YES! KEEP POUNDING ME WITH YOUR FAT COCK, BABY!

Just as the mother said, she and Gohan continued to make love...

And at night, the mother and son would mate repeatedly, tenderly, and passionately. Gohan would fill his mother with cum every night until neither of them could move anymore.

Eventually becoming the next few months. During the day, the two of them would move around the house completely naked- allowing them to enjoy each other's bodies and fuck anytime, anywhere.

And they continued this relationship for the next many years in secret...
