

I have never seen this machine before! I wonder why its been sitting down in the hospitals storage?

I mean, it looks...  
Kinda lewd... waist height.  
big lubricated orifice...  
and handles to hold onto!  
It can't be!

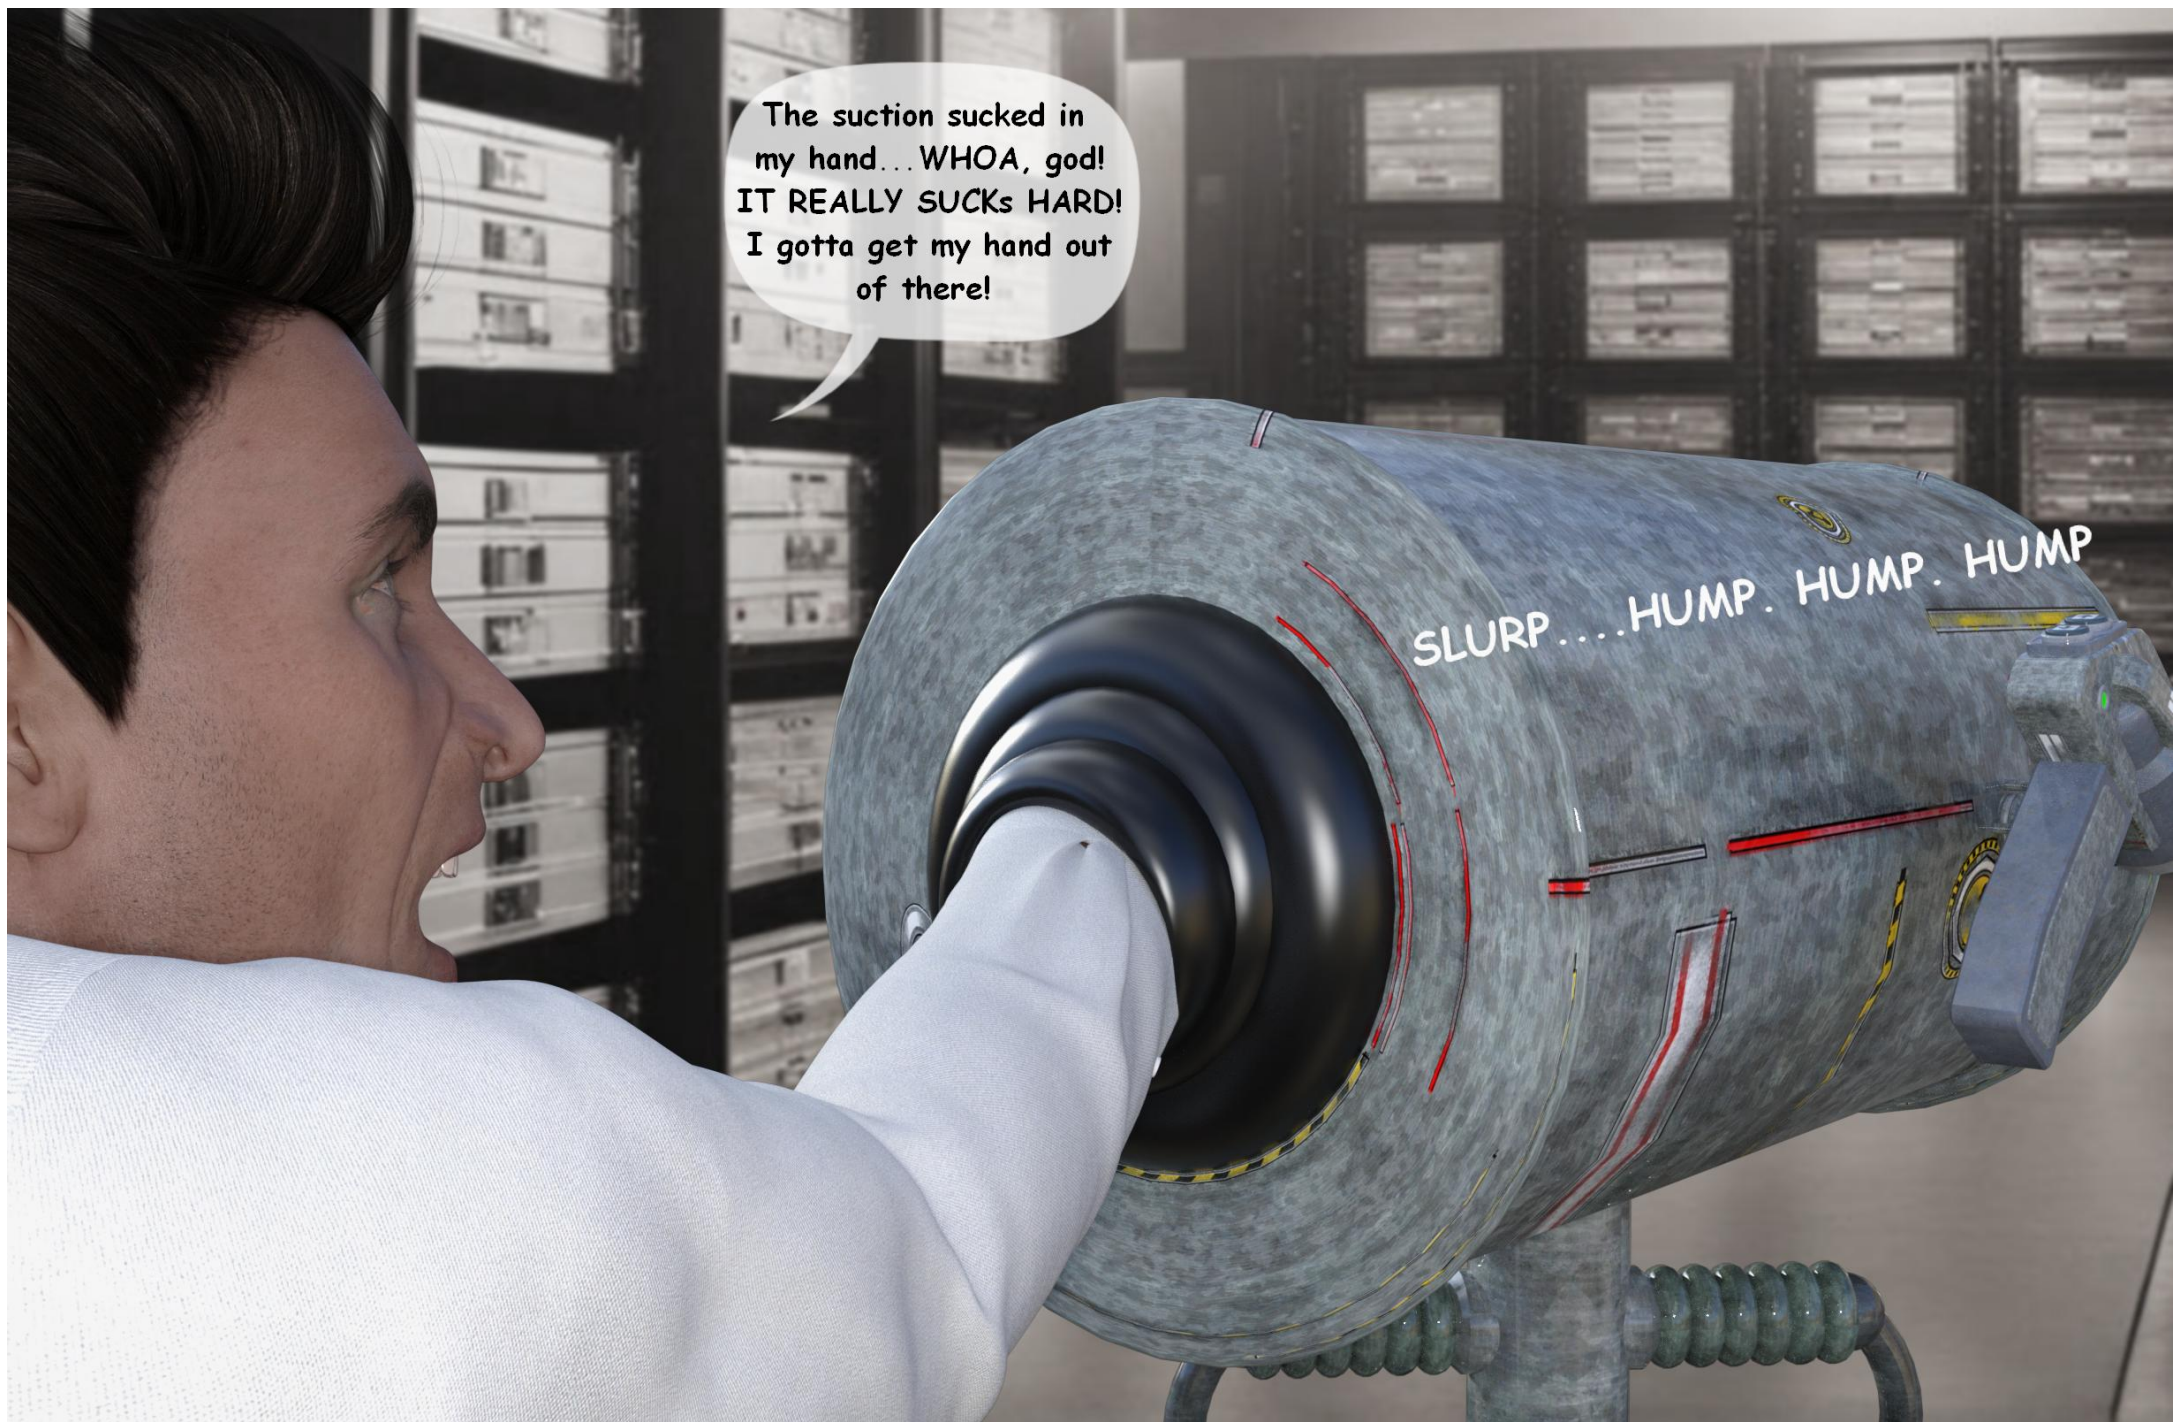

There's no way the hospital would spend money on something like this... its... wait... is it turning on by itself?

WHIRL... HUM...

The suction sucked in  
my hand...WHOA, god!  
IT REALLY SUCKs HARD!  
I gotta get my hand out  
of there!

SLURP...HUMP. HUMP. HUMP

This thing must be malfunctioning... If I hadn't gotten my hand out it would have been trouble. Had it been my D....

A woman with red hair in a bun, wearing a bright green dress, stands in a locker room. She is laughing and looking at a man who is completely nude. The man has a distressed expression and is holding a piece of white fabric. A large, grey, cylindrical mechanical device is positioned in front of him. The locker room has rows of lockers on both sides and fluorescent lights on the ceiling.

HAHA, like OMG!  
So embarrassing, its got  
your clothes...surprisingly  
powerful...you know, tearing  
off your clothes...that  
thing is a liability!

Its ripped my clothes  
right off...Oh shit, I  
am completely nude...  
Don't laugh! Like help  
of something!

A woman in a light blue lab coat with a white name tag and a white nurse's cap is holding a handheld device to the chest of a woman who is topless. They are in a server room with rows of server racks. The woman in the lab coat has a concerned expression, while the topless woman looks shocked and is holding a clear cylindrical device with a black circular opening and a blue handle.
