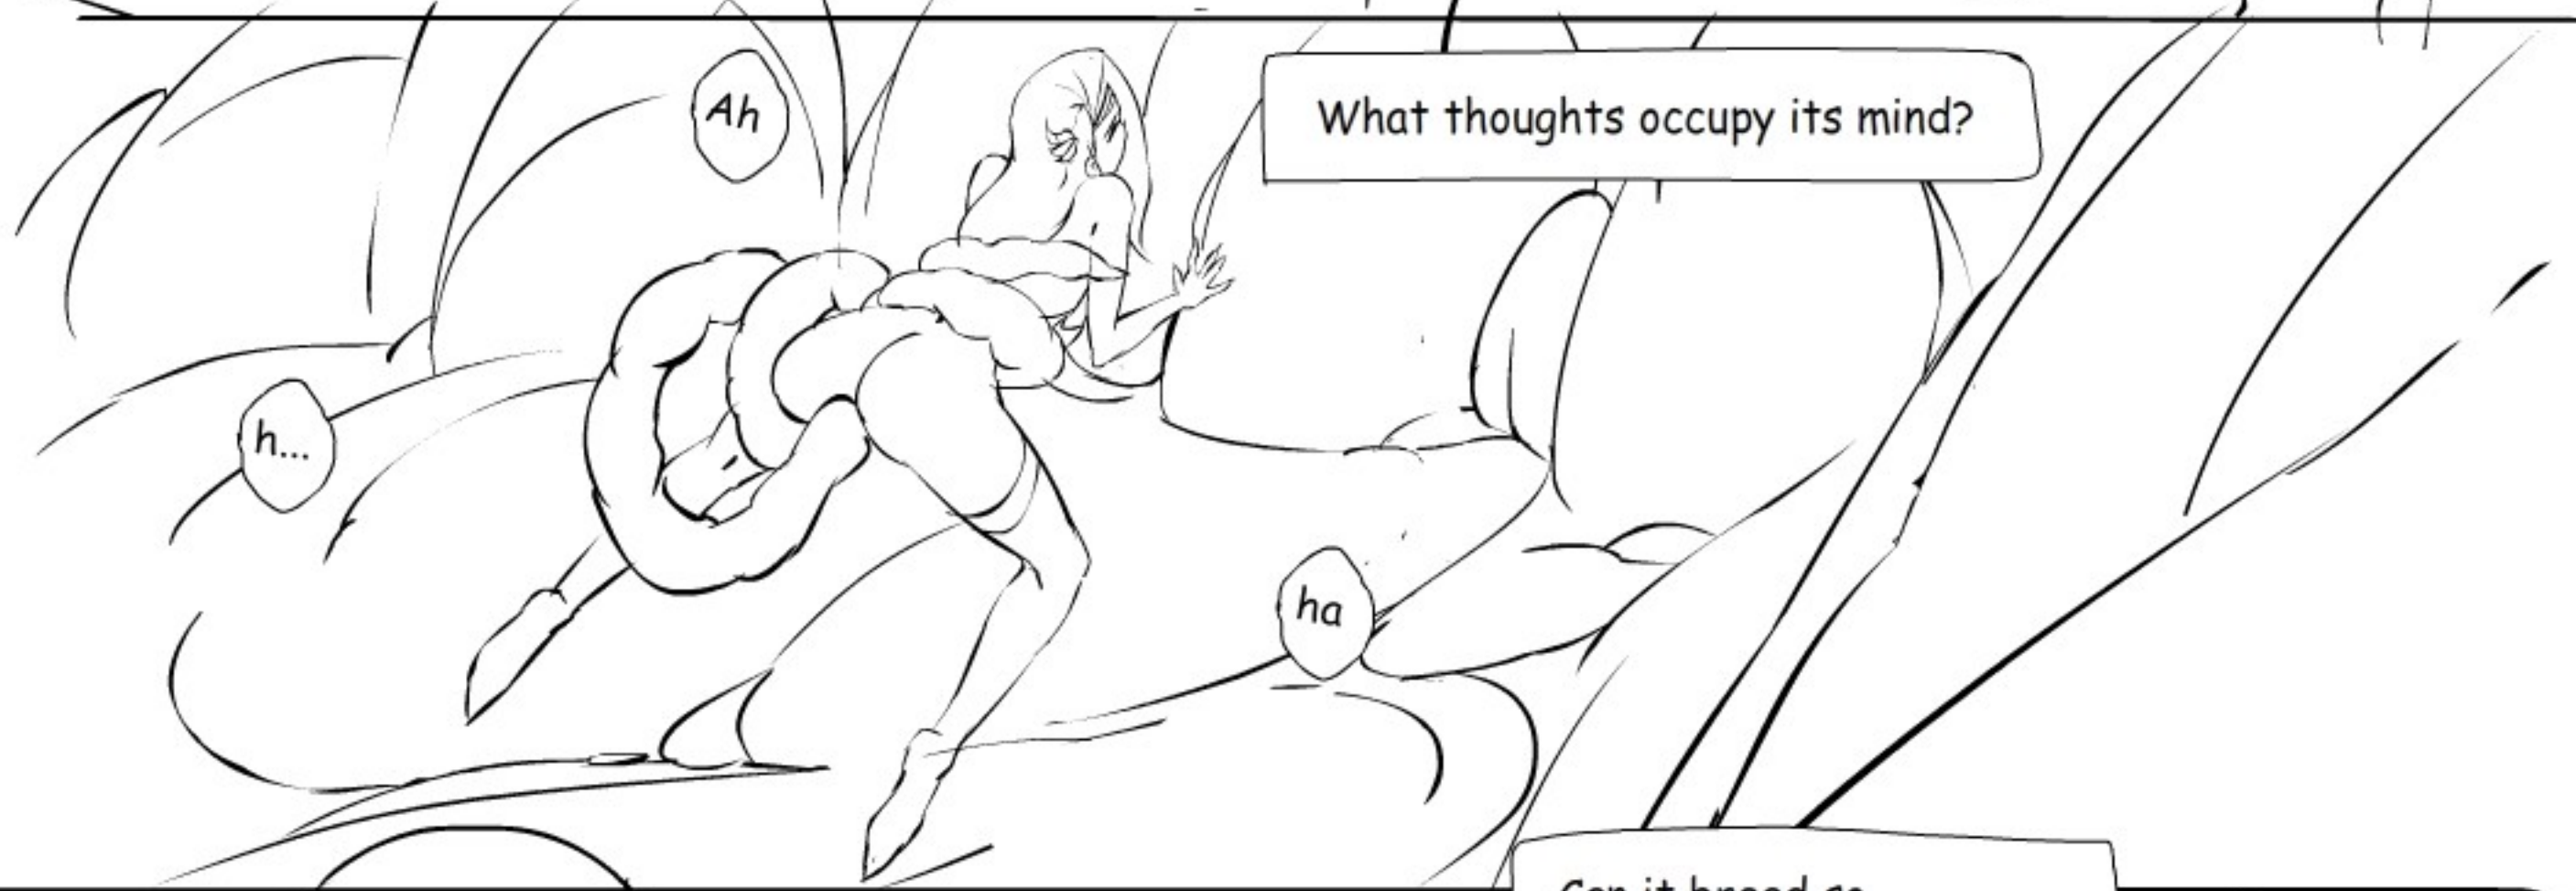

Oh Gods...it is so thick...

Mnh!

Uhh!

Aah!

What thoughts occupy its mind?

Ah

h...

ha

Can it breed so dissimilarly...than from our last encounter?

God...

Ngh!

H...

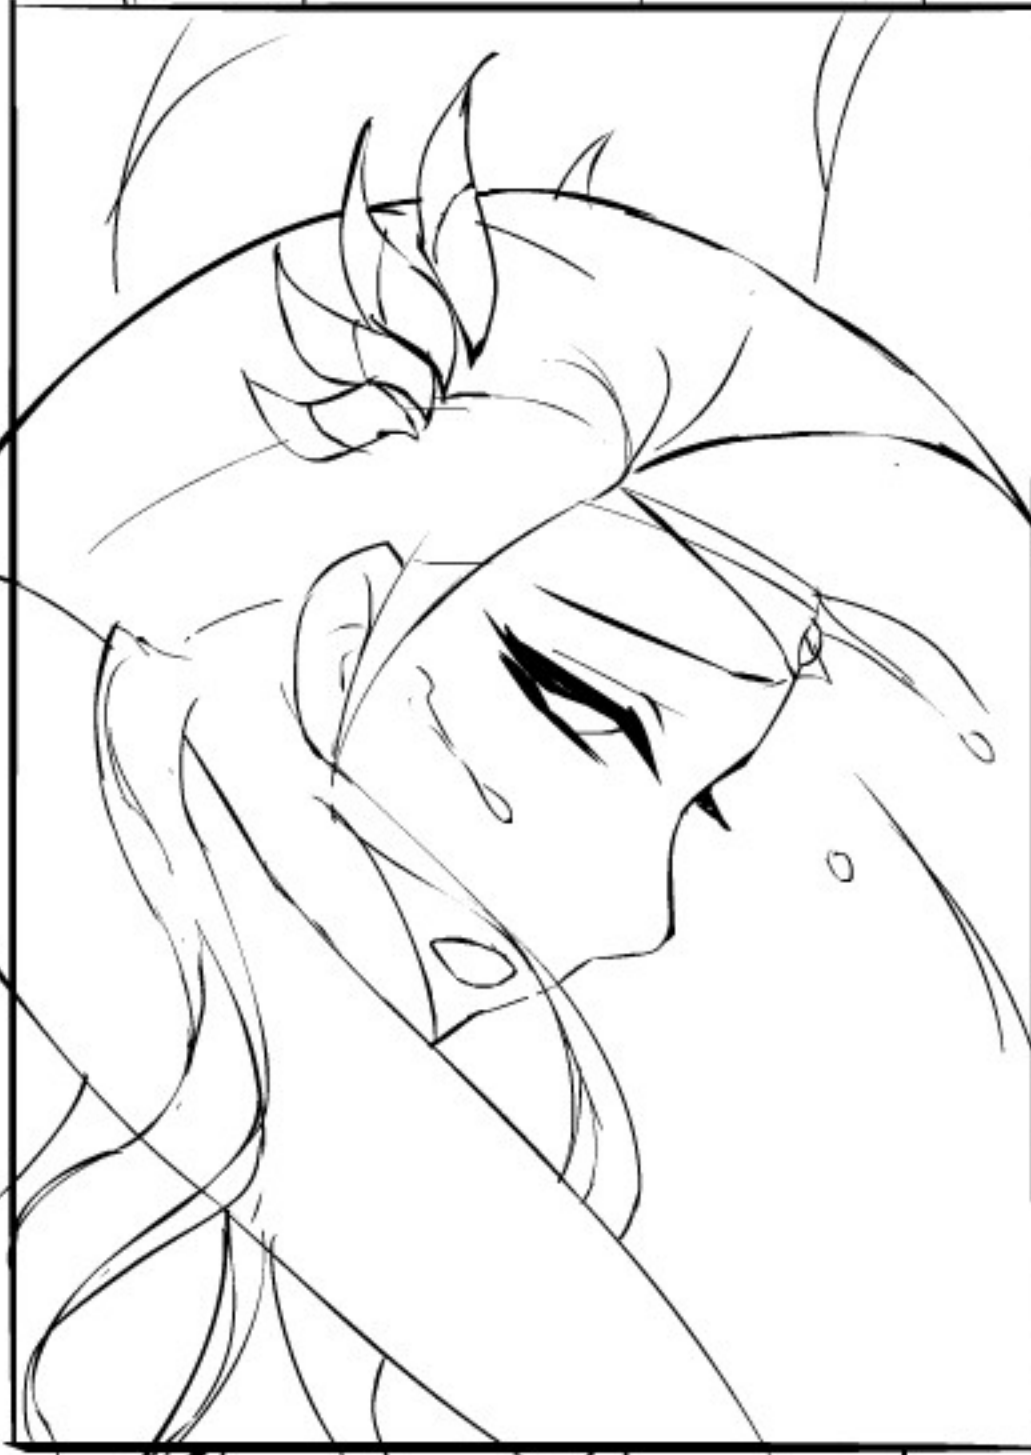

Hah...

Mgn!

I cannot endure this for long...

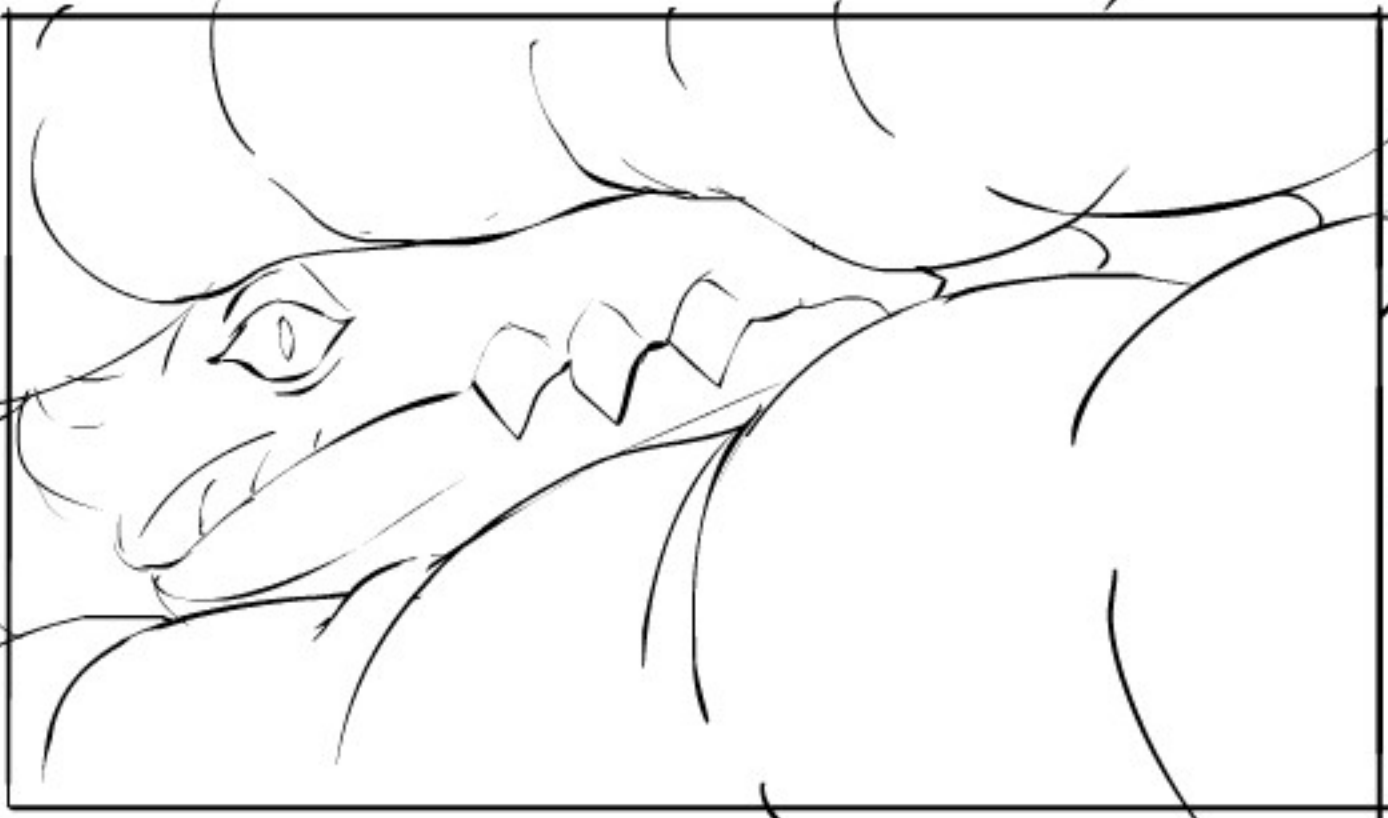

Hha

Mgh

Grh

Perhaps my struggle can arouse it, granting it a sense of dominion over that which it violates, thus bringing it to a faster climax.

ngh

"Come hither, beast...let's witness if you like a taste of this!"

Ah...

"Ah Dubois, you terrify me!"

Nm...

"Ah...stop, I yield."

H...

As I struggle and scream, trying to seem helpless and frightened of the Dubois' grasp. I can sense its growing arousal.

How did this come to be?

Ha

Eh...

Mhh

Why has its interest shifted from my throat to my rear?

God...

I can feel its scaly body moving in and out between my anus and intestine.

Uh

I can bear it no longer...

Agh

Ng...

"Lord have mercy..."

"Please...make haste...place your deposit..."

Ha...

Ngh

It is growing vigorously...

Ha

Ah

I wonder...if it is lingering to explore deeper.

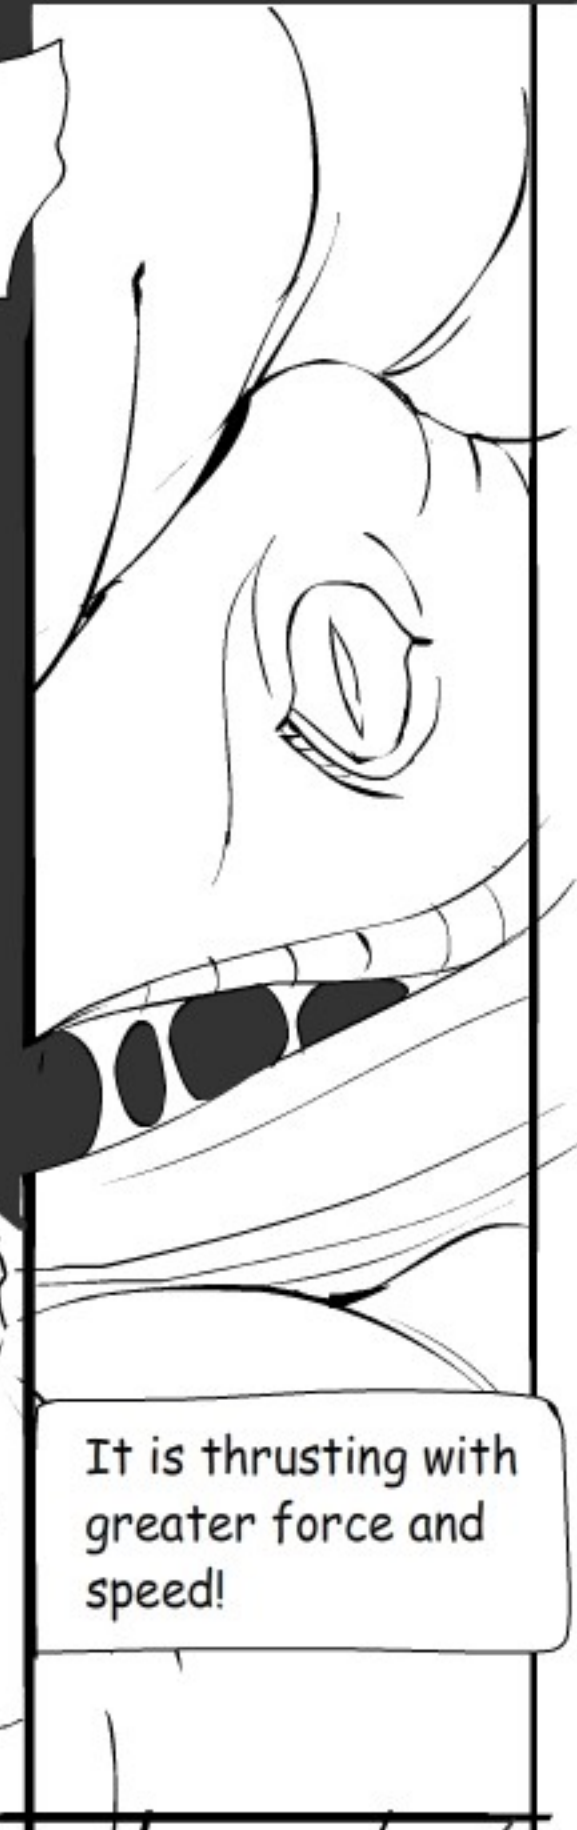

Ha

I sense it.
It is prepared
to unleash its
might.

Uh

"Make haste!
Creature!"

It is thrusting with
greater force and
speed!

Ng!

Behold, Lilith, its
arrival draws near!

Mhm!

Urghh...

...

Ngh!

Ughh!

This is too rough! My mind is slipping away...

Ug....

Ug....

My lower body is...bulging...

Ug....

Ug....

This...overwhelming...

At long last...

Ug!

...?!

Ug..!

Something... emergent
from...within my
throat...

Ug..!

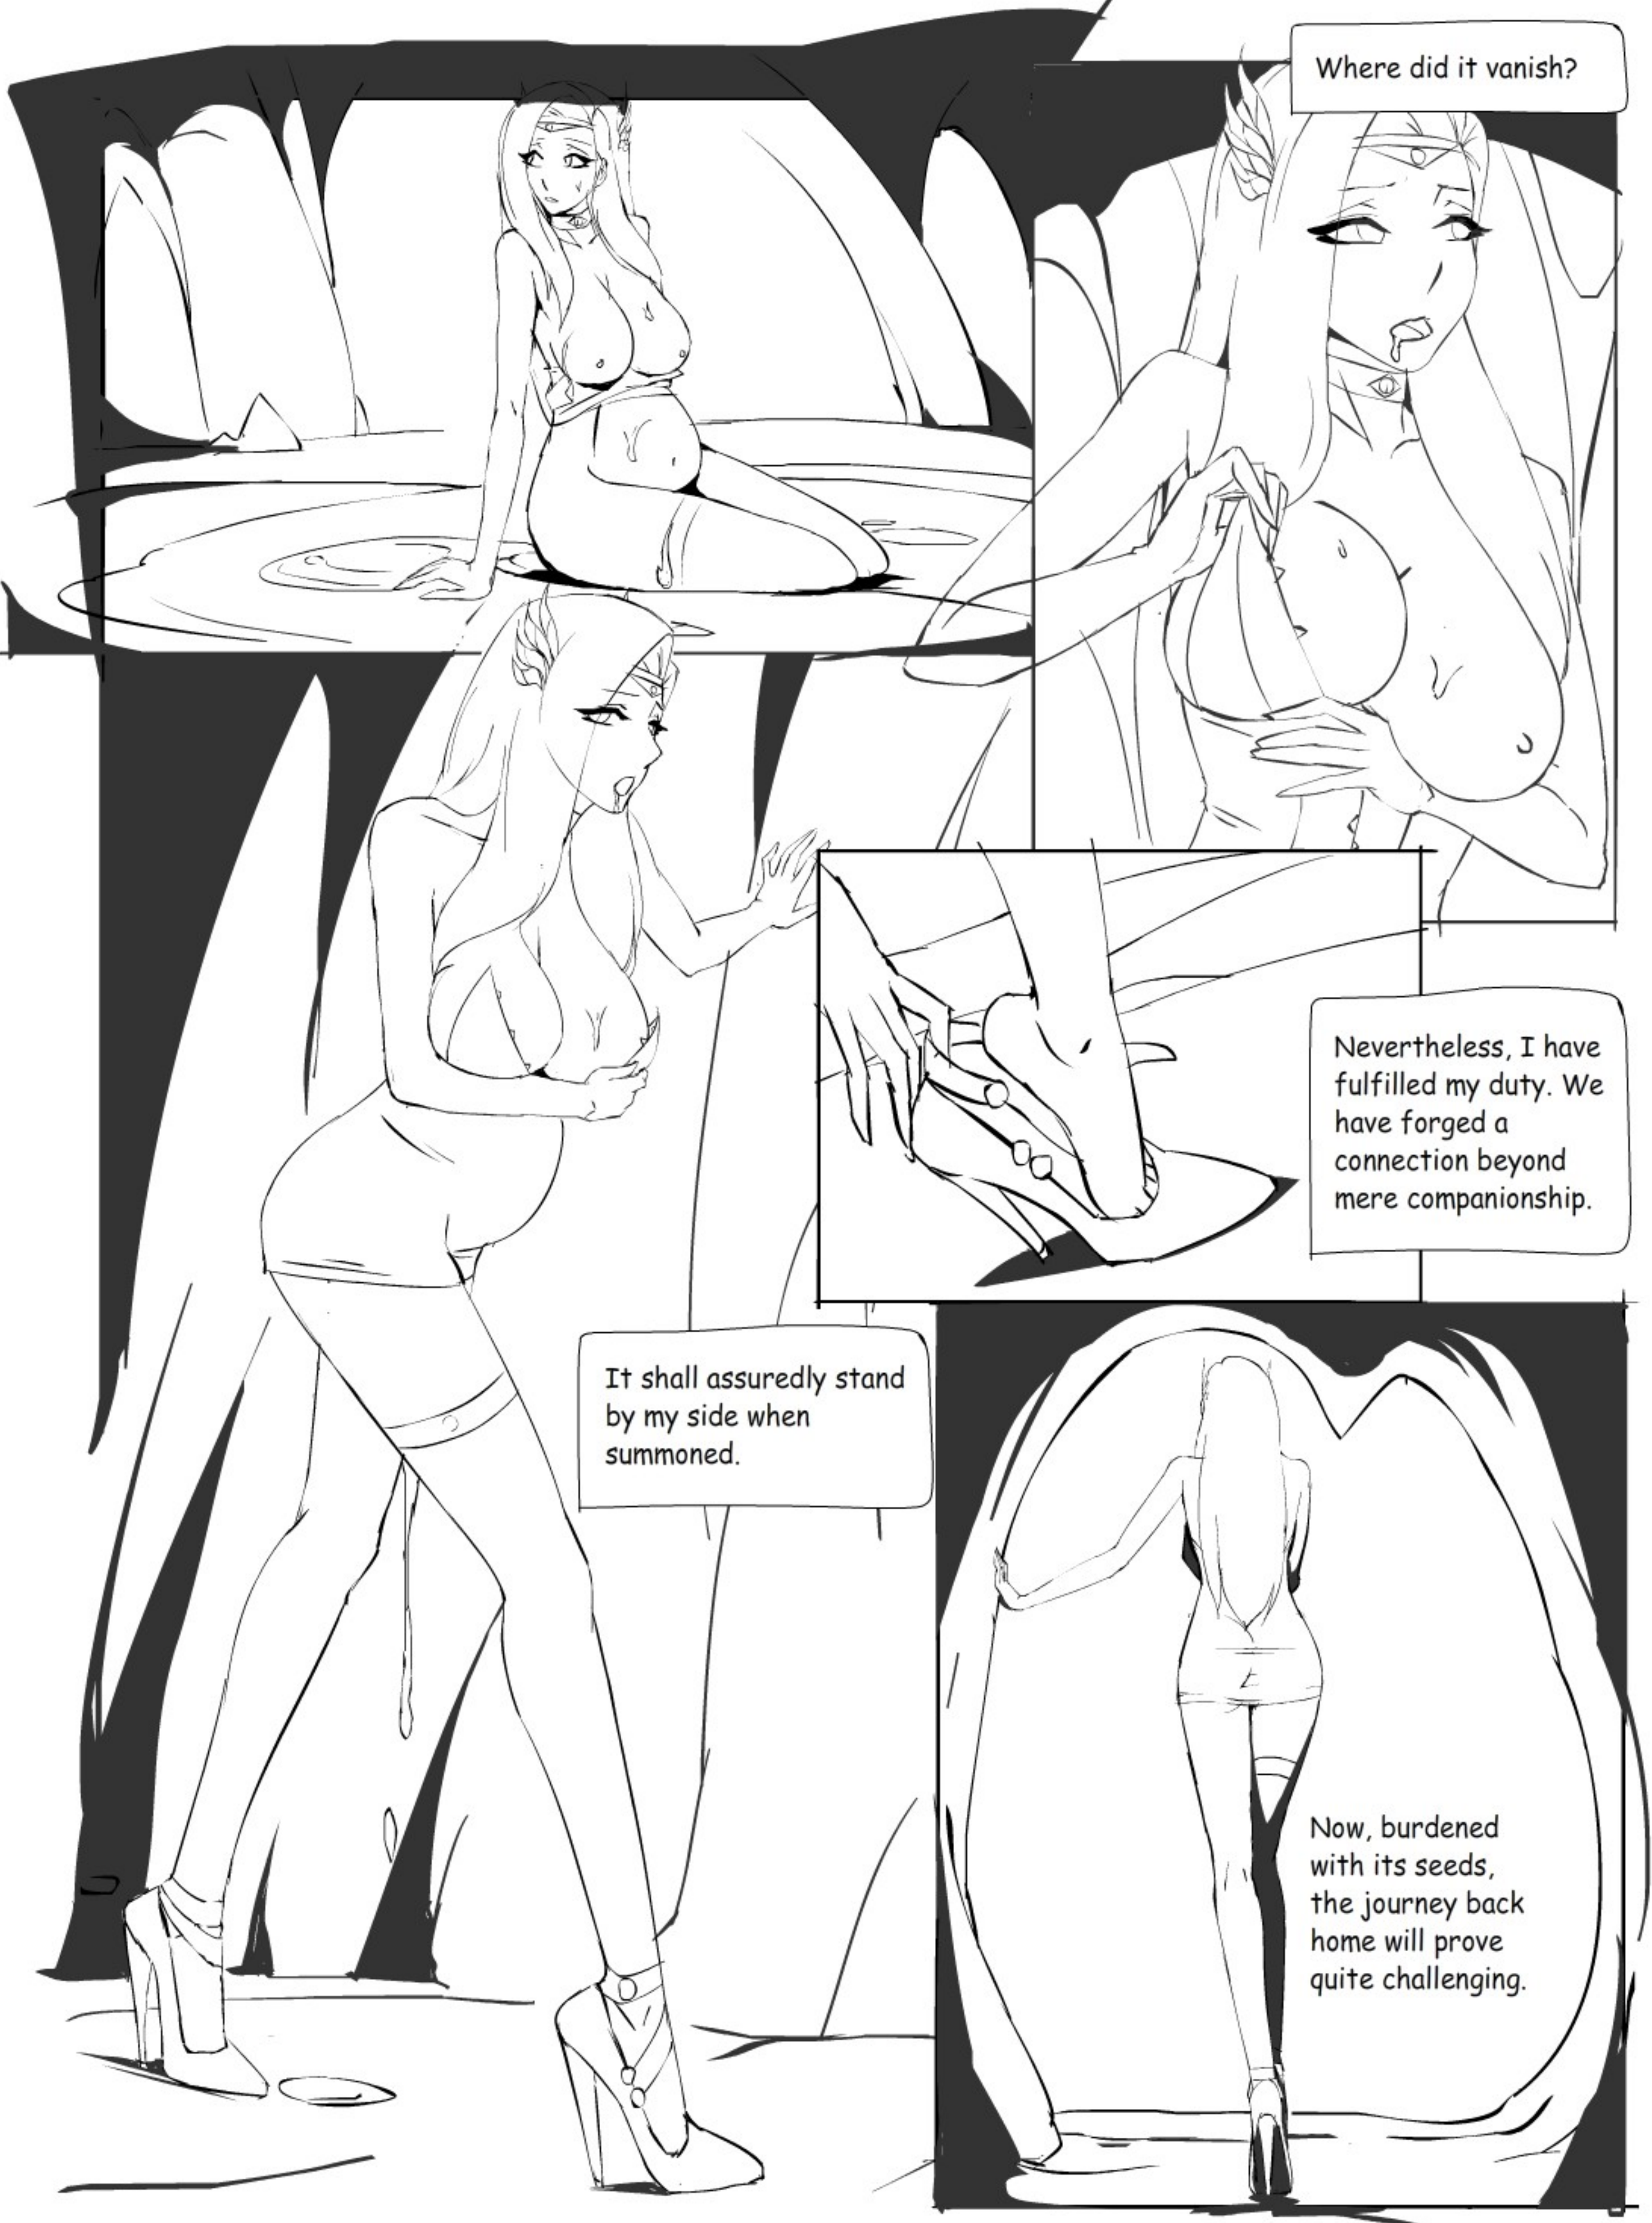

Ug....

I regret...igniting its excitement...

A strange savor...upon my tongue...

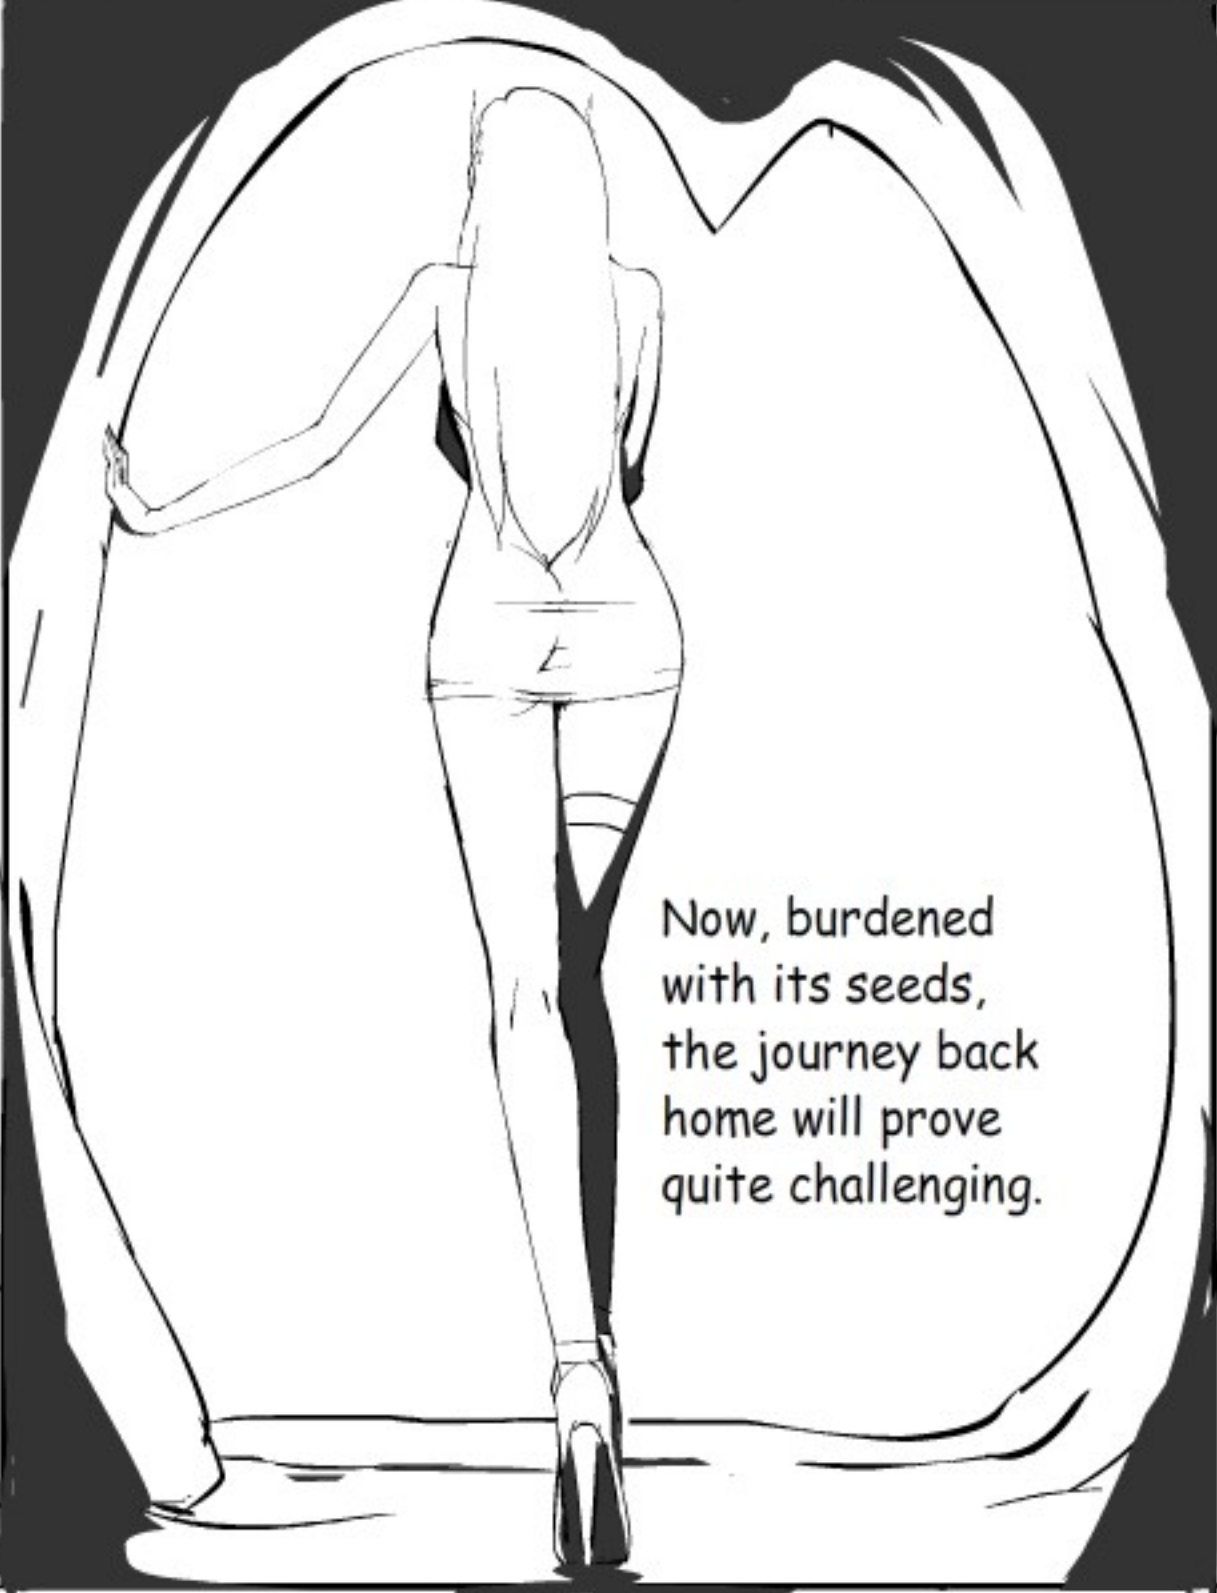

Where did it vanish?

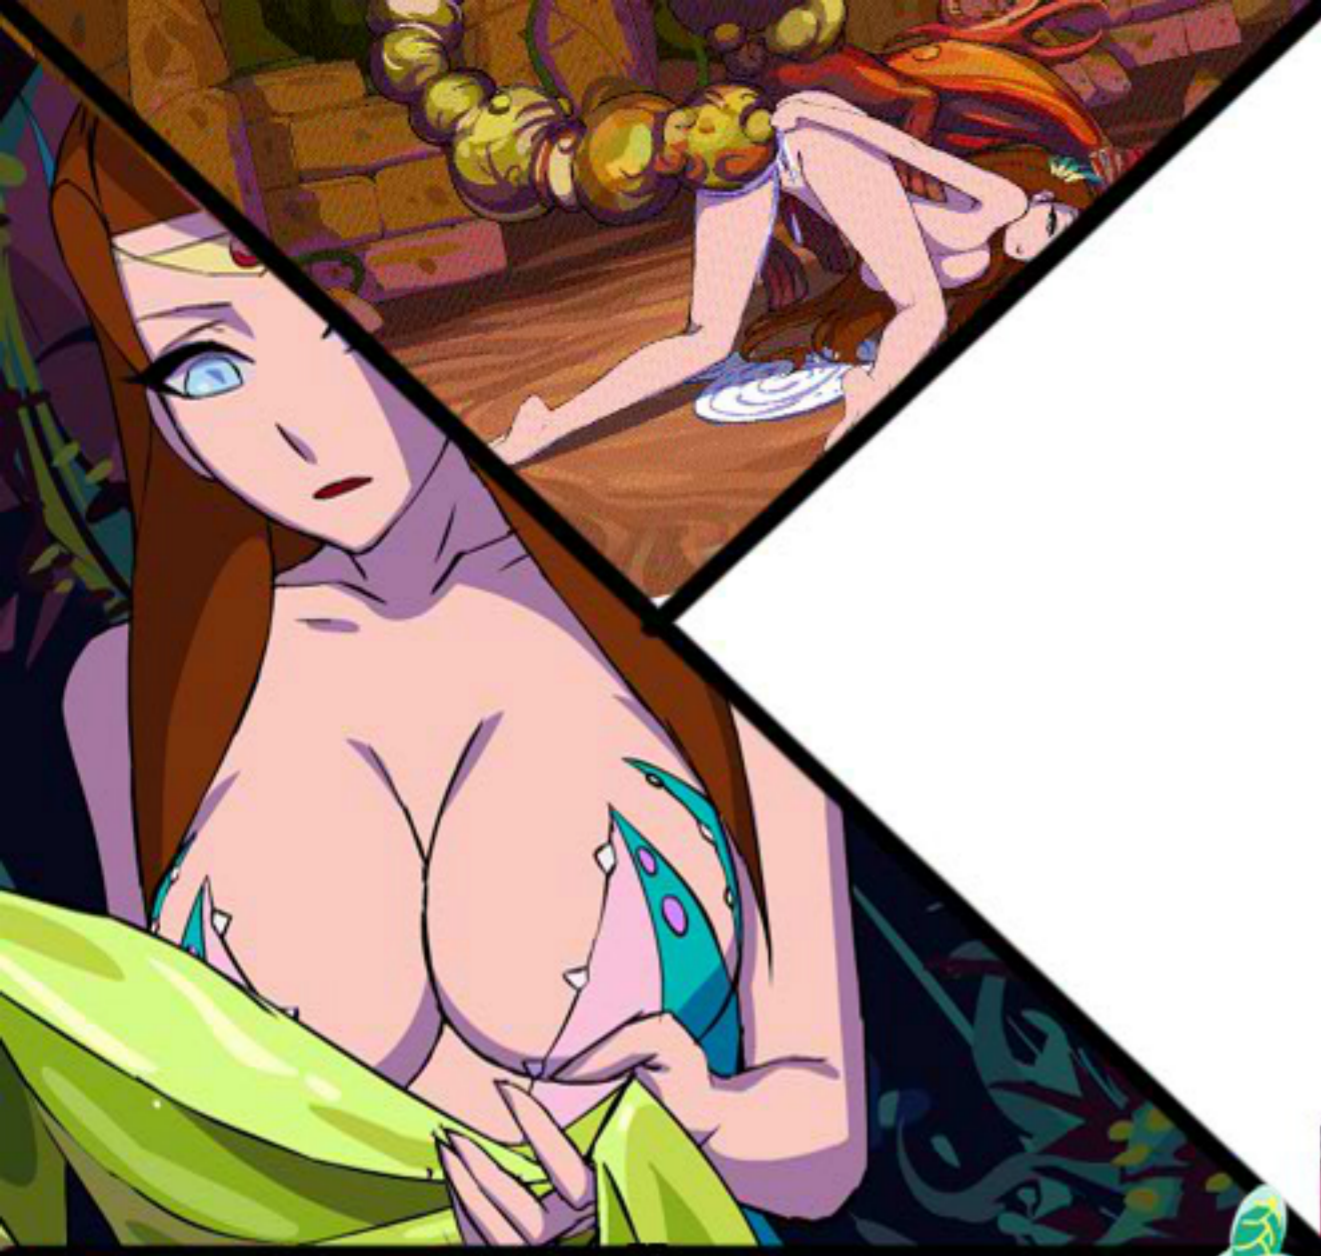

Nevertheless, I have fulfilled my duty. We have forged a connection beyond mere companionship.

It shall assuredly stand by my side when summoned.

Now, burdened with its seeds, the journey back home will prove quite challenging.
